N HANDLING COAL

Feb 4-1923

These pictures show the new constructions in the coal yard of the New Bedford Gas and Edison Light Company's electric generating plant. The upper view is of the gigantic bridge crane which spans the yard, and which may be shifted from one end of the pier to the other. In the background at the left one of the discharging towers is seen. At the time the photograph was taken the tower was in operation unloading the British coal vessel that was at the pier.

The lower picture shows at the right the horizontal conveyor belt which extends the length of the pier and also the inclined conveyor belts, leading up to the top of the bunker tower. The structure at the left is the east end of the turbine room, between which and the bunker tower may be seen a part of the wall of the boiler room.

by the company in its sliver department. He was transferred 15 years later to the paper department, and filled the position of assistant superintendent there until three years ago, when he left for Philadelphia to become superintendent of the Consolidated Paper Tube Company.

Mr. Smith has just accepted the office of superintendent of the manufacturing department of the Southern Novelty Company. He will assume his duties Sept. 1. The Southern Novelty Company which manufactures tubes, cones, and other accessories to the textile industry, was started by the late Walter F. Smith, a New Bedford man, 23 years ago. The concern has recently built a $600,000 addition to its plant.

"Mrs. Smith and I will summer at Wellfleet, near Provincetown, until we go back to Hartsville in the latter part of August," said Mr. Smith. Mr. and Mrs. Smith formerly lived at 6 Eighth street, but sold the property a year ago when they were in Philadelphia. They are building a home in Hartsville at present.

"After we settle in Hartsville in August, I am going to take a trip to England, where my concern has just put in a new plant which will manufacture the same line of goods over there which we make here. I shall spend eight weeks there, and visit France, Belgium, and possibly Germany," said Mr. Smith.

Hector C. Toupin.

Hector C. Toupin, well-known for many years, as a druggist, with his place of business located at Lund's corner, where he has been for 30 years, died suddenly at eight o'clock yesterday morning. Mr. Toupin had opened the store as usual, and seated himself in a chair. An ice-man entered the store, and Mr. Toupin requested him to summon Dr. Joel P. Bradford at once, as he felt very ill. Dr. Bradford responded to the emergency call at once but Mr. Toupin only lived 15 minutes after the arrival of the physician.

Mrs. Toupin was with her husband when the end came.

Mr. Toupin had been a resident of New Bedford for about 30 years. He was first active in the drug business in this city at a store on Webb street, but 15 years ago he moved to the Lund's Corner store, where he remained up to the time of his death.

He is survived by a wife and two sons, Jule and Charles. His home was but a few doors from his store, at 2155 Acushnet avenue. Both sons are druggists.

The funeral will be held Thursday morning at St. Joseph's church.

LINEAGE DATES TO THE MAYFLOWER

Oct 1-22

This attractive picture shows Mrs. Walter H. B. Remington, wife of the Mayor, and her two grandchildren, Helen Remington, five, and Holden Remington, Jr., three. These sturdy youngsters trace their lineage on their grandmother's side from Richard Warren, who came over in the Mayflower. They are also descended from William Spooner, one of the original proprietors of the tract which was first settled as Dartmouth and later became New Bedford.

Another ancestor on their grandmother's side was Thomas Macy, the first of the Nantucket Macys, and the forerunner of the Macy family in this section. Their great-great grandfather, William Bliss, was a Revolutionary soldier and was stationed at one time with the garrison at Howland's Ferry, which is now Stone Bridge.

On the Remington side the children are descended from John Remington, who came to this country from Wales and settled in Haverhill in 1636. He later removed to Rhode Island, where the family was among the early settlers. Their great-great-great grandfather, Holden Remington, was among Washington's soldiers at Valley Forge during the Revolution.

The name "Holden" has been a tradition in the Remington family for a great many years. It is thought that it came from Randall Holden, one of the Rhode Island pioneers, who married into the Remington family early in the 17th century. Little Holden's great grandfather was Holden Browning Remington, while his grandfather is Walter Holden Browning Remington and his father Holden Remington. The little fellow's birthday is August 25th, which is also his father's birthday.

Mr. and Mrs. Holden Remington now live at West Barrington, R. I. Mrs. Remington's name was Miss Louise Kirby previous to her marriage.

Rev. Alvah Morrill, Once of Middle Street Christian Church, Opposed Ashley in Mayoralty Contest

Haverhill, Sept. 9.—While mowing the lawn at his home, the Rev. Alvah Morrill, pastor of the Newton, N. H., North Christian Church, died suddenly Thursday afternoon. He was found by his wife, whose attention was attracted when the noise of the mowing machine ceased. Death was attributed to heart failure. He is survived by a widow, two sons and two daughters.

Rev. Mr. Morrill was well known in New Bedford as he occupied the pastorate here of the Middle St. Christian Church from 1898 to 1902. He left here to assume the pastorate of

a Providence church. He was a native of New Hampshire and was graduated from Dartmouth college, class of 1872. Upon graduation he entered the ministry and up until the time of his death he had been very prominent in the Christian denomination.

Rev. Mr. Morrill was president of the New England church convention for six years and at the time of his death was head of the Merrimack Christian Conference.

He was also an officer of the Crawsville camp meeting.

He was an ardent advocate of temperance causes. While here he ran for Mayor against former Mayor Ashley in 1901 and 1902, but failed. He was at one time chairman of the state central committee of the Prohibition party. He was also a member of the Anti-Saloon League of America.

MT. HOLYOKE GRADS BACK DRAMATIC RECITAL

Left to Right—Miss Gladys Blackmer, Deborah H. Harrub, Helen Stearns and Dorothy Whitton.

A small band of determined Mount Holyoke College graduates are back of the treat in store in the coming dramatic recital by Charles Rann Kennedy, famous as the author of "The Servant in the House," and his gifted wife, Edith Wynne Matthison. The recital is to be held in the County Street Methodist Church Friday evening. It is for the benefit of the Mount Holyoke endowment fund of several million dollars toward which each alumna is pledged to raise $305.

Mr. Kennedy is an author, playwright, actor and producer, but latterly has given up the stage to devote himself entirely to literature and the drama. He says of himself that he is "only a clergyman in disguise." His plays have made a profound spiritual impression upon the reading public, as well as upon the enthusiastic audiences which always greet the production of his works.

Mrs. Kennedy was Sir Henry Irving's last leading lady, and her Portia to his Shylock was a notable achievement. The night the great actor died, she played Rosamund to his Becket. More recently she played Queen Katherine in Sir Herbert Tree's production of "Henry VIII.," Portia, Rosalind and Everyman in her own revivals in New York and the leading roles in Mr. Kennedy's "The Army with Banners" and "The Fool from the Hill," and the "Electra of Euripides."

Like Ellen Terry, Mrs. Kennedy was born in Shakespeare's own country of Warwickshire, England. She began her histrionic career at an early age in musical comedy, but within a short time was graduated into the higher realm of Greek and Elizabethan plays and modern classics.

The program for the New Bedford recital includes four numbers:

Trial scene from "The Merchant of Venice."

Scene from "The Servant in the House."

Quarrel scene from "The School for Scandal."

Lady Gregory's "The Rising of the Moon," a one-act play.

Mount Holyoke alumnae working for the success of the recital are Misses Gladys Blackmer, Josephine Deuel, Deborah H. Harrub, Grace Potter, Helen Stearns, Dorothy Whitton, Mrs. Clayton P. Hawes, Mrs. Galen Hill, Mrs. William P. Potter, Mrs. William F. Snow.

Martin Freundschuh, One of Oldest Germans in City, Was in British Army in Australia

Following an illness lasting more than a year Martin Freundschuh, 87, one of the oldest German residents of the city, died Saturday afternoon at his home at 68 Forest street.

Mr. Freundschuh, up to the time of his retirement in 1913, had conducted a shoemaking business on Bedford street for more than 31 years and was particularly well known through the center and southwest sections of the city. Mr. Freundschuh came to this city in 1869 on a whaling vessel from Australia after spending four years in that country as a member of the English Army.

He left his native home in Baden, Germany, while a boy in order to avoid conscription in the German Army only to be drafted into the British Army shortly after he reached Australia. During his service with the British Army in Australia he took part in several important engagements against the bushmen.

Signed Aboard A Whaler.

Upon the completion of his term of service with the English army he signed on board a New Bedford whaler in port there and after a long voyage came to this city where he has since made his home.

A year after arriving in this city Mr. Freundschuh on March 18, 1872, married Miss Helena Putz and on last March 18th they celebrated their golden wedding anniversary at their home on Forest street.

In addition to his wife Mr. Freundschuh is survived by a sister, Mrs. Katherine Gresser, and two daughters all of this city.

Mr. Freundschuh was the old member of the German Order of F Men in this city and the funeral se vices this afternoon were conduct under the direction of this order.

...ALFRED W. DEWOLF DIES SUDDENLY

mar 13 - 1923

Senior Member of Hardware Firm Breathes Last in His Padanaram Home

Born Here in 1856, He Had Resided Here Most of His Life

mar 12 1923

Alfred W. DeWolf, a life long resident of New Bedford and in business here for many years as the senior member of the hardware firm of DeWolf & Vincent, died suddenly at two yesterday afternoon at his home on Middle street, Padanaram. Mr. DeWolf had been in poor health for a number of years, and in December, 1919, he retired from the hardware business with which his name was associated, and was succeeded by his son, Ward DeWolf. Mr. DeWolf passed his 67th birthday last month.

Mr. DeWolf was born here Feb. 4, 1856, the son of Charles and Eliza M. (Ward) DeWolf and the grandson of Arell DeWolf of Acushnet. His father, a native of Acushnet, was a carpenter and builder. Mr. DeWolf was graduated from the New Bedford High School in 1874, and in September of that year he went to Boston as a clerk in the hardware store of Benjamin Callender & Company. Remaining there three years, he next removed to Woonsocket, R. I., spending a similar period there in charge of the hardware store of G. Darling & Son. Returning to New Bedford in 1880, Mr. DeWolf in March, 1881, formed a copartnership with Mark T. Vincent, purchasing the hardware business of Ambrose Vincent at the southwest corner of Union street and Acushnet avenue. On July 1, 1892, DeWolf & Vincent bought out the hardware business of Sullings, Kingman & Company, at 149 Union street, taking over a business that had been established since 1845. DeWolf & Vincent then moved to the north side of Union street. When M. T. Hudner, of Fall River, in October, 1910, purchased the property at the northwest corner of Union street and Acushnet avenue, DeWolf & Vincent removed to the present store at 111 William street.

Prominent in Organizations.

Mr. DeWolf had been prominent in fraternal organizations, a Past Grand of Acushnet Lodge, I. O. O. F.; Past Chancellor Commander of the Knights of Pythias and a charter member of Union Lodge No. 7, K. of P. He was a member of Eureka Lodge, A. F. & A. M., of Sutton Commandery, Knights Templars and Aleppo Temple, Nobles of the Mystic Shrine. He had been a member of the Wamsutta Club and was a member of the New Bedford Yacht Club. In 1896 he served as a director of the New England Hardware Dealers' Association.

In 1891 Mr. DeWolf married Clara Bliss, daughter of the late David S. Bliss, of New Bedford. Mrs. DeWolf died Nov. 4, 1914. There are two children, Ward DeWolf, at present in the firm of which his father was a member for many years, and Mrs. Rachel DeWolf Farmer. He leaves a brother, Edward A. DeWolf, probation officer attached to Third District Court.

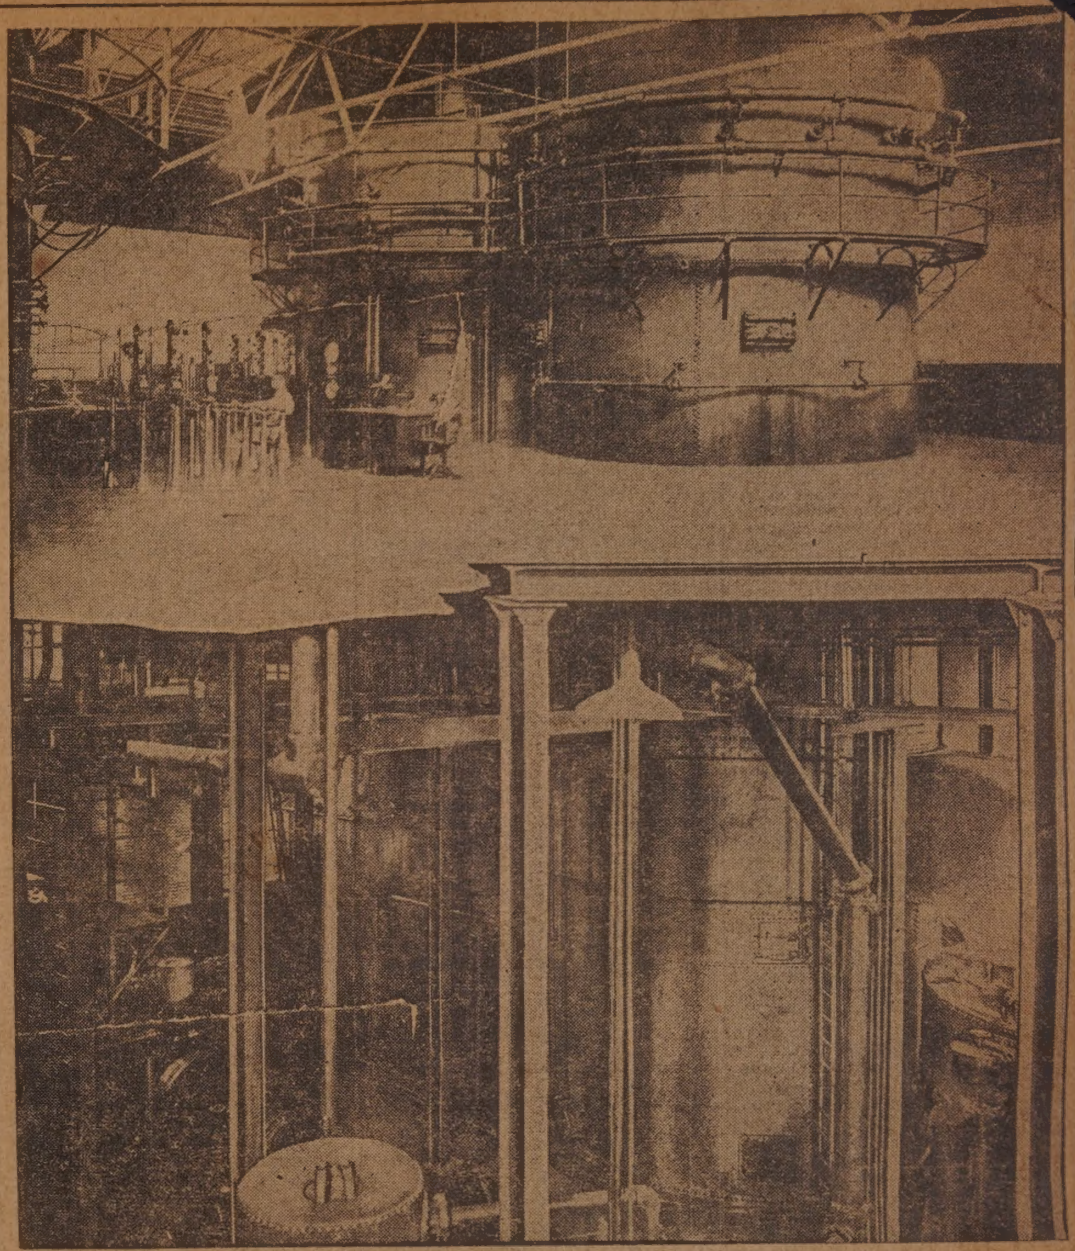
HOW THE OIL GAS SYSTEM WILL LOOK

Feb 1-2



A view of the gas generating plant that supplies the city of San Francisco, showing a pair of generators for making gas from crude oil. A similar installation is to be put into one of the disused buildings of the gas plant of the New Bedford Gas and Edison Light Company, and will be the first oil gas manufacturing system in the country, with the exception of several on the Pacific Coast.

The division at the center of the picture represents the operating floor, through which the generators pass from the level of the ground almost up to the roof. The pipes leading into the upper part of the generators are for the oil and steam used in making the gas. The operator of the generators is seen sitting at his levers at the left. In the lower right hand corner is a glimpse of the wash box into which the gas passes after leaving the generators.

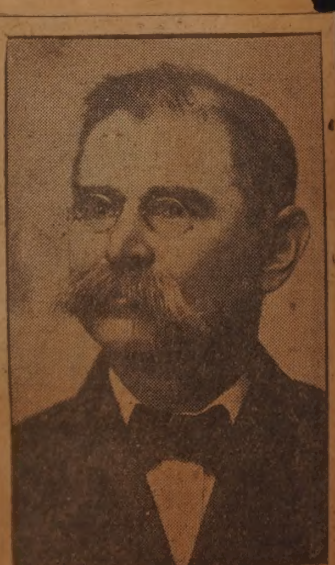
Charles E. Lawton, a Former Selectman of Town, Later Resident Here, Dies in St. Luke's

Charles E. Lawton, a former selectman of Westport, and for 17 years bookkeeper at the Westport Manufacturing Company, died yesterday morning, at St. Luke's hospital. Mr. Lawton had been ill for some months with kidney trouble, his condition becoming gradually worse until it was necessary for him to undergo a blood transfusion on Saturday in the futile hope of saving his life. He was in his 66th year.

He was a native of Fall River, and resided in that city until a score of years ago. For seven years he was agent for the Providence, Fall River & Newport Steamboat Company. Mr.



Charles E. Lawton.

JAMES A. THOMPSON, Rotarian and New Bedford business man, who is soon to leave New Bedford for Syracuse, N. Y.

Lawton was best known in Fall River, however, for his musical inclinations.

He was a member of the Third Regiment Band an organization which aside from its military functions, was for a long period connected with the Academy of Music in Fall River. He was also known as having considerable talent for the violin, and he at one time led an orchestra.

After entering upon his connection with the Westport Manufacturing Company, he became a foremost citizen of that town and was interested in its politics and government. He was a lifelong Republican, but he was elected to the office of Selectman for several years on the Progressive ticket.

Mr. Lawton was a member of the Baptist Temple of Fall River, and also of King Philip Lodge of Masons. After leaving the Westport Manufacturing Company a year ago last September, he removed to New Bedford, where he had been residing since.

Mr. Lawton is survived by his wife Mrs. Hattie L. (Milne) Lawton; a son, Edward M. Lawton, who is connected with the John F. Stafford Company; two daughters, Mrs. Ernest Hathaway, and Miss Mary E. Lawton. There are also three brothers, Fred Lawton of this city; John Lawton of Little Compton, and Frank Lawton of Providence. A second son, Chester died about two years ago.

WAS EXPERT ON WHALING

May 17 - 1928

Augustus G. Moulton, Who Handled that End of Business for J. & W. R. Wing in Heyday, Is Dead

Augustus G. Moulton, a life long resident of the city and one of the last of the men who participated in the activities of the heyday of the whaling industry, died at his home, 56 Hill street, at seven last evening, following a long illness. He had not been well since his retirement from active work in January, 1922, and since last September he had been confined to a wheel chair. Mr. Moulton suffered from hardening of the arteries, and this was the cause of death. He was 76. His wife died last October. He is survived by one

daughter, Miss Mabelle A. Moulton, who resided with her father.

Mr. Moulton had the unusual distinction of having been in the employ of a single firm for 53 years. Born in this city in 1847, he was 21 when he entered the employ of J. & W. R. Wing, serving as a clothing salesman, when the principal business of this firm was the managing and outfitting of whaleships. Mr. Moulton's activity in later years was more in connection with the whaling end of the firm's business, and when whaling was at its height Mr. Moulton had an active share in carrying on the whaling business of the firm. When the firm sent whaleships into the Arctic and this took the late William Wing to San Francisco to attend to the Arctic ventures of the firm, Mr. Moulton was in charge of the whaleships sent out from New Bedford. He lived through the period when whaling was at its height and remained with the firm until it had sold the last of the ships. J. & W. R. Wing was the last of the city's great firms of whaling merchants, and it was only during the present year that the firm closed out its clothing business.

Mr. Moulton came to be an authority concerning many things connected with the whaling industry. He was an expert on ambergris, that most valuable of the by-products of whaling. He had a hobby for collecting various objects connected with the whaling industry, and at one time had a large collection of whaling irons. He had served the company as bookkeeper for many years and attended to the closing out of the firm's whaling ventures.

The funeral will be held from 56 Hill street Saturday at two P. M.

The interior of the home of Mr. and Mrs. Charles H. Gould, on Taber street, lives up to the impression of comfort and spaciousness conveyed by the handsomely proportioned exterior of white clapboard, green blinds and stately roof dormers. The photograph above, at the left, shows a partial view of the living room. Beamed ceilings, walls of dull gold above brown panelling, many polished brass sconces with gold shaded candles, and window hangings of blue and gold Chinese brocade design, make a handsome setting for the comfortable furnishings. The wide doorway at one side of the room opens upon the colonial style hall; at the opposite side doorways on each side of the mantel lead into the sun room. Above, at the right, is a glimpse of the sun room, done entirely in tones of gold and orange, even to the shirred silk shades that line the glass enclosure. The wicker divan is orange and black. Wallpaper of unusually effective design gives distinction to the dining room, shown at the lower left. It is white, with a decoration of tropical foliage and flowers silhouetted in shadowy gray just above the panelling. The little breakfast room is a cozy place of light decorated furniture, white panelled mantel over a big fireplace, and wall coverings of quaint Chinese design, the colors of which are repeated in a floor of dull square tile. A glimpse of a guest bedroom, all rose silk and frills, is shown below.

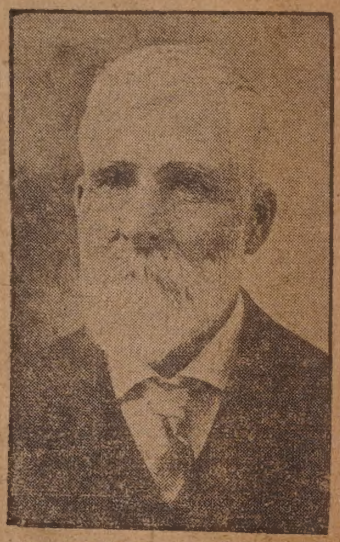
Captain H. H. Rice Has Been Oak Bluffs Resident 52 Years

Retired Lumber Dealer Famed to Islanders for Tales of Sea

(Special to The Standard.)

Oak Bluffs, March 10.—Captain Henry Harrison Rice, retired lumber dealer, who has been a resident here for 52 years, during which time he has made hundreds of friends among the islanders and summer people through his geniality, observed his 82d birthday Thursday at his home in New York avenue.

Captain Rice came to the island from Maine in 1871, and has lived in the Highland section ever since. He first occupied a house on Laurel avenue, but for the past several years



Captain Henry Harrison Rice.

he and Mrs. Rice have been living in a pretentious dwelling on New York avenue.

In his early years, Captain Rice served at times as mate and as captain on several large vessels, mostly lumber vessels sailing out of Bangor. For a time he had interests in lumber schooners in Maine and also in the lumber business ashore. After he disposed of those interests he came to the island, where he soon was established in the same business here.

Brother There.

At the time Captain Henry H. Rice came here, his brother, Captain Benjamin F. Rice, who was associated to some extent with him in the lumber business in Maine, also came to the island. Benjamin, who is now dead, was for many years proprietor of the Ocean View Hotel here.

Captain Rice is still enjoying good health, and his favorite diversion today is that for which he was famed when he first came here—spinning yarns. He recalls that he came to this earth, April 8, 1841, or four days after the inauguration of President Henry Harrison, March 4, 1841.

Another source of pleasure for Captain Rice is his love for children. Although his own marriage was not blessed with any, he finds happiness in the company of his neighbor's children. He has a habit, particularly in the summer time, of hailing children as they pass the house, inviting them to his piazza, where he tells them sea stories for hours and generally sends them away with some apples or other goodies. He knows no racial or social discrimination. All kinds of children and grown-ups, rich or poor, are his guests.

"JAVA HEAD" IS SALEM'S "DOWN TO THE SEA"

Mar. 4-1923

"Java Head" preserves on the screen the romance of old Salem, when its clipper ships carried the American flag to almost every trading harbor of the globe, just as "Down to the Sea in Ships" furnished a screen epic of the old whaling days. The showing of "Java Head" at the Empire, beginning today, will give a splendid opportunity of comparing two different efforts, made with such a similarity of purpose.

In the upper picture, which represents a street of old Salem, Jacqueline Logan, who plays the part of the "girl back home" is in the left foreground. At the right is George Fawcett.

Below, at the right, is an interesting group snapped of the filming of "Java Head." Left to right, are Irving A. Isaacs, an official of the Gordon circuit, Leatrice Joy, George Fawcett, Mrs. Joy, the mother of the actress, Manager D. F. Perkins of the Empire theater, and John Gilbert, the Fox star who won fame in "Monte Christo." Mr. Perkins was at that time a New England field representative for the Famous Players.

Edgar F. A. Brownell Succumbs to Heart Attack in The Clarendon

Mar. 10, 1923

Edgar F. A. Brownell, 72, a roomer at the Clarendon House, 179 Middle street, was found dead of heart disease by his brother, Charles T. Brownell, of 85 Fort street, Fairhaven, and Mrs. Joseph Levesque, the proprietor of the lodging house.

Calling at the Clarendon House at 197 Middle street to see his brother, Edgar F. A. Brownell, 72, who had been rooming there for three weeks and who had been ailing for the past few days, Charles T. Brownell, of 85 Fort street, found his brother dead in bed. Mr. Brownell was admitted to the lodging house by Mrs. Joseph Levesque, the proprietor, about 10.15 this morning and on telling her that he was paying a call on his brother, they went to his room on the first floor. There they found the aged roomer in bed, and apparently he had been dead for several hours.

Mr. Brownell was last seen about 12:30 this morning by D. F. Clifford, one of the roomers, who said that at that time he saw him in the corridor going to the bathroom with a tumbler in his hand. Mr. Brownell was out yesterday and returned to the rooming house about four. He retired at an early hour last night, as was customary for him.

Born in New Bedford.

Mr. Brownell was born in New Bedford, Aug. 18, 1845, the son of Oliver G. Brownell, who years ago kept a clothing store as a member of the firm of Brownell and Howland, on Union street. Mr. Brownell worked for his father in the clothing business here for a number of years, and then went into business for himself at 2 Purchase street. He was later offered a position as salesman for W. H. Gile and Company, which operated a chain of furnishing stores throughout Massachusetts, and worked for them first at Franklin and later at Lawrence where he worked for the success to this firm, R. H. Sugatt. He retired from business about 1911, and for some years after lived with his brother.

The body was viewed at the rooming house this morning by Associate Medical Examiner Charles Sha[w] who attributed death to heart disease. The brother, Charles T. Brownell, made arrangement to have the body taken to his home in Fairhaven where the funeral will be held.

So far as could be learned, Mr. Brownell leaves only his brother. His wife and two daughters died several years ago.

George L. Bowman, Who Made Many Voyages, Died Yesterday

The death yesterday of George L. Bowman, of 19 Shawmut avenue, ended a long and hazardous nautical career. Mr. Bowman was born in West Falmouth, Sept. 24, 1835, the son of Zebulon and Puella Bowman.

At and early age, Mr. Bowman went to sea in the ship Hobomok, which took him on a long trip to the Orient. His second voyage was made in the ship Sharon, a Fairhaven whaler, in which he experienced many severe storms and hardships. The bark Awashonke took him to Scotland and Mr. Bowman claimed to be the last survivor of that crew. A long voyage of 54 months on the ship Governor Troup followed and on this trip Mr. Bowman witnessed a mutiny. His last voyage was sailed in the bark Albion, after which he retired from his sea-faring career, going to work in Kirby's Paint Mill.

He is survived by one son, Frederick G. Bowman, and five grandchildren.

Henry Palmer Jenney, Who Died Yesterday, Also Had Been Overseer of the Poor

Henry Palmer Jenney, a life long resident of New Bedford, died at his home, 1799 Acushnet avenue, yesterday. He was 79. Death followed an illness of a week. Mr. Jenney had always enjoyed remarkably good health, and it was a boast of his that he had never been sick in bed in his life and that he had never been attended by a physician. He was able to be about until a week ago today, when he went to bed suffering with a bad cough and this gradually grew worse and he never rallied. For the last year Mr. Jenney had been failing in health, but he kept about just the same.

Henry Palmer Jenney.

Mr. Jenney was for nine years a member of the Board of Aldermen, from 1896 to 1905, and he had served also as a member of the Board of Overseers of the Poor. For many years he was engaged in the grocery business at the corner of Purchase and Franklin streets with his brother, Nathaniel H. Jenney. Mr. Jenney retired from that business in 1885, and for the next 25 years he was interested in the real estate business, associated with the late Rodolphus Beetle and Roland Ashley. Mr. Jenney had made his home at the north end of the city all his life and he was among the first to forsee the tremendous growth of that section.

Mr. Jenney was born in New Bedford June 13, 1844, a son of Nathaniel and Eunice (Palmer) Jenney. His father was a native of Fairhaven, a successful builder and contractor. Mr. Jenney received his education in the New Bedford public schools, and his first employment was in the Gosnold Rolling mills here, where he worked for five years. In 1863 he went into the grocery business with Isaac Case, under the firm name of Jenney & Case. This partnership was dissolved and for a time Mr. Jenney conducted the business alone until his brother became a partner.

Mr. Jenney married Charlotte D., daughter of Nathaniel Cobb of New Bedford. He is survived by his widow and one brother, Nathaniel H. Jenney.

EDUCATION WAS HIS LIFE-SAVER

Abryanous Dumit, Syrian, Writes on "Stranger in Strange Land"—A Knowlton Night School Graduate

Abryanous Dumit, 943 County street, was a member of the evening elementary graduating class at the H. M. Knowlton School last Wednesday evening, when six schools in the city presented certificates at the closing exercises of the evening English classes for adults. Owing to the fact that Mr. Dumit was out of town, he was unable to deliver a paper on "A Stranger in a Strange Land", which was one of the numbers on the program at the Knowlton School.

Mr. Dumit is 39 and came to this country from Syria 19 years ago. He will become a citizen in June, having passed his federal examination last December. Mr. Dumit's paper:

"A Stranger In A Strange Land."

When I emigrated to this country from my native land, Lebanon, Syria, it was not for the purpose of taking a vacation, but in pursuit of knowledge, enlightenment and better means of earning a livelihood. The United States was the most talked-of country among my people and to them, as well as I, it was the land of promise. I finally landed in this country, after a trip full of hardships and suffering which were somehow alleviated by the burning hope within me, that every mile was bringing me nearer to the glorious U. S. A., the land of my dreams.

"After wandering a while, I settled in Danbury, Conn. There were quite a few of my countrymen there and most of my time was spent with them. In fact, there was a little colony of them and every idle hour of mine was spent with them, speaking in our own native language. And even while seeking employment, I went only to places where they were working, so as to be among them.

Years of Discouragement.

"The years rolled by. They brought me a little happiness and a lot of discouragement, disappointment and misery. When work was slack in the big factories, I suffered as I had never suffered before, not knowing where my bread and butter was coming from, and being a liability instead of an asset to my friends. Of course, this condition did not make me any new friends, and made me lose some of my old ones.

"After a good many years spent here, during which I grew from young manhood into middle age, America was to me just as much of a strange country as it was on the day I landed. I wasn't the least bit acquainted with American ideas, ideals, and standards. American history, past and present, meant absolutely nothing to me. I was totally ignorant of the Americans' heroic deeds on the battlefields, their wonderful accomplishments in science and art, and their struggle and endeavor to make this a healthier and better place to live in, and least of all, was politics, state or national. They did not interest me at all. I was a stranger in a strange land. I didn't understand them, they didn't understand me, and I didn't make any effort to understand them. Then one night while going to spend an evening among my friends, I passed by a pub-

William McGee Thorup, Native of New Bedford, Was High in Masonry

William McGee Thorup died Saturday morning at the Hotel Gralyn, Back Bay, following an illness that began nearly a year ago. He was in his 72nd year, and was a native of New Bedford, in which city nearly all of his business life had been spent, until his removal to Cambridge several years ago and more recently to Boston. Mr. Thorup was the son of Andreas Thomsen Thorup and Mary (Webb) Thorup, and for a great many years up to the time of retirement from active business 12 years ago, he was connected with the New Bedford Safe Deposit & Trust Company.

He was actively identified with Masonry, was a 32nd degree man, and belonged to a great many bodies of this fraternity both in New Bedford and Boston, including Star of the East Lodge of New Bedford and the Scottish rite body in Boston.

He also was a member of the Ancient and Honorable Artillery Company and the Boston City Club. He is survived by his wife, who was Amelia Dunbar Davis, of Boston; a son, Oscar A. Thorup of Washington, D. C. and a daughter, Mrs. Elmer C. Howard, of New Bedford.

The exterior of the old McKinstry house, now the rectory of St. Thomas's Church, Taunton, hasn't changed in any noticeable respect since it was built in 1759. The brick of the side walls was brought from England, and is of a color never seen in native brick.

Cooking for a big family took place in the old days before the Revolutionary War in this quaint old kitchen, now kept as a treasure room of household relics. Old blue china and shining pewter, accord well with the gray walls and floor and antique furniture.

Rev. Robert S. Moore.

Rev. Robert S. Moore and Wife Honored by Congregation They Are Leaving

At the Trinity M. E. Church yesterday morning the Rev. Robert S. Moore was presented a gold watch at the close of the service, marking the close of the pastorate of Mr. Moore. Since the former County Street M. E. and Second M. E. Churches voted to merge and form the Trinity M. E. Church, worshipping in the County Street Church edifice, the latter society is officially known as the Trinity Church. Technically Mr. Moore, the pastor of County Street, was yesterday acting as supply pastor at Trinity, while Rev. Samuel J. A. Rook, pastor of the Second M. E. Church, was acting as supply pastor at the Second M. E Church. Actually the two churches d not merge for common worship un Sunday, April 15, when the new pastor will be settled over Trinity Church.

At the close of the service at the County Street Church yesterday morning, the congregation was asked to remain. It was then that Mrs. J. A. Thompson, president of the Ladies' Aid Society, presented in behalf of the ladies of the church a substantial purse of gold to Mrs. Moore, the wife of the pastor. Isaac A. Crapo, in behalf of the men of the church, then presented the gold watch to Mr. Moore. Mr. and Mrs. Moore responded with their thanks. Mr. Moore told of his regret in leaving the church, saying that never before had he enjoyed such pleasant relations.

The church was crowded at the morning services yesterday and as a part of the service Mr. Moore baptized three children and one adult. New members were admitted on confession of f and by letter were: Mr. and Mrs. Bertram F. Allen, Mr. and Mrs. John T. Humphreys, Charles Nye, I. Arthur Crapo, Mrs. Frank Townsend, Mrs. Thatcher B. Crocker, Florence H. Hathaway. Eighteen young folks were admitted to the preparatory membership.

THE CITY SPENDS MONEY

City Treasurer's Charts Show Division of Municipal Dollar Between Departments —Expenses in 1921-1922

How much of every dollar spent by the City goes for the maintenance of the Police and Fire Departments? How much goes for health work? What proportion is spent for highway improvement? What share is used towards the public debt?

In order that New Bedford taxpayers may see how every dollar spent by the City is divided among the departments, City Treasurer Charles R. Hathaway has prepared charts showing how every dollar spent in 1921 and 1922 was divided and how the 1923 municipal dollar will be spent, provided the budget is passed as submitted by Mayor Remington.

An interesting feature of these statistics is that they show which department expenditures increased and which decreased during 1921 and 1922. It is also interesting to note that the largest proportion of every municipal dollar goes towards the payment of the public debt.

The compilation of the charts, which was a difficult and exacting piece of work was based on a grouping of the expenditures according to the divisions used in the State's accounting system. All the expenditures of the City are included except that of the Water and Wharf Departments, which are self sustaining.

BUTTONWOOD PARK UNDER TWO FEET OF WATER

March 1923

BUTTONWOOD PARK SINCE THE HEAVY RAIN HAS BEEN MORE LIKE MARSH THAN PARK LAND, and the deer have been forced to lead the life of amphibians, while the buck elk couldn't step out of his shelter, which is upon a little island, without going awading. The conditions have only been exceeded once before since George Dayton, Jr., has been superintendent of the park, he said last evening, although by this morning it was expected conditions would be getting back to normal.

He said that Friday night he believed someone pulled a plank and released the flood from one of the ice ponds from which the park canal runs, for the waters came all at once. The canal overflowed to a distance of 75 feet on either side from the dam at Court street to the woods. The banks of the waterway were covered by more than two feet of water.

The upper photograph shows the steps at Court street, where ordinarily it is possible to walk about dryshod, and the lower is a part of the deer enclosure.

JOHN DREW AND HIS GRAND DAUGHTER

Mar. 25, 1923

John Drew in New Bedford

John Drew, in a company which included Miss Maud Adams, appeared in New Bedford in "The Butterflies" on Monday evening, April 1, 1895. The performance was in what was then the New Bedford Opera House, the site of the present New Bedford Theater. "The Butterflies," a comedy by Henry Guy Carleton, was the play in which Mr. Drew and Miss Adams achieved great success. This was Mr. Drew's first appearance as a star in New Bedford. Mr. Drew's part of Frederick Ossian, a penniless man in love with the pretty girl he had rescued from drowning, was one that admirably suited him.

Mr. Drew did not again appear in New Bedford until Saturday evening, March 9, 1902, seven years after his first starring appearance in this city, and on this second visit he appeared in Captain Robert Marshall's comedy, "The Second in Command," picturing English military and social life of the period. In the company with Mr. Drew in this comedy were included Lionel Barrymore, Miss Ida Conquest and Miss Louise Drew, the actor's daughter and mother of the little girl pictured at the head of this page with her grandpa. The following year, Charles Frohman presented Mr. Drew in, "The Mummy and the Humming Bird," the program and cast of which is reproduced in the illustration.

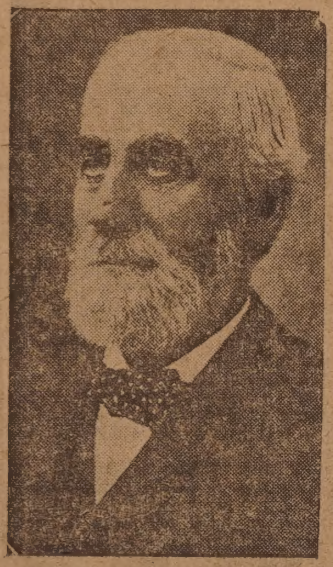
CAREER OF OLD STORE ENDED

J. and W. R. Wing and Company Sold to Steiger-Dudgeon

For 74 Years Had Been Well Known Clothing Concern

One of the oldest firms in the city, the J. and W. R. Wing and Company, has brought to a close its career of 74 years, in selling out to the Steiger-Dudgeon Company. This old clothing store, which is one of the very few remaining offshoots of the whaling industry in its prime, has been always in the hands of the Wing family, though during recent years Charles M. Hussey, the husband of a daughter of William R. Wing, has been the proprietor.

When the firm was started in 1849 Joseph and William R. Wing, two brothers, were the sole owners. Later, however, their younger brother, John joined the partnership and the word "company" was added to the name. It had its place of business on South Water street in the heart of what was then the active commercial center of New Bedford. The store was located near the foot of what is now Spring street, though at that time this street had not been cut through to Water.



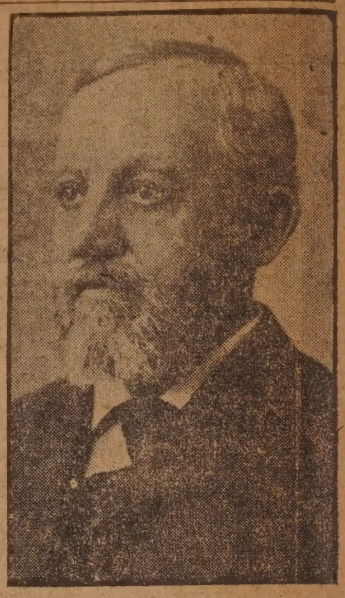
W. R. Wing.

Their business at first was that of outfitting sailors, and the whalemen were their chief customers. Nearly all their goods were made to order, for ready-made clothing was then almost unknown. Monkey-jackets, overalls, and other garments needed by the whalemen were sold at the store, but in almost all cases, orders for such goods were placed at the store, and then, after the cloth had been cut out, it was given to one of the many seamstresses about town for making up. There were many women, in fact, who made clothes for the Wing store, both in New Bedford and in the outlying villages.

Built on Union Street.

The westward movement of business compelled the Wings, about 45 years ago, to move with the tide and they built the brick building on Union street just below the corner of Acushnet avenue. Here the place of business remained until seven years ago, when the firm leased a part of the Union street section of the Steiger-Dudgeon Company.

Many men who are now prominent in business about New Bedford once worked in the Wing store as clerks. In the early days of the business, for example, a brother-in-law of the Wing brothers, Hiram W. Wentworth, became a member of the firm. Both he and his son, Frank W. Wentworth, worked in the store, until they later formed F. W. Wentworth and Company.



John Wing.

Associated as Agents.

Though the clothing firm as such was not associated directly with the whaling industry, yet the same Wing brothers, Joseph and William R. were associated together as agents and owners of whaling vessels. At one time the firm of J. and W. R. Wing owned all or a controlling part, of more than 25 whaleships, and were interested in perhaps a dozen more. These ships went to practically every corner of the globe, and the firm's name and the Wing flag was known in every port frequented by whalers the world over. When the fitting out of whaleships was transferred to the Pacific coast, William R. Wing, who had direct charge of this part of the business, made 26 trips across the continent. He was killed in a train accident in New Bedford a little more than 14 years ago, but lived long enough to see the rise and decline of the whaling industry. The C. W. Morgan was among the whaling vessels controlled by the Wings, and other vessels of prominence in the trade that they were interested in included the Canton, the A. R. Tucker, the Sunbeam, and the Morning Star.

The Steiger-Dudgeon Company intends to tear down the wall now standing between the Wing clothing store and its own space on Union street, thus having a Union street front that will be just double the present frontage. This renovation will not take place immediately, however, and the store is to be closed all this coming week for inventory purposes, re-opening Saturday, March 17th for a sale. The Steiger-Dudgeon Company will take on a men's clothing and haberdashery department as one of the regular departments of its business.—Advertisement.

Medaille Militaire, Posthumously Given Joseph Peter, Received by Sister Here

A Medaille Militaire, the highest award of the French government for distinguished military service, was recently received by Mrs. Mary Hosp, of 138 Aquidneck street, as a posthumous award for services rendered by her brother, Joseph Peter, formerly of this city who died for France, July 15, 1915. The medal was sent last month from the headquarters of the colonel commanding the 35th regiment of French Infantry.

Mrs. Hosp is also the possessor of a Croix de Guerre, another posthumous award which she received several months ago.

Joseph Peter was 20, and living at 8 Roosevelt street, when he left this city in 1914 for France to visit relatives. He had been in France only a few months when war was declared and he immediately enlisted under the French colors. While living here young Peter was employed as a weaver in the Dartmouth Mill.

That and Swimming Pool Urgent Requirement of Health Educational Department

And It Can Only Be Afforded by a New Building

The Health Education Department of the Y., says Miss Helen B. Kitchin, its secretary, is in urgent need of facilities which can only be afforded by a new building. It needs an adequate gymnasium, properly lighted, heated, and equipped. It needs a swimming pool. It needs a special room for health examinations, a physician's office and a physical director's office. It needs a room for special individual exercises. It could use to great advantage a Y. W. C. A. owned bowling alley.

No one is likely to quarrel with the thesis of the Health Education department that health is vital to making life rich and joyous to the individual and valuable constructively to society. Exercise and recreation are popular, and the public approves the determination of any organization like the Health Education department sets out "to teach the facts of healthful living, to keep such standards for our community, and to take part in community movements which aim to secure the use of opportunities for healthful living."

The busy group of women shown above, augmented at times by additional workers, is the clerical staff of the Y. W. C. A.'s $400,000 building fund campaign list. It is headed by Mrs. Arthur G. Seabury. Day and night for the past month it has typed and tabulated and sorted, making up a careful list of 10,000 names to be solicited for contributions towards the new building that is to rise at the corners of Pleasant and Spring streets. No one has given more untiringly of strength and energy in this prosaic but very important part of the campaign preparations than Mrs. Seabury herself. The entire list was finished yesterday. It will be sorted and arranged this week, and the cards will be distributed to team members Monday afternoon. Every precaution has been taken against duplication, so that no citizen will be solicited twice. The cards are to be identified by names of team and worker, so that any lost may be easily traced. Every care will be taken to give each team an equal share of "good prospects," each captain being given a chance at first choice from one section of the alphabet. Widow of Late Rev. Richard Harper Was Born in Virginia

Mrs. Sarah E. Harper, widow of the late Rev. Richard Harper, died yesterday afternoon at her home, 20½ Cedar street. She was 79. She was a member of the City Women's Republican committee, and had been since it was organized.

She was born in Portsmouth, Va., in 1852, and was brought to New Bedford when an infant of three months. She was married to Mr. Harper, a Methodist minister, and with him went South, living in Georgia, Kentucky and Tennessee for about 18 years. With the exception of this interim she has been a resident of this city.

She was a delegate to the Republican State Convention at Boston last year. She was for many years an active worker in the Bethel Church and for the past three years had been president of the Senior Stewardess board. She was a member of the Jane A. Jackson Circle, Ladies of the G. A. R., the Court of Calanthe and for two years was president and ten years secretary of that order. She was president of the Avon society for three years.

John Hannigan, chairman of the Board of Assessors, went to Boston this morning to witness the exercises at which Joseph F. Waldron received a Distinguished Service Cross from the War Department. Mr. Hannigan was chairman of the draft board from which Mr. Waldron entered the service.

The furniture and old family portraits in the dining room fit the room just as well as if they had belonged to old Dr. McKinstry, instead of being family heirlooms of Mr. and Mrs. Medary. The mantelpiece shows dainty carvings which were buried a half a century under thick layers of paint.

This picture tells literally only half the story of the living room. It consists of two rooms thrown into one, the upper end boasting just such a fireplace as the lower half possesses. Gray striped paper, white woodwork, and blue upholstery make an attractive setting for many interesting objects of furniture.

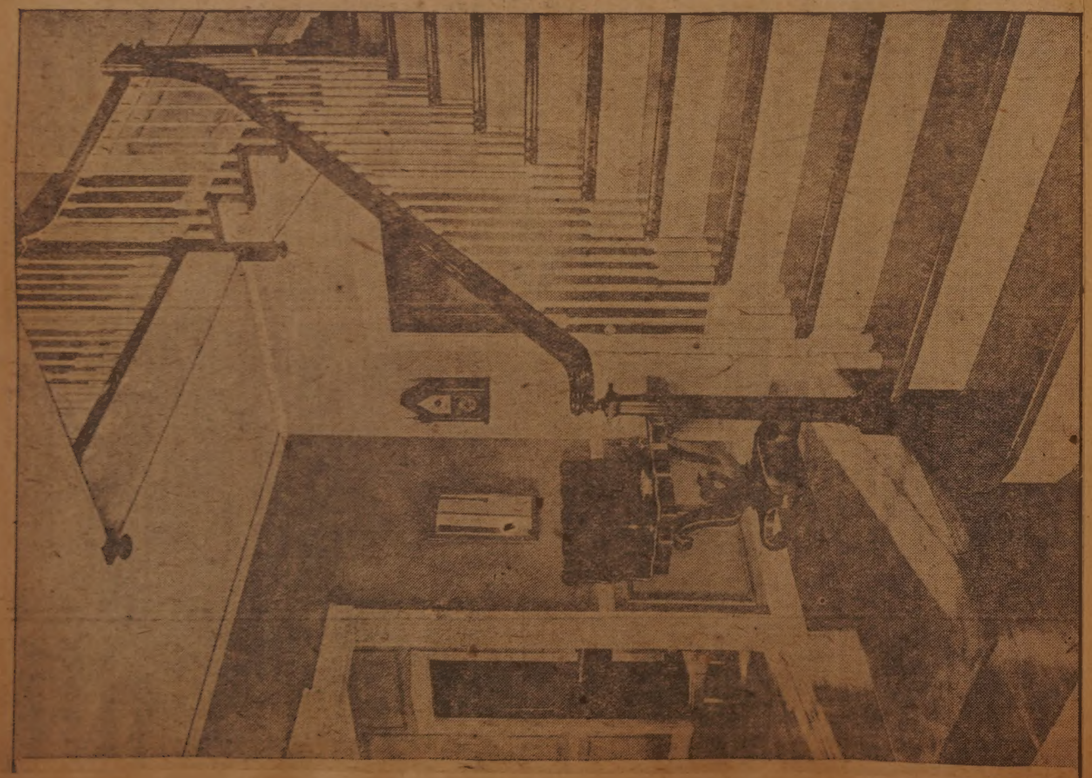
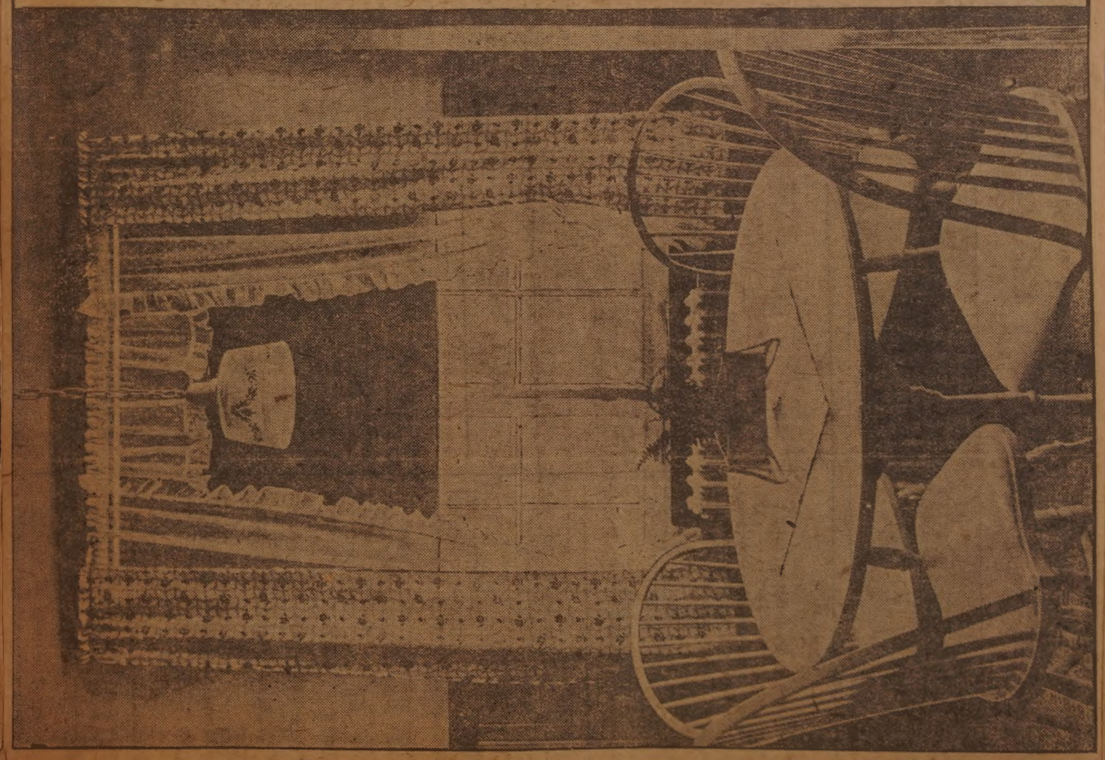
UNUSUALLY EFFECTIVE AND SIMPLE DESIGN

Mar. 4- 1923





Fort Street, Fairhaven, as one approaches its farther end, is rich in attractive houses commanding fine views of the water. One of the latest additions to this avenue is the residence of Mr. and Mrs. A. L. Buffington, who have the last house on the east side.

An unusually effective and simple wall treatment of gray plaster marked off in well proportioned panels by a delicate gray molding is used throughout the living rooms of the lower floor. With white woodwork, and plain gray rugs in hall and living room, and plain deep blue rug in the dining room, the effect is restful and pleasing. At the left, above, is shown a view of the living room, with well-designed mantel flanked by French doors leading to the sun room. At the right is [illegible] use of the dining room, where lighting fixtures of silver finish adorned with simple crystal pendant balls give a sparkle to the color scheme of gray, blue, and mahogany. The pu[illegible]es below show the wee breakfast nook, just big enough to hold its gray enamelled chairs and table flooded by sunlight from two windows, and the entrance hall [illegible] dainty stair.

TABLEAU: "THE BLUE TRIANGLE GIRL," THE Y. W. C. A. IS INTERNATIONAL

Members of the Campaign Committee of the Y. W. C. A., who are bending their energies towards making a success of the appeal for a $400,000 building fund, are shown at the left and right above. Theirs are busy days for the next two weeks.

A striking tableau staged in the Star Store window yesterday afternoon and to be shown again is reproduced in the center picture. It represents the international spirit of the blue triangle, the symbol of the Y. W. C. A., which is known to girls in 30 lands. In the center is the "Blue Triangle Girl," Miss Alice Coggeshall, and grouped about her Misses Alma Cook, Marian Bonner, Alice Greaves, Doris Drew, and Mildred Waldron, all members of the Y. W. C. A. Girl Reserves, representing foreign nationalities. Alternating with them in the tableau yesterday were Misses Annie Livesey, Helen Avila, Mildred Silvia, and Minnie Sanford.

GIVE REASONS FOR Y. W. BUILDING

FOUR WORKERS IN THE Y. W. C. A'S INTERNATIONAL INSTITUTE give four reasons for a new Y. W. building: Miss Stella Sabotka, (upper left) "The new Y. W. C. A. Building will afford a wonderful opportunity for bringing together people from all sections of city and enabling them to get acquainted." Mrs. Angela C. Costa, (upper right) "The new building will be a fine place for all women away from home as a place to meet friends, join clubs, and spend their rest time or leisure hours. Clubs of all nationalities can meet socially and for mutual benefit." Mary G. Pitta, (lower left) "By having a new building and swimming pool we can add materially to our membership at the International Institute. The members are longing for the use of a gymnasium and swimming pool such as the new building will afford." Mary A. Judson, (lower right) "The new Y. W. C. A. building will give an opportunity to the girls of foreign-born parentage to meet with the native born. It will give both groups much in common, and according to our Girl Reserve creed: 'Break down barriers, Change thinking, Widen the reach of our love!'"

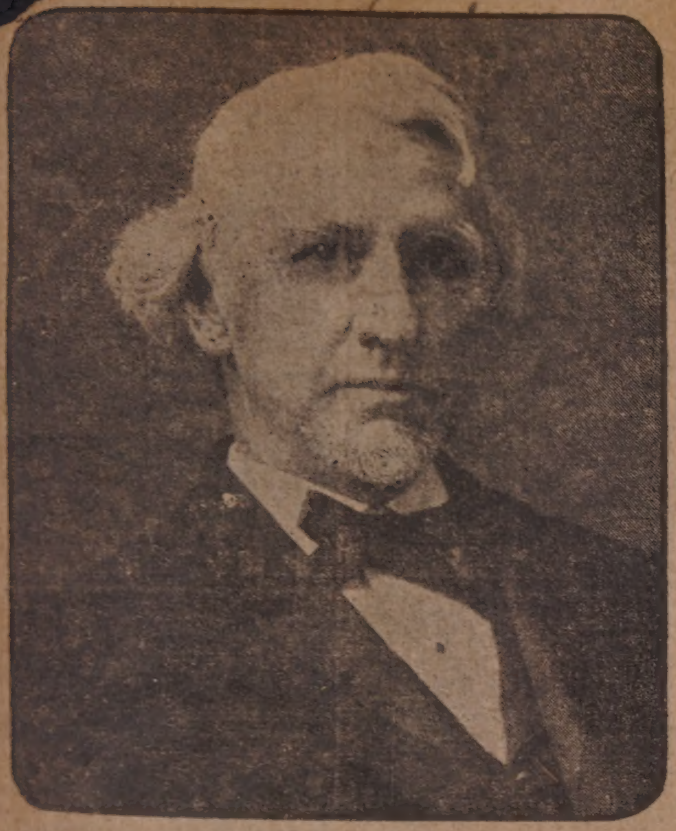
ROMINENT JURIST IS DEAD

April 20-28



JUDGE JAMES MADISON MORTON, OF THE MASSACHUSETTS SUPREME JUDICIAL COURT, RETIRED.

Prior to Remain in Fairhaven as Head of Town's School System

The Fairhaven superintendency district, the largest in the State, embracing the towns of Fairhaven, Acushnet, Mattapoisett and Marion, was dissolved last evening at a meeting of the joint committee at the Fairhaven High School. Organized in 1897, with the late Edmund Anthony as one of the sponsers, the union has grown until it contained more than twice as many teachers as any other union in Massachusetts.

Fairhaven in the future is to have a superintendent of its own, while the other three towns have formed a temporary organization. Charles F. Prior, of Fairhaven, who had been head of the group since 1912, will be the superintendent in Fairhaven at a salary of $4,000. This is the same as he previously received for the group with the exception of $300 al-

DEATH ENDS LONG CAREER

Judge James Madison Morton, of Supreme Bench, Retired, Dies

Native of Fairhaven, He Had Long Resided in Fall River

James Madison Morton, for 23 years a justice of the Massachusetts Supreme Court, prior to his retirement in December, 1913, died last night at his residence, 487 Rock street, Fall River, at the age of 85. Judge Morton had enjoyed fairly good health until a recent attack of pneumonia, and earlier in the week there was some hope that he would recover from this attack. There was a turn for the worse yesterday and death ensued. Judge Morton was the father of Judge James M. Morton, Jr., a justice of the United States District Court.

Judge Morton was born in Fairhaven Sept. 5, 1837, but in early life he removed with his parents to Fall River, and there he had continued to make his home ever since. Judge Morton had a distinguished career as an attorney of large practice prior to his appointment as a justice of the Supreme Court by Governor Brackett in September, 1890. He had served as City Solicitor in Fall River, and was for many years an attorney for the mill corporations in that city, and he twice declined appointment as a justice of the Superior Court.

Classmate of Governor Long.

Judge Morton received his early education in the public schools in Fall River, and was graduated from the High School in that city at the age of 19. He entered Brown University in 1856, remaining three years, but leaving there before his graduation to enter the Harvard Law School. There he was a classmate of the late Governor Long. In 1861 Harvard gave Judge Morton his degree of LL. B., and in 1887 he received his Master of Arts degree from Brown University.

Admitted to the Bristol County bar soon after leaving Harvard Law School, Judge Morton began the practice of law in the office of the late Judge Lapham in Fall River. In 1865 he formed a law partnership with the late John S. Brayton, which continued about three years, when Judge Morton withdrew to give his whole time to his increasing practice as attorney for Fall River banks and corporations. In 1876 Judge Morton and Andrew J. Jennings formed the law partnership of Morton & Jennings, and this partnership continued up to the time Judge Morton was appointed a justice of the Supreme Court. Judge Morton succeeded the late George Marston of this city as counsel for the Old Colony Railroad Company, retaining this connection until the time of his appointment to the bench. Judge Morton was city solicitor of Fall River for the four years from 1864 to 1867. He had served also as trustee of the Fall River Free Public Library, First National Bank of Fall River and B. M. C. Durfee Trust Company, the Fall River Hospital, and the Union Savings Bank. He had served many Fall River corporations as a director.

Captain Edward E. Lombard Was 30 Years in Coast Guard Service

Captain Edward E. Lombard, who was for a number of years in charge of the Coast Guard Station at Cuttyhund, died Saturday in the Emergency hospital in Boston, following a short illness. Since his retirement from active service of 30 years in the Coast Guard in November, 1922, he had made his home in Wellfleet. He was 58.

Besides the station at Cuttyhunk Captain Lombard was in service at Coast Guards No. 37 at Truro and No. 38, Wellfleet. During that time he took part in many rescues.

He is survived by a widow and four sons, Everett and Horace Lombard of Wellfleet, Asa Lombard of North Weymouth and Arthur Lombard of Providence.

EDWARD H. FORBES,

who numbers hundreds of New Bedford persons among his friends, celebrated his 71st birthday last Tuesday. The desire to let his friends share in the cheer of the day by placing a birthday cake, adorned with multitudinous little candles, which an old-time friend sent him, in the window of the City Coal Company had an outcome which he had not foreseen. Friends in passing were reminded that congratulations were in order, but what surprised Mr. Forbes most was that several would not allow the occasion to pass without including a gift with their visit.

"I'm glad to have friends, but I always like to be giving something instead of receiving them", Mr. Forbes protested to a reporter from The Standard, in a tone which did not betray the fact, however, that he had heartily appreciated everything his friends had done to make Tuesday a banner day.

Mr. Forbes is a native of New Bedford. For the past 25 years he has been connected with the City Coal Company, having had charge of the office in the business section.

The Rev. William I. Ward, a prominent figure in the Methodist Episcopal ministry in and around New Bedford and the Cape for the last 48 years, has written for The Standard reminiscences from his career of long and faithful service. Mr. Ward retired last month, and is now removing from Mansfield to North Carver, where he will make his home. He was born in Acushnet 65 years ago, the son of William D. Ward and Elizabeth O. Sisson, both natives of New Bedford. His grandparents, Mr. and Mrs. Jonathan R. Ward and Mrs. Job Sisson, Jr., were members of the old Elm Street Methodist Church here.

Mr. Ward preached his first sermon in Acushnet as a lad of 16. He formally entered the ministry two years later, in 1875. From 1902 to 1907 he was presiding elder of the New Bedford district, and in 1908 became district superintendent of the Providence district. As a boy he was a student in the New Bedford and Fairhaven High schools.

Keeper of Butlers Flat Light Officially Commended by Secretary of Commerce Hoover

(Special to The Standard.)

Washington, D. C., April 11.—Charles A. Baker, keeper of the Butlers Flat light station in New Bedford harbor, has been officially commended by Secretary of Commerce Hoover for "meritorious service on Feb. 25th in rendering assistance in towing a man in a rowboat who had lost an oar while endeavoring to get through the ice in the harbor to a barge."

Charles A. Baker.

Mr. Baker was appointed keeper of the Butlers Flat light in February, 1912, succeeding his father, Captain Amos C. Baker, who was named keeper of the Butlers Flat light when it was erected. The present keeper of the light is the third member of the Baker family to be in the lighthouse service, for before the erection of the Butlers Flat light Captain Amos C. Baker succeeded his father in the care of the Clarks Point light.

Two other members of the lighthouse service in this vicinity have also been officially commended. Tom Small, keeper of the Narrows light station, being cited for rendering assistance on Feb. 20 "in rescuing a man from a rowboat which was caught in a heavy ice floe and drifting towards the open sea."

Captain Walter G. Loring, commanding officer of the lighthouse tender Pansey, was cited for "meritorious service on Feb. 5, in rendering assistance to the members of the crew at the Fuller Rock light station, R. I., when they were injured by an explosion."

She leaves tonight on the Fall River line steamer for New York City to accept a contract with the Fox Film Corporation to appear in a photoplay soon to be filmed. The engagement is to last for three or four weeks. For that period the little New Bedford miss will be under salary of $100 per week. She is to play the part of the daughter of an admiral and the scene of the story is laid principally in Washington, D. C., so that at least a part of the engagement will be spent in the national capital.

Miss Foley is the daughter of Mr. and Mrs. T. J. Foley, of 312 Hawthorn street, New Bedford. She is five and one-half years old, and an exceptionally attractive child. The ease and confidence with which she carried off her part in the whaling picture caused comment at the time this was being filmed, and her appearance in the finished picture was so favorably regarded in the motion picture world that the Fox management has prevailed upon her parents to let her try again. Mrs. Foley will accompany her during the period of the engagement.

SED IN 1811 BY METHODISTS

Will Be Replaced by Garage —Midst Changed Acushnet Conditions

An old relic of the early days of Methodism in this vicinity is soon to disappear, when the blacksmith shop at the east end of the Head of the River bridge will be torn down to make way for a modern garage. It was in this building, originally built for stores, that the Methodists of the Head of the River settlement held their meetings in 1811, using the upper story which had been fitted up as a hall for public purposes. The sect was in its infancy in those days, and the first Methodist church of New Bedford, which was also the first in Bristol County, had only been in existence four years.

The stone bridge spanning the Acushnet River just east of Lunds Corner was the center of a prosperous community a little more than 100 years ago. It was a part of the township of New Bedford, and fully as buzzing with life and activity as was the neighborhood now occupied by the center of the city. As one crosses the stone bridge today, one sees many reminders of those by-gone days.

apr 21-28

At the right is the blacksmith shop referred to, from which comes still the clang of the anvil, and in front of which are still the worn-out wheels and iron-rims and piles of horse-shoes against the gray weather-beaten shingles of the sturdily-built old structure. Two houses further east stood Pope's Tavern, later Pratt's Tavern. It still stands, and in spite of the fact that it is remodelled, gives an idea of how it must have looked when in its prime. Beyond are other old dwellings, that may aid the imaginative person in forming for himself a picture of what the little settlement was a century ago.

Started by Captain Hawes.

The beginnings of Methodism in New Bedford are linked closely with the career of Captain John Hawes, one of the most romantic figures in the history of Acushnet, and one of the most prominent men in the Head of the River village. He was in the merchant service, and on one of his voyages went to London. Being a religious man, he sought out a church for Sunday worship when he was in

the British capital, and by [illegible] found himself in a meeting conducted by Whitfield, one of the greatest of Methodist preachers. Deeply stirred by Whitfield's eloquence and fervor, Hawes became an enthusiast for the religion, then comparatively new in New England, and because of this fact and because of his prominence in his home community, New Bedford was later to become a strong center of Methodism.

Hawes's visit to London occurred in 1803, the same year that the death-knell of the Presbyterian society at the Head of the River was sounded. This society once comprised the major part of the inhabitants, and met in the Precinct Church, which was situated on the top of Burial Hill, about half a mile east of Lunds Corner, at the left side of the road. Samuel West had been the pastor of this society, and his resignation because of old age in 1803 deprived it of a strong leader. At the same time a number of the members migrated to Fairhaven and New Bedford center.

By 1805, the people at the Head of the River felt the need of a strong religious leader, and it was then that Hawes saw his opportunity. Through his influence, a young and enthusiastic Methodist preacher, Epaphras Kibby, was called. Kibby's doctrines were of course different from those of the staunch Presbyterians, but his personality and his eloquence were in his favor, and soon he had gained considerable popularity in the settlement. There had already been a few people there converted to the Methodist faith through the visits of travelling evangelists, but these were not organized and merely held occasional meetings at various homes.

Formed Society in 1807.

In two years, Kibby, backed by the influence of Hawes and other prominent citizens, gained a sufficient following to form a Methodist society, and on Aug. 2, 1807, the Methodist Episcopal Church of New Bedford was organized. Its original members included John Hawes, Benjamin Dillingham, Freelove Nye, Daniel Summerton, Hannah Summerton, Jedidah Haskell, Merab Spooner, and Nancy Danforth.

The newly formed church held its services in the Precinct meeting-house until 1811, when a group of the older society's members who had not accepted the doctrines of Methodism decided to have a pastor of their own faith. A separation occurred, and it was at this date that the Methodist meetings were held in the upper story of the present blacksmith shop, which was then called William Kempton's storehouse. The building was erected a year earlier by Amos Pratt, and almost immediately afterwards sold to Kempton.

Not very long, however, did the society continue to hold its meetings here, for in the latter part of 1811, a new church was built on land given by Captain Hawes. This old church stood on the same site as the present one, which is the field stone structure a short distance to the west of old Burial Hill.

The Methodist society at the Head of the River was not only the first Methodist organization in Bristol County, but it became, through the Rev. Epaphras Kibby's influence a strong foothold of the faith and a center of Methodist worship and prestige for many years. Captain John Hawes, to whom the greatest credit is due for the founding of the society, is honored by a memorial window in the present church building of the Acushnet society. The window, which is behind the pulpit, was the gift of his heirs.

OLD WHALING CAPTAIN DIES

George Lyman Howland Sailed Atlantic, Pacific, and Indian Grounds

Brought First Wife on 1300-Mile Wedding Trip from Australia

Death yesterday afternoon claimed another of New Bedford's old time whaling captains, when George Lyman Howland, with a sea faring career of 22 years, succumbed to a complication of diseases at his home, 124 Campbell street. He was 70.

Captain Howland had been in declining health for the past two years, but was able to be about his work until two weeks ago, when his last illness set in. Since retiring from the

sea in 1893, Captain Howland had been a painting contractor, and was known in all sections of the city. He was a boyhood chum of Captain Timothy C. Allen, former chief of police, who died two weeks ago yesterday, and the passing of Captain Allen was one of the last things he spoke about.

Won Him Recognition.

Captain Howland's career on the sea was marked by an incident that won from him recognition from the British government and from the Liverpool Shipwreck and Humane Society. While he was master of the brig Canton, Captain Howland and his crew sighted the crew of the British trading vessel Monarch sailing in a small boat after they had left their ship which took fire.

The ship had been afire about 600 miles off the Cape of Good Hope for two days, and the crew had progressed about 150 miles when the Canton sighted them. The night following the day that the crew, 18 all told, abandoned their ship, it blew up. There were 200 cases of dynamite on board, and the crew had made a futile attempt to throw it overboard before abandoning the ship. Captain Howland took the crew aboard the Canton, and left them at Cape Town in the care of friends.

Francis, Lizzie Sutherland, Mrs. S. Cornell and Mary Tupper.

The roll call followed the regular meeting and brief remarks were made by many of the members as their names were called.

Two veterans jewels were presented by the grand master. A 50 year jewel was presented to Thomas J. Gifford. Past Grand Gifford was unable to be present, so District Deputy Grand Master Pierce, Noble Grand James J. Miller and Vice Grand Ernest A. A. Krebs of Acushnet Lodge called at Brother Gifford's home where Grand Master Rideout presented the jewel to him, with some pleasant remarks.

During the roll call the grand master presented Brother William E. Kern with a 35 year jewel. Brother Kern is believed to be the oldest Odd Fellow in New Bedford being 91 years old. Brother Kern responded briefly.

Remarks for the good of the order were made by Grand Master Rideout, D. D. G. M. Pierce and Frank A. Milliken P. G. and chairman of the judiciary committee of the Grand Lodge of I. O. O. F. of Massachusetts. Blakney of Fall River acting grand and District Deputy Grand Master Ernest L. Pierce of Somerset and his suite. Other guests of the evening included Eudore M. Carroll, noble grand of Vesta Lodge, Henry Steele vice grand of Vesta Lodge, Edward King noble grand and Walter Bunnell vice grand of Pacific Lodge.

The evening was started with a turkey supper served at 6:45 by a committee of Rebekah's as follows: Lizzie V. Kelley chairman, Mary L. Ashley,

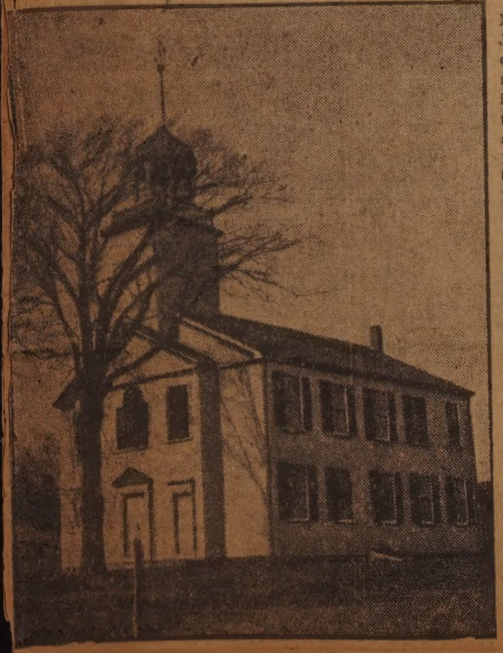
PARISH BUYS IN PADANARAM

April 3rd 1923



The Rev. Henry J. Noon, pastor of St. James's Roman Catholic Church, announced to his parishioners yesterday that the parish has acquired the South Dartmouth Congregational chapel, situated on the west side of Elm street in Padanaram. The chapel is to be renovated immediately and it is expected that it will be ready for the celebration of masses there by the first of June.

The South Dartmouth Congregationalists have a new church on Middle street, and have been using the chapel of late for their Sunday school. The chapel will seat between 200 and 300.

The acquisition of the chapel will be an accommodation for South Dartmouth residents, who in the past have had to travel several miles to services in St. James's Church.

A FASCINATING HOME -- ONCE A VILLAGE TAVERN

death was separated by only a week from that of his wife, who died last Tuesday morning of the same disease.

Until his last illness he had enjoyed excellent health. During the 14 years in which he was instructor in woodworking at the New Bedford Vocational School, he never missed a day on account of sickness.

Mr. Gardner was born and brought up in New Bedford. He was superintendent for C. O. Brightman 25 years. During that time he supervised the construction of many buildings which have since become landmarks. He was deeply interested in Sassaquin sanatorium, and gave his services as architect and superintendent during its growth. He helped organize the New Bedford Vocational School, and kept up his work as instructor there until two weeks ago. He was a member of the Christian Science Church.

The late Mrs. Gardner was before her marriage Miss Helen Sawyer. The children surviving Mr. and Mrs. Gardner are George O. Gardner, superintendent of public buildings; Andrew H. Gardner, Hervey S. Gardner, of Boston, Mrs. William S. Osgood, Mrs. Arthur C. Himes, Mrs. Harold Tillinghast, and Mrs. Clarence W. Mason, of Boston.

CAPTAIN WEST DIES IN STORM

May 3-28

"One-Armed Sailor of Provincetown" Lost Off Delaware Capes

Heavy Seas Caused Barge to Leak and Sink—Boat Upset in Gale

Capt. Fred Dunham West, known over the Seven Seas as the "One-Armed Sailor of Provincetown", and adventurer on coasters, whalers, schooners and steamers, has gone on the Last Great Voyage, and his body has found a resting place in the waters of the Atlantic off the Delaware Capes.

He was master of the barge Stroudsburg of the Neptune Line which was at April 15. Besides Captain West,

Capt. Fred Dunham West.

three other men and a woman cook met death.

The Stroudsburg and two other barges were in tow of tug Jupiter bound to New England ports from Norfolk, Va. The pounding of heavy seas caused the Stroudsburg to spring a leak and the barge settled so rapidly that Captain West decided to abandon her.

Small Boat Upset.

The tug was signalled and the five men and one woman left the settling craft in a small boat to row to the Jupiter. But the wind was blowing more than 50 miles an hour and strong cross currents were setting out from Delaware Bay. The small boat upset. The crew of the tug picked up three men, two of whom died of exhaustion before medical aid could be given them.

Captain West leaves a widow, in West Harwich and two brothers, Harry and Edward West, also of the Cape.

Captain West made his first voyage as master from his native Provincetown when but seven. At that time he stole a sail dory and with a lad named "Billy" Nickersen, seized a food supply and bedding from his parents and sailed forth to discover Plymouth, across the bay. Two days later he was discovered on the broad water at Dennis.

"Two years later he shipped on a whaler as cabin boy, and when he was boat steerer on the famous William A. Grozier. A little later he was aboard a big coasting craft, sailed while on a Nova Scotian ship under brutal officers, and subsequently made a voyage to Calcutta on the four-masted Golden Horn.

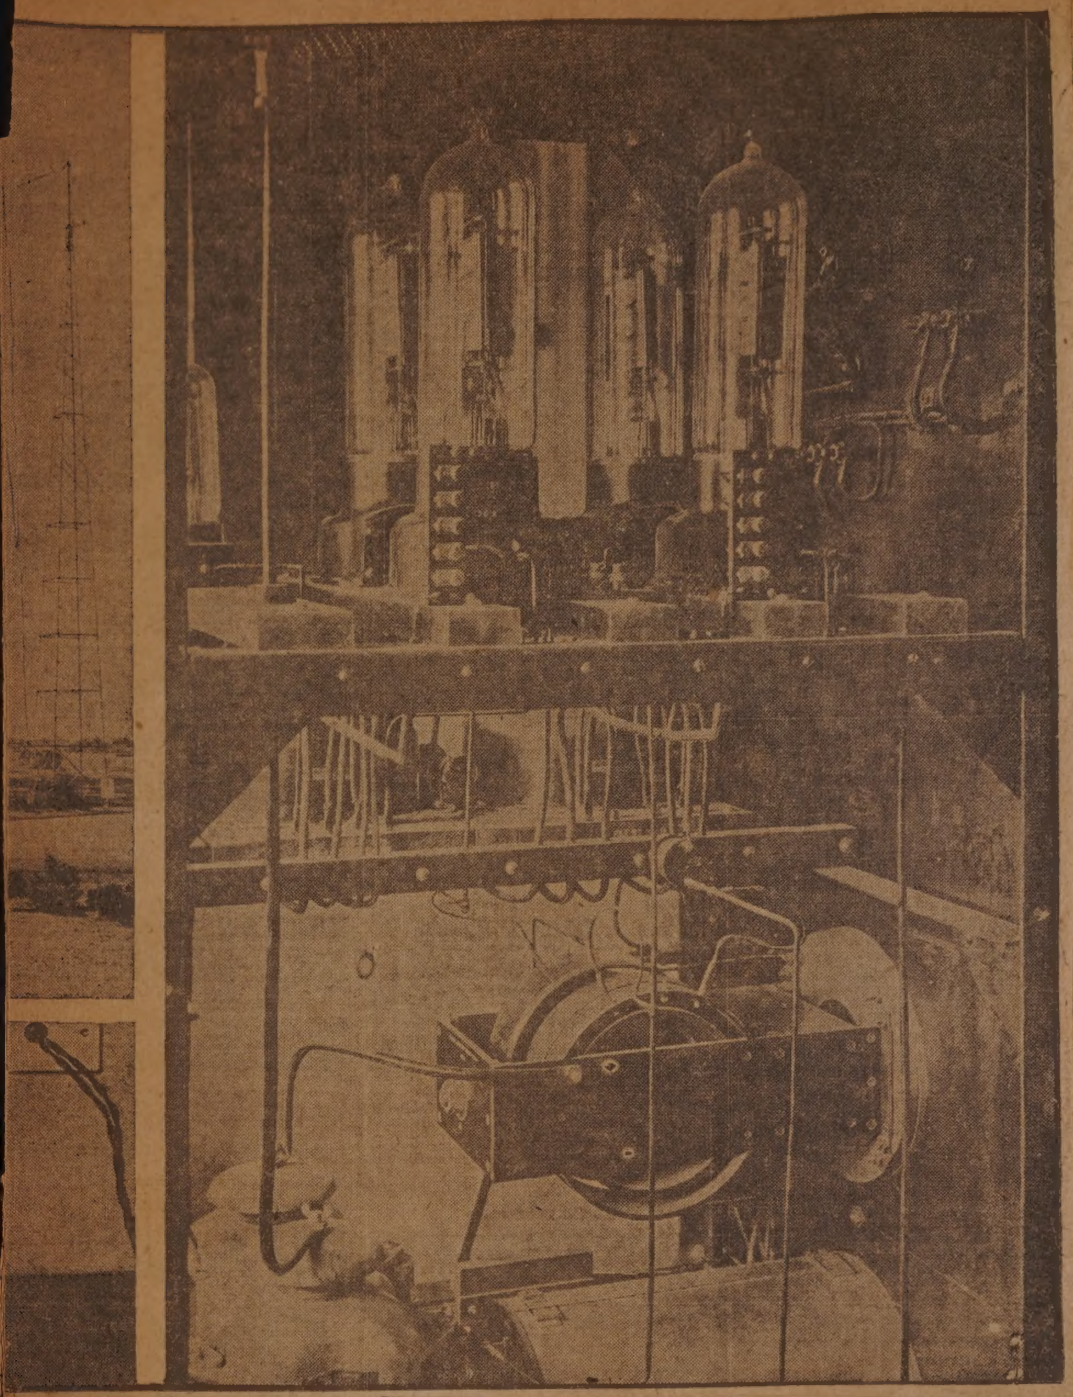
Lost Arm in Arctic.

Then again he tried sperm whaling and had a taste of life in the north and then went hunting sea lions, seal and right whales in the Antarctic. It was in the Arctic that he lost his right arm, and left it buried in a tin case in the frozen soil of Herschel Island.

He was an officer on the steam whaler Navarch at the time in 19[illegible]. With another man he had gone [illegible] miles from the ship for a supply of fish and game. Telling the story he used to say:

"My partner was doing the hunting and when we arrived at our destination we found two other ships's [illegible] out also on a hunting expedition and joined forces. While we were arranging camp matters I stepped in[illegible]

"RADIOIZED" ESTATE



canoe and in removing articles accidentally discharged a gun, the full charge entering my arm above the elbow. It was 12:30 A. M., and the midnight sun was just shining brightly above the horizon.

"I was rushed back over the ice and snow and it was found that my arm had been shot to pieces. Captains Leavitt of the Mary D Hume and Bodfish of the Alexander volunteered to amputate the arm. Finally it was cut off, and I was nursed back to health by Mrs. Viola Cook, of Provincetown. If it had happened anywhere except in the Arctic, without the pure bracing air, death would have inevitably resulted."

Opened Store.

After that he himself became convinced that his whaling days were over and he went to Taunton, where he opened a cigar and variety store. He could only remain quiet for nine months, however, and he took command of the Emma C., and set sail for the South Atlantic on a fur sealing and whaling voyage. Then he sailed on ships for a time on the Pacific coast, sailing finally on the Molly Adams, on a fur-sealing expedition

early years opened a blacksmith shop on Mill street. About 20 years ago he became superintendent of the naptha streets lights here which were maintained by the Welsbach Lighting Company.

Appointed Deputy Sheriff.

He held this position for five years, and 16 years ago he was appointed a deputy sheriff under High Sheriff Evans. He continued in the performance of this work up until about a year ago, when he was stricken with his first shock.

About 11 years ago Mr. Oliver lost his eyesight as a result of neuritis but continued to carry on his work as a deputy sheriff, being accompanied about by his wife.

In 1888 Mr. Oliver married Miss Ella Goff, and from this marriage there is one daughter, Mrs. Agnes L. Dearborn, now living in Lowell. Following the death of his first wife, Mr. Oliver in 1905 married Miss Nellie F. Head of this city who survives him. He leaves one brother, William Oliver, living in California, and two sisters, Mrs. Mary Enos, of this city, and Miss Lucy Oliver, of Brockton.

Mr. Oliver was a member of the Acushnet Lodge of Odd Fellows and of the Knights of Malta. At one time he was interested in the Redmen here and also the Knights of Pythias, but he withdrew his membership in these organizations several years ago.

Years ago Mr. Oliver was clerk of Chemical Hose Company No. 1, and all told was connected with hose companies at the central station for 2... years.

Mortimer McCarty Dies--Was Street Railway Worker and Successful Teamster

Mortimer McCarty, for many years a member of the Common Council and later of the Board of Aldermen, died at his home at 87 Hazzard street, at 5:30 this morning. His illness began a year ago last April, and was due to hardening of the arteries.

Mr. McCarty was born in this city in 1860, and was graduated from the public schools here. He became an employe of the Union Street Railway Company, rising to the position of assistant superintendent. In 1892 he resigned from the railway company and engaged in the teaming business, which he conducted very successfully. In late years his business was both trucking and teaming, and he tranferred it, at the beginning of his illness to his brother.

when he was tired and wanted recreation, but lately every moment that he can spare from his inflexible business appointments finds him with his palette and bruishes in hand.

Mr. Baker, who was born on the Cape 36 years ago, formerly lived on Kempton street in this city and for a year attended Brown University, until failing health necessitated a trip to the West. After seven years he went to Buffalo.

He felt the urge of art when he was 18 and painted many things, in shadowy pastel shares. His ranching, however, left little time for art. Since he has made his home in Niagara Falls he has spent much time at his easel.

He paints as other men play golf or poker, for recreation, from his work as a real estate and insurance agent, he has never studied art. No teacher ever taught him to get effects for landscapes, portraits, and interpretations of the sea have come from his brush. On his studio walls hang pictures of valiant ships which toss on wave-swept oceans, and, pictures in which cows peacefully roam pastures.

He has exhibited with the Buffalo artists in the Buffalo Albright Art galleries.

SEVEN FIREPLACES ENHANCE THIS DWELLING

April 1- 1923

A RAMBLING STORY-BOOK HOUSE OF SEVEN FIREPLACES, FULL OF INTERESTING OBJECTS, IS THE PLEASANT, weather-stained shingle dwelling at 36 Oxford street, Fairhaven. Built on a narrow street overlooking the water 111 years ago by Joseph Taber, it sheltered none but members of the Taber family until 1900, when the Misses Aurilla C., Francelia N., Juliet P., and Louise Leonard came to live there with their mother. Their family heirlooms settled down in the big house as if they had always been there, and blended on the friendliest terms with the few relics of the Taber occupancy.

The appointment of Wilson E. Bannister as deputy master of the New Bedford House of Correction was announced today by Sheriff Isaac E. Willetts, who recently assumed the headship of both these offices.

Mr. Bannister has been clerk in the office of the House of Correction for 17 years. He will consolidate his duties in that capacity with his new responsibilities. As clerk he has been in close touch with the administrative work of the institution. His appointment goes into effect immediately.

The salary Mr. Bannister will receive is to be fixed by the County Commissioners. It has been indicated that it will be an advance over his salary as clerk, but may not equal that received by the late Franklin L. Hathaway.

resigned, Frederick I. Thompson of the Birmingham (Ala.) Age-Herald was elected. His term will expire next year.

The meeting passed unanimously and enthusiastically a standing vote of thanks to express the appreciation of The Associated Press for the faithful and efficient service of its directors and employes during the last year. The appreciation was voiced by C. P. J. Mooney of the Memphis (Tenn.) Commercial Appeal, who moved the motion, as follows:

"We have some men here in this organization who are at cross-points and who have the difficulty of taking a four wire report, sometimes, and cutting it into a single wire report. It is just like taking sixteen columns of news and condensing it into four columns. And the man on the single wire, seeing the four-wire report, thinks he ought to have as much of the Associated Press on his one wire as a big paper gets on four. These men are very splendid men. They are doing a great work.

"The staff at Washington does a splendid work. And you will remember the report they wrote of an interview of that day with ex-President Wilson, which is one of the most splendid pieces of work that ever went into an American newspaper.

THE STUDY HAD A FIREPLACE WHERE THE BOOKCASE STANDS, BUT THAT WAS WALLED UP LONG ago, as were a few others, or the house would have more than seven today. The sombreness of books and many pictures is brightened by the window draperies of India print in pomegranate design, through which the light glitters rose, blue, and yellow against a creamy background.

B. H. ANTHONY IS ELECTED AN ASSOCIATED PRESS DIRECTOR

Apr 25-23

Twice Honored

For the second time in his career, B. H. Anthony was yesterday signally honored by the great newsgathering organization of which his two newspapers are members.

The publisher of The Standard and The Mercury was made second vice president of the Associated Press by its directors in 1915. By a nation-wide vote of the A. P. membership he was yesterday elected to a three-year term as director. In his new office he will have an even greater opportunity than before to help formulate the organization's policies.

Since his first days as head of the New Bedford newspapers, Mr. Anthony has been active in the cooperative efforts of his profession. He is a member of the American Newspaper Publishers' Association. He helped to form the New England Newspaper Alliance and then the New England Daily Newspaper Association, of which he was the first president. As a member of these organizations, he has served on many important committees.

Dr. E. W. Dehn Died This Morning at Home in North End

Returned to Native City to Practice After Graduating in 1889

Dr. Edward W. Dehn, a native of New Bedford, and one of the old time practicing physicians here, died at his residence, 23 Linden street, at 3:20 this morning. Dr. Dehn was 68, and his death was attributed to hardening of the arteries.

Since the beginning of the year, Dr. Dehn had been in failing health, but managed to get about until a week ago yesterday when his illness became so serious that he had to take to his bed.

Born in the North End, the son of the late Charles and Catherine Dehn, Feb. 2, 1855, Dr. Dehn grew up in that section and attended school there. He received his degree in medicine from the Bellevue Hospital Medical College, New York, in 1889. Soon after leaving the medical school he came to this city where he established an office.

Through his 34 years of service, Dr. Dehn became known to hundreds of people in all sections of the city and in the outlying towns where his practice extended in the early days of his career as a physician.

Miss Ethel E. Nicholas, Wheaton Senior, Invited to Take Position

Miss Ethel E. Nicholas, of the Senior class in Wheaton College, has been invited to succeed Mrs. Ruth W. Sterling as director of the Young Women's and Girls' work of the New Bedford City Mission. Miss Nicholas is also a graduate of the Gordon Theological School of Boston, and is at present president of the Wheaton Y. W. C. A., and the Boston Student Volunteer Association, comprising 18 colleges. She had had considerable experience in church and social work, and she has been highly recommended by the college faculty and others. Rev. C. F. Hersey, director of the work of the City Mission, recommended that the Ladies' City Mission extend the call to Miss Nicholas, and it was voted to do so.

Mrs. Ruth W. Sterling.

Have Resigned.

The place of director of work among girls is made vacant through the resignation of Mrs. Sterling, who has been here with her husband, Ernest A. Sterling, the latter in charge of the boys' work. Their resignations, offered to the Ladies' City Mission under date of April 10, are as follows:

"We, the undersigned, wish to tender our resignations as directors of the boys' and girls' work of the City Mission, to take effect May 1.

"Our stay here has been a most happy one, and we wish to thank the ladies of the Board for the many kindnesses shown during our term of service.

"Always we shall follow the work with sincere interest and our best wishes and prayers are with those fellow workers who have done so much to make our engagement here a pleasant one."

It was voted to accept the resignations of Mr. and Mrs. Sterling with regret, and the secretary was directed to transmit to them the regret of the board and the best wishes of the board for the future success of Mr. and Mrs. Sterling. In his March report Mr. Hersey speaks as follows with reference to Mr. and Mrs. Sterling:

Sent to California.

McDonnell was first taken seriously ill late in 1921 and was sent by his father to visit an uncle in California for his health. He appeared to mend rapidly and took part in several athletic events in the west until June 25, 1922, when practically without warning, he collapsed on the streets of Los Angeles and was transferred to the Clara Barton hospital there for treatment. There he was operated on several times for brain troubles resulting from his war service and on Oct. 20th started the journey cross-continent in company with his father and a nurse after physicians had said that he would live only a few weeks at the most.

McDonnell's sturdy constitution, however, stood him in good stead, and instead of dyng as the physicians predicted, he apparently grew better until he was transferred from his home to the Peter Bent Brigham Hospital in Boston to undergo another operation on his brain. He went to the hospital on Dec. 6, 1922, and was treated by Dr. Horax, a brain specialist of Boston. On Jan. 27, 1923, he returned again to his home.

Since then he has practically been without the use of his right side, and except at a few brief intervals had been unable to pronounce words extending beyond a single syllable. Physically, he appeared to improve, and was able to take short walks, though at all times he was accompanied by one of his brothers.

DEATH ATTENDS HOME COMING

Hugh B. McDonnell Loses Long Fight to Overcome Illness

End Came Shortly After Six This Morning—Was Y. D. Veteran

After an illness dating from the time he was discharged from the army shortly after the close of the World War, Hugh B. McDonnell, a former chauffeur with the 26th (Yankee) Division in France, died this morning at his home. McDonnell, who had been undergoing treatment at the Peter Bent Brigham hospital in Boston, was brought to his home here to die last night after his father had received word from the physicians at the hospital that nothing further could be done to save his life. Shortly after six this morning, McDonnell breathed his last—just 12 hours after he had arrived home.

A military funeral, fitting for one who gave so much for his country, is to be held for McDonnell Saturday morning at the church of the Holy Name, on County street and is to be attended by many ex-service men and friends. Arrangements were being made today by Dr. Clarence E. Burt, commander of the Disabled American Veterans, New Bedford Chapter 7, for the obtaining of a caisson from Battery D, and a rifle squad and bugler from Battery D.

...ter of Le Cercle's Sets Hopes for Stage Work Career

Apr 15 1923

...J. Stockus, Native of Russia, Studying at Swain School

The beautiful stage settings for Le Cercle Gounod's productions of "Pinafore" and "The Mikado", which were presented last week at the Zeiterion, were painted by John J. Stockus, 60 Thomas street, a Russian student at the Swain Free School of Design. The settings included two large rear drops, both 43 feet wide by 28 feet high. One represented a Japanese garden, radiant with many colored flowers and adorned with a pagoda and a high Oriental bridge.

John J. Stockus.

In the background were bright green hills, painted to suggest the distance and the slight mistiness of the atmosphere. In the extreme background was a volcano, of purple color, under a summer sky.

The drop for "Pinafore" represented the harbor of Portsmouth, England, as it is supposed to have looked at the time of the story. It showed a bright blue bay in the sunlight, with an old-fashioned stone light-house and a few cottages of the town. In the background was a square-rigged vessel, and the sky had a pretty cloud effect.

Both drops showed the bright gay coloring that is typical of Russian art, but unlike the usual conception of Russian stage decoration, the scenes were absolutely natural, and devoid of the grotesque and impressionistic qualities.

Mr. Stockus was born in Lithuania in 1898, and came to this country with his brother at the age of 16. His brother had already settled in this country, and was merely making a trip home at the time. He worked chiefly around and in Boston during his first years in America, but in 1918 he was living in Brockton. He joined the army in that year and was placed in the coast artillery.

During the war, he became ill and was placed in an army hospital at Lakewood, N. J. It was when convalescent there that the first made serious attempts in painting, and his talent was soon recognized. In 1919 he went to Fall River and there attended the Diman Vocational School in preparation for art school, and last September started in studying at the Swain Free School with assistance given him through the Veterans' Bureau.

Mr. Stockus, though he is at present studying general art, is specializing in stage work, and hopes to make scenery painting his career. He has already painted many sets, including some for the Congregational Church in Fall River.

To extend Mapleview Terrace or not to extend it—that is the question, and the hearing before the Board of Aldermen last Wednesday evening didn't reveal clearly anything about the wishes of the property owners on the terrace and in the immediate neighborhood except that they disagree about what they want done. At present Mapleview Terrace is a blind alley and ends officially at the dotted line at the right continuous with the boundary of the property belonging to Sophie T. Anthony et al. It is paved and sidewalked up to the eastern boundary line of the property of Edward S. Brown, which is an undeveloped strip a trifle more than 80 feet wide running through Hawthorn to Maple street. There can be no controversy over the part of the petition which asks the city to accept formally this paved extension.

THE EXTERIOR OF THE BUILDING IS PRACTICALLY COMPLETED EXCEPT FOR THE FINISHING OF THE TOWER WHERE A CROSS WILL BE PLACED. THE INTERIOR WORK, HOWEVER, WILL NOT BE READY FOR ABOUT FOUR MONTHS, AND IT IS EXPECTED THAT THE CHURCH WILL BE OPENED IN THE EARLY FALL. SERVICES ARE NOW BEING HELD IN THE BUILDING TO THE WEST OF THE NEW CHURCH, AND THIS STRUCTURE WILL BE RETAINED AS A PARISH HOUSE. THE NEW BUILDING WILL SEAT 500 PEOPLE, OR TWICE AS MANY AS CAN NOW BE CARED FOR DURING WORSHIP. ST. ANDREW'S PARISH WAS RECENTLY INCORPORATED.

Charles M. Comey Came to New Bedford When Young Man

Identified with Coal Business Here Many Years ---Was 75

Charles Melvin Comey died suddenly Saturday, May 26, at Piedmont, W. Va., where he had gone for a visit. Since last September, Mr. Comey had made his home with his daughter, Mrs. Z. T. Cox, at West Liberty, W. Va. Death was due to heart disease, form which he had been a sufferer for several years. The body is to be brought to New Bedford for burial.

Mr. Comey was born in Foxboro, Mass., Sept. 11, 1847, and was 75 last September. He removed to New Bedford when he was a young man of 23, and here had made his home since that time until his removal to the South to live with his daughter last fall. Mr. Comey was formerly with Hart & Akin, coal dealers, and succeeding this he was for many years in the employe of the Holmes Coal Company, retiring from active connection with this concern two years ago. Mr. Comey's daughter, formerly Miss Alice Comey, had married a southerner, and it was with his daughter that Mr. Comey had made his home.

Charles Melvin Comey.

Mr. Comey was first married to Miss Hannah C. Driggs, of this city. Following her death he married a second time. His second wife has since died. By their first marriage there were three children, all of whom are living. James D. D. Comey, of Fall River, formerly of this city, is the organist at the First Baptist Church, Boston; Morris L. Comey is the agent and treasurer of the West Boylston Manufacturing Company, while the only daughter is Mrs. Cox of West Liberty, W. Va.

may 18-23

VETERAN BANK OFFICIAL DIES

William H. Pitman Was for 33 Years Treasurer of Savings Bank

Held Many Public Offices---- Rendered Distinguished Service on Water Board

William H. Pitman, for 33 years treasurer of the New Bedford Five Cents Savings Bank and for many years holder of various public offices, died last evening at his home, 60 Chestnut street, at 9:45 o'clock. He was 72. He had been in failing health for some time and had been in bed since Feb. 21.

Mr. Pitman resigned as treasurer of the bank Jan. 15 of this year, and was succeeded by William F. Turner. On Feb. 4 of this year he was elected president of the New Bedford Port Society. Following his resignation he was elected assistant to the president of the savings bank.

Mr. Pitman was never married. He is survived by two nieces, Mrs. A. H. Mandell and Miss Abby E. Pitman, and two nephews, Robert L. Speare and William P. Speare of Middletown, Conn.

Born [illegible] Fall River.

He came with his father's family as a youth to this city from Fall River where he had been born Jan. 11, 1851. He was graduated from the New Bedford High School in 1867. In 1870 he became a clerk in the New Bedford Institution for Savings, remaining there in offices of advancing trust for 19 years, until on June 10, 1889, he was elected treasurer of the Five Cents Savings Bank. That was when the bank was on the west side of Purchase street at the south corner of Mechanics lane. Soon after this the start was made on the new building farther south on Purchase street, at Sears court, which was opened about 1892; and during all this long term of years Mr. Pitman had continued in the office of treasurer of this bank.

In the meantime and previous to this, he extended his usefulness in many directions. He was a member of the Common Council in 1875 and was re-elected for 1876 and 1877. In 1881 he became a member of the school committee, and continued in the school board for 19 years, through 1899.

For two years within this period he was a member of the New Bedford Protecting Society, in 1884 and 1885. For six years from March, 1894, to March of 1900, he was a member of the commissioners of sinking funds.

Served on Water Board.

In 1906 he was made a member of the water board, being reappointed for three year terms successively and continuing in office until the present time.

In the later days of the New Bedford Lyceum, that society of strength to early New Bedford, for the promotion of knowledge and advancement of popular education through lecture courses, Mr. Pitman held the office of clerk for a long term, in the 1890's.

In 1908 he was elected treasurer of Tabor Academy in Marion. He was a director of the Morris Plan bank from the time of its establishment; and he was a director of the New Bedford

New Bedford Man, Who Was Killed at Ypres, Decorated

Mr. and Mrs. Nicholas Deom, of 120 Shaw street, have received two medals from the Belgian Government through Baron de Cartier, Belgian Ambassador to the United States, awarded posthumously to their son, August Deom, who was killed May 2, 1915, at the battle of Ypres.

Mr. Deom was the only New Bedford man with the Belgian forces to lose his life in the World War, although several men from here were in the same ranks. One of the medals left, above) is the Belgian Croix de Guerre, bronze, bearing the palm branch on its red and green ribbon. The other (right, above) is the silver Order of Leopold II, decorated with blue enamel, and suspended by a ribbon of black and blue.

August Deom was killed during a heavy barrage when an exploding shell tore to pieces the trench embankment behind which he was stationed, burying him and several companions. The others were saved. Mr. Deom had just paid a visit to a friend in an adjoining trench, and had shaken hands with him and said goodbye, explaining that the firing was growing pretty heavy and there was no knowing whether they would see each other again. He said he had better get back where he belonged and into safety, slid into his place in his own trench, and had hardly done so when the fatal explosion occurred.

Property and Silas Kempton House Sold by Mrs. Schuler

Was Built in 1840----Gioacchino Salvati Is Purchaser

The property of Mrs. Martha L. Schuler, located on the south side of Kempton street, between Chancery and Park streets, and running through to west Middle street, has been sold to Gioacchino Salvati. The property has a Kempton street frontage of 147 feet and a depth of 314 feet. There is a large stone house on the property, which is known as the Silas Kempton house.

Mr. Salvati said today he had no definite plan for the development of the property. He said there had been some consideration of a plan to erect a theatre on the site, with stores fac- a theater on the site, with stores fac- there will probably be stores on the Kempton street frontage.

Built in 1840.

The Silas Kempton house was built in 1840. It is located on land which was formerly a part of the old Kempton farm. As far as can be recalled the land came into the possession of Silas Kempton in the early part of 1840. Mr. Kempton then lived at the southwest corner of Elm and Second streets, and in the same year he had the stone house built.

The house descended to his heirs, Silas Kempton, Jr., whose widow in 1873, sold it to Charles A. W. Oesting, who was the father of Mrs. George Schuler. The Schuler family came in possession of the house about 18 or 20 years ago, and had lived there since.

Although 83 years old, the house is in a remarkably good state of preservation.

The house is one of the few old landmarks in the West End, and because of its location on Kempton street, it has been the object of many questions by people passing in and out of the city. The house sets in about 60 feet from the Kempton street line. At one time there was a high wooden railing around the roof and a large wooden fence on the Kempton street side, but there were removed years ago.

ITE CHURCH BRINGS $1825

Frank Gurl, of Freetown, Buys Pews and Cushions at Auction

Building and Lumber Goes to Fall River Wrecking Company for $1500

The old White Church, for years one of the largest houses of worship in the city, held its last congregation yesterday afternoon, and the platform, which has in former years been seated with many speakers of distinction, was on this occasion occupied by Fred W. Greene, Jr., filling the role of auctioneer.

Mr. Green sold the building at auction for William J. Dunn, who some time ago purchased the real estate and ancient building from the North Christian church society. Because architects have reported the building as it stands constitutes a danger Mr. Dunn sold the old edifice to be removed in 30 days. The building, pews, and cushions brought a total of $1,825.

The 150 pews, together with about 100 cushions, were first offered for sale, and these brought $325. They were purchased by Frank Gurl, of Freetown. The building as it stands together with some lumber on the south side of the building and other timbers in the basement, was then sold to the Fall River Building Wrecking Company, represented at the sale by Leo Hurwitz, who paid $1,500.

The two were then put up as a whole, but there was not an advance over the previous bids and the two individual sales stood. The purchaser of the building is required to put up a bond of $5,000 guaranteeing Mr. Dunn against the possible injury of anyone in the course of the demolition of the building. The sale did not include any of the stone foundation.

Other conditions of the sale are the wrecker is to leave intact the basement wall on the Middle street side of the building, leaving the windows intact and taking only that part of the building above the foundations, the laths are to be removed from the site, but the plaster may be left. It was originally planned to give the purchaser two weeks in which to remove the building, but this has been extended to 30 days at the request of the purchaser.

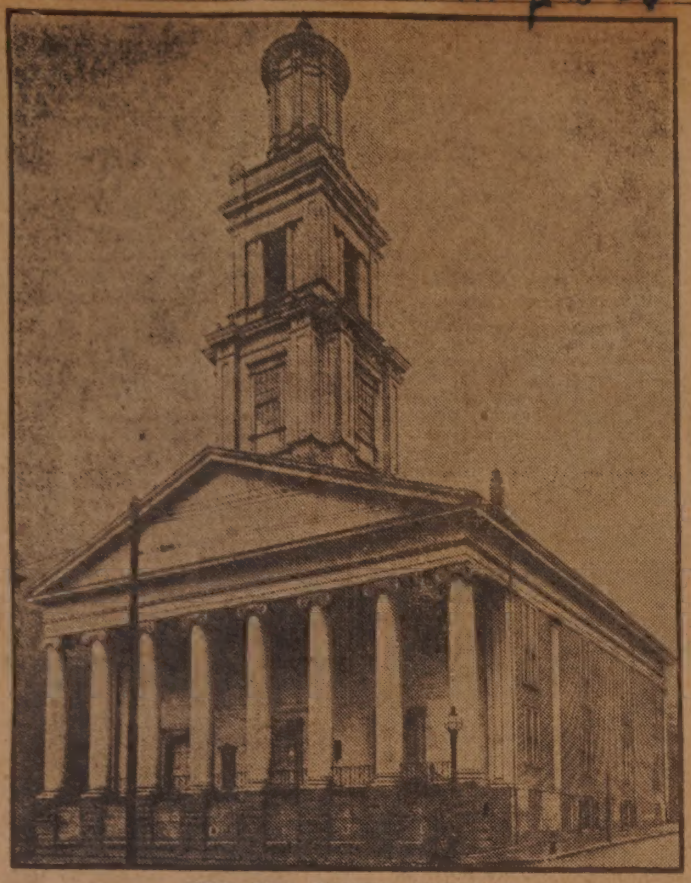
Mr. Hurwitz stated he would put 50 men at work on the job, and he estimated that his wrecking crew would have the site cleared in three weeks. The purchaser posted 25 per cent. of the sale price Saturday, and is to complete the payment by Wednesday, May 16, though Mr. Dunn, present at the sale, stated that ther time would be given if necessary to complete the payment. The water meter in the building was not sold.

The first bid for the 150 pews of soft pine and the cushions was $300, and there was only one other bid, that of $325 made by Mr. Gurl, and he was the credited owner of the pews and cushions.

In offering the building for sale, Mr. Greene gave some of the dimensions of the timbers in the building. The studs run up for about 30 feet, and the framing timbers include 2x6, 3x8, 3x10, 3x12, 8x10, 10x12, and some 16x16 timbers in that part of the building supporting the tower. The building is practically 70 feet wide and is over 100 feet long. The big timbers in the building are hewed, while the smaller timbers are sawed.

OLD LANDMRAK TO DISAPPEAR

May 13-23



THE OLD WHITE CHURCH

The bidding started at $100, went to $200, $400 and then by $50 and $25 bids until it got up to $1,000, after which the bidding was a cross fire between Mr. Hurwitz, representing the Fall River Wrecking Company, and Nathaniel B. Stewart of this city. Albert Crossley was a bidder at $950. There were $50 and $25 bids after the $1,000 had been reached, until Mr. Hurwitz was the final bidder at $1,500.

There were more than a hundred people at the sale, and the general comment was that the building would not bring over $500, in view of the cost of taking the edifice down. Following the sale of the building, Mr. Greene next offered the wire grating in front of the church, grating that was taken out of another building recently altered by Mr. Dunn, and this went to Leo Hurwitz for $50.

No Plans for Site.

There was next offered the two-tenement house in the rear of the church building, 150 Middle street, and this went to Alexander McDonald of this city for $385. This is also to be removed within two weeks.

Mr. Dunn stated that he had no immediate plans for the site, one of the nest building sites remaining undeveloped in the business center of the city. There have been several offers for the property, and one prospective purchaser held an option of 30 days while considering the property as a site for the erection of a ten-story building to contain stores and offices. The area covered by the church and the house to the west is about 85x175 feet and includes between 14,000 and 15,000 square feet.

FORMER WHALEMAN

July 18-23

Antoine Marshall, Native of Azores, Dies Here at Age of 70

Antoine M. Lemos, better known as Antoine Marshall, 70, a prominent Portuguese resident and old whaleman, died at his home at 368 Allen street, yesterday afternoon at 2:30 after a seven month's illness. Mr. Marshall was born in St. Georgs, Azores in 1853. For over 50 years he made his home in New Bedford. Known in this section as an old whaleman, he took his first cruise in the Charles W. Morgan, on one of its early expeditions. In addition to his long service on whaling vessels, he sailed on revenue cutters in this vicinity. Following his retirement from the sea, he engaged in the fish business, in which he remained till four years ago. Mr. Marshall was a member of the Mont Pio Society and the Portuguese Fraternity. For many years he was active in the celebration of the Holy Ghost Feast at Fairhaven.

A father of 15 children, he is survived by only seven. His wife, Annie Marshall, died less than three months ago. His survivors are five sons, Fred M., Antoine M., Clarence, M., Victor M., and George M.; two daughters, Mrs. Lena Jason, and Mrs. Cleste King; two sisters, Mrs. Mary Sylvia of Providence and Mrs. Rose Pauline; and one brother, Frank M. Lemos, of Providence. The funeral will be at the St. John's the Baptist Church Thursday morning with the Rev. Father Toledo officiating. Burial will be in St. John's cemetery.

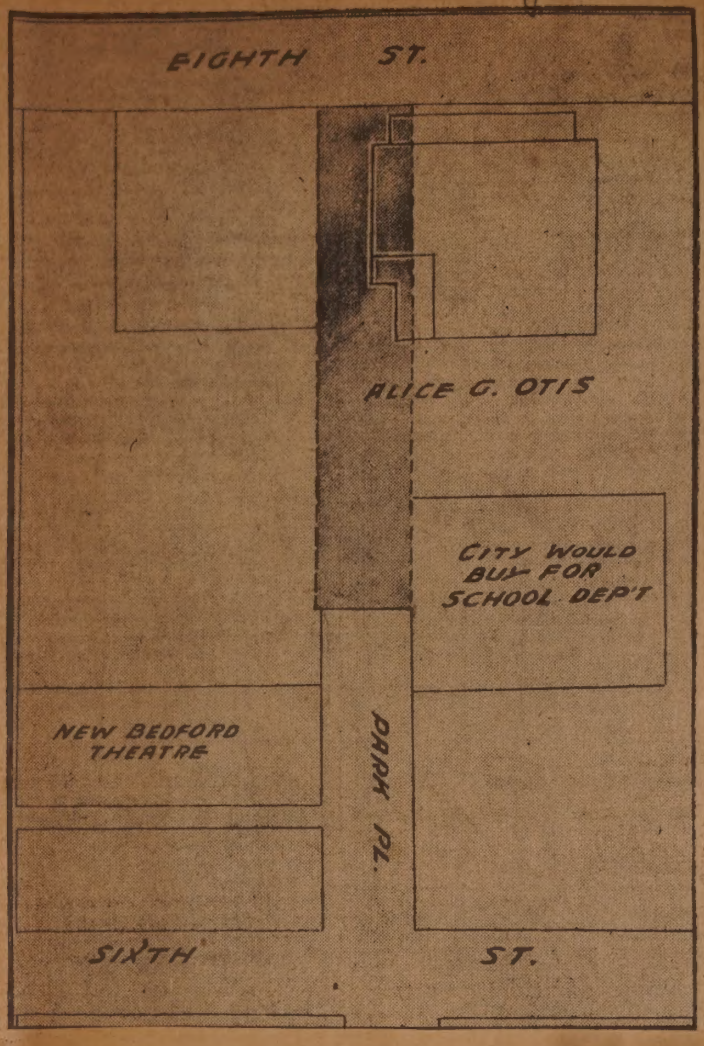
PLAN FOR EXTENDING PARK PLACE

May 17-28



Mayor Remington to Present Proposition to Board of Aldermen

Will Provide for City Taking Strip of Land Back of School Department

A plan for extending Park Place to Eighth street is to be presented to the Board of Aldermen by Mayor Remington. The Mayor asserts that this is an improvement which he feels is greatly needed. He says that by doing it "two birds can be killed with one stone" for the city could also take the strip of land in back of the School Department headquarters which is so badly needed to effect an entrance to the back of the School Department headquarters.

"The extension of Park Place would also provide a place for the parking of automobiles", said the Mayor. "The Municipal lot is pretty much crowded at present and this would relieve the congestion. Moreover it would be a great advantage to have a street at that point in case of fires. It would give the Fire Department means of access to property in that section."

The Mayor said that for a number of years the city had been considering the purchase of the strip of land in back of the School Department headquarters. He said that at present all the supplies had to be delivered through a narrow alley at the side of the building and that this was a great handicap.

"If Park Place was extended", he said, "we could take the strip of land by eminent domain. This would solve a problem which has been troublesome for years. I understand that the owners of the property are adverse to selling the strip of property but would be more agreeable to the plan if the street was to be extended."

The plan would involve the moving of the Otis house on Eighth street, as the diagram shows the extended street would cut into the house. A hearing on the question will be held the 23rd.

BLIND--INVENTS WRITING DEVICE

May 27-23

Thomas F. Wood Is Thus Enabled to Write His Own Letters on His Caligraph

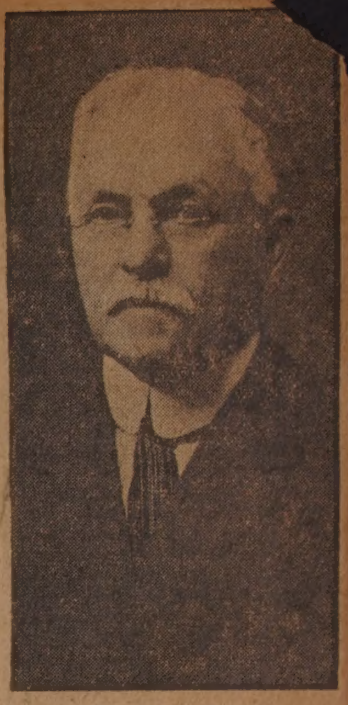
Although blind, Thomas F. Wood, of 89 Bonney street, has designed and constructed by himself a device that enables him to write his own letters in a perfectly legible hand. He calls it a caligraph, and it is so constructed that he places his paper on the rest designed for it, and then by means of a rule, his hand is guided across. On each side are small pins, pointing out the ends of the line.

The rule has a spring arrangement so that when a letter is made that drops below the line, the rule can be pushed down allowing the letter to be formed. Mr. Wood guides the pencil in his right hand by the fingers of his left. The only difficulty he encounters in writing is the crossing of t's and dotting of i's. He says he is unable to do this because if he removed his left hand from the end of a word he would lose the place in the line.

The caligraph was constructed by Mr. Wood about two years ago. It took him several months to make, as he worked on it slowly. The first idea he had of constructing it came to him, he says, when he found difficulty in dictating letters. While dictating he would forget what he wanted to say next, he said.

No Attempt to Patent It.

Mr. Wood has made no attempt to have the machine patented because he says that if it will benefit anyone who is blind they are free to copy it. He sent it to the Perkins Institute for the Blind a few years ago, telling the officials there they could copy it if they wished. They did not take up the use of it, however, on the ground that it was too expensive to construct. Mr. Wood said that the cost of making one is about 25.



Thomas F. Wood.

The inventor was actively engaged as president of the Wood, Brightman Company on North Water street until he retired in 1917. He still holds the office, although the business is now carried on by his associates.

The firm was founded by Mr. Wood's father, Isaiah Wood, 80 years ago, and he first entered the employ of the company in 1860 as an apprentice at 1 years of age. From September, 18 to 1863 he was in the ranks of 1 Union army with the Third Massachusetts Infantry, stationed at Newbern N. C.

George B. Faulkner

WAS EMPLOYED IN OLD STATION

George B. Faulkner, for Many Years with the New Haven Railroad, Died Yesterday

George B. Faulkner, who was the only living employe of the staff at the old Pearl street railroad station, died at his home, 906 Hathaway road, yesterday afternoon at 4:40. He was 63. Death was due to diabetes and followed an illness since last June.

Mr. Faulkner, who retired from service Oct. 1 of last year, went to work in the station with the white pillars, familiar to an older generation, in the fall of 1883. The station stood where the old freight station now is on the north side of the street. When he quit he had been in the continuous employ of the New Haven for 38 years.

At the time he first went to work it was the Old Colony road, and was later leased to the New Haven. William B. Fisher was the station agent at that time and Mr. Faulkner, during the course of his long service, worked with four agents. He broke in as station baggagemaster.

Born in Portsmouth.

Mr. Faulkner was born in Portsmouth, R. I., March, 1860. When a young man he was engaged in the fishing industry. It was his older brother, the late William H. Faulkner, who was one of the best known engineers on the Old Colony division, who induced him to take up railroading.

During his years of service Mr. Faulkner tried his hand at one or two other jobs on the railroad. He was a brakeman for a short time during the day of the handbrake. He also ran a chair car between Newport and Boston. He succeeded T. W. Sherman as station baggagemaster, remaining in the old Pearl street station until the present station was completed in 1886. Aside from his vacation periods Mr. Faulkner has been steadily on the job until last fall when he was taken sick. He went on the pension list Oct. 1.

For many years he began his day at the station at 4:45 A. M., his hours later beginning at 8:15.

Mr. Faulkner is a member of the Veteran Railroadmen's association, an organization of about 10,000 employes who have been in the service of the roads running into New England during the last 20 years. He is also a member of the Railroad Brotherhood and of the Pacific Lodge of Odd Fellows.

He leaves a widow, Mrs. Addie Faulkner, one son, Ernest Faulkner, and three grandchildren, Eloise, Ernest, Jr., and Althea, all of this city.

UNIQUE FAMILY GATHERING HELD

Three George E. Burgesses Meet for First Time at Birthday Party

Grandfather, Veteran of Civil War, Visits Son Here for Celebration

An unusually notable gathering, which was held in this city during the past week, was that of the three generations of the Burgess family, a grandfather, a son and a grandson and all having the same name of George E. Burgess. The three Georges met at the home of the son, Mr. and Mrs. George E. Burgess, of 633 County street, chiefly to celebrate the 38th anniversary of his (the son's) birth together with the eighth anniversary of the birth of the son's daughter, Miss Florence A. Burgess. Both birthdays occurred Wednesday, May 16.

The event might be called a reunion of the George E. Burgesses, yet in astr ict sense it cannot be, for the third George E. Burgess came into this world only four months ago. Consequently, he was attending the event for the first time. The grandfather and father, however, have been meeting at this time of the year for many years past.

Is Nearly 80.

The granddad of the trio is George E. (Edward) Burgess, 79, a resident of Clinton. He wants to be known as 80 years old because his birthday is only three weeks away, June 5. The son is George E. (Elton) Burgess, employed in the office of the city treasurer here, and the grandson is George E. (Elton) Burgess. As was said before, he is only four months old.

The grandfather is a Civil War veteran. He was born at New Ipswich, N. H., June 5, 1843, and during his career in the Civil War was with General Sheridan throughout his entire campaign, and saw service at Gettysburg. He is a remarkably active man for his years and highly esteemed in his own community.

He is a past commander of Post 54, G. A. R. of Berlin, past chancellor commander in the Knights of Pythias, former governor of the Pilgrim Fathers, past president of the 21st Regiment of Massachusetts Volunteers, past Sir Knight Commander of the Knights of Malta, and an honorary member of the following organizations: the Lamsdec Club of Clinton, the American Legion Post of Berlin, Co. F. of Fifth Massachusetts Infantry, and the World War Veterans Post of Clinton.

During the Civil War he was at times with the 15th and 21st Massachusetts Volunteers and with the Second United States Regular Cavalry. At the time he was mustered out of the service he was attached to General Merritt's headquarters.

Traced Ancestry.

Mr. Burgess said that he spent some time recently tracing back his ancestry and finds that he is a descendant of Thomas Burgess, one of three brothers to land at Sandwich in 1632. He said that his genealogical study makes him feel certain that Thornton Burgess, the writer of children's stories, is one of the same tree of Burgesses.

Grandpa Burgess has at times lived in Hudson, Berlin, and Clinton, all closely related towns. For 30 years he conducted an antique furniture establishment in Clinton, and although he is not in that business now, he said "he delights in tinkering with antique jewelry." He has many precious gems to support his claim.

Refreshed by the enjoyable week that he has spent with the family of his son; by meeting relatives here, and last but not least by meeting the new George E. Burgess, the grandad plans on leaving New Bedford for his home tomorrow, with all intentions of returning again for the first real reunion of the three George E. Burgesses next year.

Mrs. Thomas Dunham Luce, Jr., Back After Eight Months Trip

Mrs. Thomas Dunham Luce, Jr., of 53 South Sixth street, who returned to New Bedford a week ago from an eight months' trip around the world, went today to Oak Bluffs to spend the summer with her parents, Mr. and Mrs. Frank S. Wilcox, at their cottage at North Bluff.

Setting out with friends bound for Australia, Mrs. Luce made a most unusual trip. Her first stop was in South Africa. She spent more than a month in Australia, visiting Sydney and Melbourne and interior points. Following the plan of staying as long as she liked in each place, and going wherever she wanted instead of traveling in a set tour, she proceeded to New Zealand. Then her route took her through the Indian ocean and the Suez canal to Egypt. She made the Mediterranean trip on her way to England, and spent a number of weeks in London visiting friends. France, too, claimed her for a several weeks' stay, and she visited Belgium and Holland before returning to this country. She met no travellers from New Bedford throughout her journey, but had the experience of running upon friends in France whom she had not seen since she was a child. She recognized them and a pleasant reunion followed.

THE TABLET PRESENTED BY ALUMNI.

The Memorial Tablet at the High School, Honoring the Graduates Who Lost Their Lives in the World War, Will Be Unveiled Tuesday Noon. It Is the Gift of the Alumni Association.

ALUMNI TABLET TO BE UNVEILED

May 27-23

Memorial to High School Graduates Who Died in World War Service

Veteran Associations Will Be Represented at Ceremony--Mayor to Read Names

A handsome bronze tablet in memory of the New Bedford High School students who died in the service of their country during the world war will be unveiled with appropriate ceremonies Tuesday noon in the auditorium of the school.

The tablet is the gift to the school of the New Bedford High School Alumni Association. It is about two and a half feet wide by a foot and a half high.

It reads: "In memory of the Fourteen Pupils of the New Bedford High School Who Made the Supreme Sacrifice in the World War. 1917-1918." Then follow the 14 names in this order, with the date of graduation from the school: David Cantor, 1915; Stephen B. Dahill, 1916; Donald Fraser, 1916; Thomas Hart, 1915; Edward W. Kenney, 1903; George F. Killigrew, 1916; Yaroslav Kouble, 1917; Edward Mechaber, 1912; Alfred S. Milliken, 1909; Albert I. Paine, 1918; Nathaniel W. Parlow, 1918; Elizabeth L. Thatcher, 1912; Ralph G. Williams, 1914.

The names are in two columns. Between the figures "1917" and "1918" is a United States service button, a star with a circle in which are the letters U. S., and the whole is

Miss Christine K. Hathaway

Presented at Alumni Meeting.

Several casts were made, Headmaster G. Walter Williams said, before a suitable one was obtained. The tablet was presented to the school at the last meeting of the alumni association.

The tablet was placed yesterday in the school auditorium, to the left of the stage as one faces it.

The unveiling exercises will begin before the assembled school at noon Tuesday. Officials of the American Legion, Grand Army of the Republic, Spanish War Veterans and British War Veterans have been invited to attend the ceremonies and to sit on the platform, together with Mayor Walter H. B. Remington, members of the school committee, Superintendent of Schools Allen P. Keith, and relatives of the 14 heroes whose names are on the tablet.

Mr. Williams said yesterday that he has been unable to get in touch with all the parents of the honored ones, as their adresses have changed in some cases, and expressed a desire to extend them a cordial invitation to be present at the unveiling, through The Standard.

The New Bedford School Band will play during the program, as tentatively arranged by Mr. Williams, and the Boys' Glee Club and the Girl's Glee Club will both sing.

Lincoln's Gettysburg address will be delivered by Miss Christine K. Hathaway, valedictorian of the 1923 graduating class next month. After the tablet has been unveiled, Mayor Remington will read the names of the 14 heroes. He will pause and there will be a drum roll after each. The exercises will close with the blowing of Taps by a member of the school band.

MARTIN V. CAHOON ONE OF TWO SURVIVORS OF CABLE LAYING CREW

June 17-23

Wisconsin Man Is Only Other Living Member of Party

Buzzards Bay Veteran Recalls Work on Tarns-Atlantic Project

Martin V. Cahoon, of Buzzards Bay, is one of the two survivors of the crew that laid the first trans-Atlantic cable. The other survivor is William M. Napper, of Lake Geneva, Wisconsin. A few weeks ago Mr. Cahoon was much interested in reading an article about Mr. Napper which appeared in The Standard. He mentioned the incident to his brother-in-law, Thomas J. Gifford, retired soldiers' relief agent, and Mr. Gifford wrote Mr. Napper concerning Mr. Cahoon. In his reply, Mr. Napper asserts that as far as he knew, Mr. Cahoon and he are the only living survivors.

Martin V. Cahoon.

Mr. Cahoon says that one of the most vivid recollections that he has of his days of service with the Great Eastern, the ship that placed the cable, was the incident when one of the gunners lost his arm during a celebration the crew staged in honor of being paid off. It was in Liverpool, and plans had been made to fire a salute in honor of the occasion. There was a premature explosion and one of the gunners lost his arm. Hats were immediately passed and everyone gave every cent that they could spare from their pay envelopes to the wounded man.

Remembers Cyrus Field.

He has a very distinct recollection of Cyrus Field, the promoter of the undertaking. He says that Mr. Field was very insistent that careful attention be paid to the details of the undertaking. Officers of the English Navy were in charge of the ship. It took eight men to operate one of the steering wheels.

Before joining the crew of the Great Eastern, Mr. Cahoon was employed in the Merchant Marine service. He sailed many times from England to the West Indies. Mr. Cahoon served in the United States Navy during the Civil War, enlisting in August, 1861, as a member of the crew of the sloop of war Kingfisher. This sloop was used for blockade service. It guarded the mouth of the Mississippi during the first year of the war and was afterwards stationed near Savannah, Georgia, and Charleston, S. C. Mr. Cahoon was discharged from the Navy in 1863. His discharge was due to disability in eyesight received while on blockade duty.

Other Survivor Writes.

Mr. Gifford received a most interesting letter from Mr. Napper when he wrote to him about Mr. Cahoon. He said in part:

"I remember distinctly the incident about the gunner losing his arm and the contribution taken by passing the hat. I was chief carpenter on board and went ashore with the gunner who was hurt. I went with him to the hospital, as that was considered part of my duty as a carpenter.

"I had never heard of any survivor other than myself, and am very glad to hear of Mr. Cahoon. Mr. Cahoon cannot be a very young man, as I myself am 84. I am thankful to say that I am enjoying good health.

"A few years after the laying of the cable I came to America and started in at my trade here at Lake Geneva as a boat builder, and I have been here ever since.

"Among the numerous steamboats that I built was one for George D. Barnard, of St. Louis, now deceased. He was a native of New Bedford, and loved the place greatly."

Mr. Cahoon is junior vice commander of the E. B. Nye Post of the G. A. R., at Bourne. He has a daughter, Mrs. Lyman C. Bauldry, of Fairhaven.

Joseph Gilito Dies at State Infirmary as Result of War Gassing

Joseph Gilito, 32, of 12 Wall street, son of Mr. and Mrs. John Gilito, died at the State infirmary at Tewksbury, Middlesex county, near Lowell, on July 13 after a lingering illness. The funeral took place this morning at St. Lawrence's Church, with the burial following at St. Mary's cemetery.

Gilita came to New Bedford when he was 13 years old, and was employed by the mills for a few years. He went back to Italy two years before the war, and enlisted in the army there, and when the war broke out, he served as a private in the Italian army. He was taken prisoner by Austrian troops and was a prisoner of war for 28 months.

During the war he was gassed, and when he came to America at the end of the war he had a blood hemorrhage which compelled him to spend the last few years in hospitals. He was treated in Sassaquin hospital, then in Sagamore hospital, and finally in the State infirmary, where he died.

NEW PASTOR TO PREACH SUNDAY

Rev. Charles J. Washburn Will Give First Sermon at Church of Nazarene Tomorrow—Born in Carver

The Rev. Charles J. Washburn, who will preach his first sermon at the Church of the Nazarene here tomorrow, comes to this city from a pastorate in Auburn, Me. He was born in Carver in 1887, being the son of the Rev. Nathan H. Washburn of the Nazarene Church, who has held many important pastorates and was from 1914 to 1920 a district superintendent. The elder Mr. Washburn is now a pastor in Portland, Me.

The new pastor received his elementary education in the public schools of Bath and South Portland, Me., and prepared for college at the Pentecostal Collegiate Institute and Maine Wesleyan Seminary. He later attended Meridian Male College at Meridian, where he adapted his course to preparation for the ministry.

Mr. Washburn's first pastorate was in South Manchester, Conn., and he was there married to Miss Florence Barker, of Danielson, Conn. He later had ministerial charges in West Somerville and Beverly, Mass., and in Cundy's Harbor, Sebasco, West Point and Auburn, Me. He has four children, Marian, ten, Calvin, eight, Sarah, six, and Esther, four.

Rev. Charles J. Washburn.

"I anticipate a very pleasant pastorate in New Bedford," Mr. Washburn said to a Standard reporter. "My predecessor, the Rev. Tom M. Brown, has been very successful in building the church up along all lines. He is a fine fellow and greatly loved in the New England district. I count it an honor that I am called to succeed him. The statistics show the church, though [illegible] SATURDAY CHURCH. dition."

M. C. COWDEN RECEIVE DEGREE

Will Be Made Master of Science in Chemical Engineering at Worcester Tech Friday June 5-23

(Special to The Standard.)

Worcester, June 5.—Merle Chandler Cowden, son of Mr. and Mrs. F. F. Cowden, of 55 Carroll street, New Bedford, is to receive the advanced degree of Master of Science in Chemical Engineering at the commencement exercises of the Worcester Polytechnic Institute, to be held Friday morning.

Mr. Cowden received the degree of Bachelor of Science in Chemical Engineering at the Institute with the class of 1920. During the first year of his graduate work he acted in the

Merle C. Cowden.

capacity of graduate assistant in the chemistry department, and during the past two years, besides holding the same position, he has been an instructor in the modern language department. He was graduated from the New Bedford High School in 1915.

The subject of his thesis, one of the requirements for an advanced degree, is (a) "A Study of the Additive Effects of Hydroxalme and Substituted Hydroxalimes on Hydrocyanic Acid"; (b) "The Use of Perchromic Acid as an Organic Oxidizing Agent."

Is Ex-Service Man.

During his course he enlisted in the United States Field Artillery, and was stationed at Camp Taylor. He rose to the rank of battalion sergeant major before being discharged.

While a student at the Institute, Mr. Cowden was prominent as a member of the journalistic organizations at the college. He was vice president and news editor of the weekly paper, The Tech News, during his sophomore year; managing editor and secretary during his junior year; and in his senior year he was president of the association, and held the position of advisory editor.

Prominent in Activities.

He was assistant editor during his sophomore year, and editor in chief the next year, of the Journal, the Alumni magazine published by the undergraduates. He has also had the distinction of twice being elected editor in chief of the Aftermath, the annual year book published by the seniors. The first year he left for service at Camp Taylor before the book was published.

He was basketball manager his senior year, and was elected permanent secretary of his class. He is a member of the Delta Tau fraternity and the Skull, the senior honorary society.

"Mayor of Rivet Street" with His Faithful "Gunman" Marched at Head

As a slight expression of appreciation for the many services he has rendered the folks in the neighborhood for many years, James A. Murphy, 314 County street, a druggist at 409 Rivet street, was accorded the honor of leading the parade in celebration of the dedication of the Goulart Memorial on Memorial Day.

Mr. Murphy, known throughout the southwest section of the city as "the Mayor of Rivet street", is shown in the accompanying photograph with what he terms his "gunman", little Alfred Cabral of Bolton street, also known as "the little Charlie Chaplin" of the neighborhood. Alfred marched proudly beside the "Mayor" at the head of the inspiring procession.

The photograph was taken just in front of the decorated stand at the Memorial, seen in the background. The "Mayor", wearing a tall, shiny hat and the ever-present smile that has made him a popular figure on Rivet street, is holding a cane over little Charlie's head, to show just how short his protecting "gunman" is in comparison with him, while the "gunman" stands at attention with his trusty rifle at right shoulder.

From now on, no parade at the South End is going to be a real success unless "the Mayor of Rivet street" and his diminutive buddy appear somewhere near the head of the procession.

Standard Editorial Worker Honor Retiring Reporter — Goes to Olympia Theater

Many Activities and Life of Guest of Honor Shown in Pantomime

Earle D. Wilson, for six years a reporter on The Standard staff prior to and following his overseas service in the World War, was the guest of honor at a hail and farewell dinner given by his colleagues of the editorial rooms last evening in the private dining room of the New Bedford Hotel. The occasion was Mr. Wilson's retirement from The Standard the end of this week to assume the assistant managership of the Olmpyia Theater. Fun and seriousness were mingled in the program which told Mr. Wilson in some measure how much the staff regret parting with

Earle D. Wilson.

a staunch comrade and first-rate newspaper man, and what good fortune they wish for him.

Cooper Gaw acting as master of ceremonies, paying a witty tribute to Mr. Wilson before introducing George A. Hough, managing editor, who presented to Mr. Wilson on behalf of the staff a gold mounted fountain pen to replace the reporterial pencil, and to Mrs. Wilson, a former Standard worker, a bouquet of carnations.

A shadow history of Mr. Wilson's career in 12 episodes, enacted by pantomime behind a sheet hung in a wide doorway, created much mirth. The future manager of a chain of theaters was first seen as a chubby infant, waving its arms and kicking lustily, later as a Y. M. C. A. man; in overseas outfit as an official entertainer for the A. E. F.; as a reporter shaking the news out of an unwilling subject; as a referee at a boxing bout; in ministerial garb with a halo above his head delivering a sermon to his Mattapoisett or Sconticut Neck parishioners; as a proud father amusing his infant daughter; and finally at his desk in the theater office with feet comfortably propped on high, lavishly distributing free passes.

An impromptu speech disclosing Mr. Wilson's forensic gifts expressed his apreciation of the event, and he closed the entertainment program by reciting a diverting description of the Shakespearean tragedy of Hamlet as seen by a New York office boy.

WRECKERS BARE CHURCH DESIGN

Uncovering of Framework Reveals Building Methods of a Century Ago

Walls Do Not Carry Weight of Roof, as Is the Usual Practice

With the uncovering of the framework of the old White Church building at the southwest corner of Middle and Purchase streets, now in process of demolition, architects have watched with much interest the manner in which the framework was put together about a hundred years ago.

The picture shows the framework of the south roof, a view taken to indicate the layout of the framing timbers. In this framework has been the general design showing the weight of the roof was carried through the center rather than being distributed to the walls on the north and south sides. It is ordinarily the walls that carry the roof weight of a structure of this character, but in this instance it is only indirectly that the weight reaches the walls through the first thrust on the center timbers.

Another feature of the roof framework to atract the attention of architects has been the manner of bracing. These braces running from the cross timbers to the trusses slant toward the walls on either side of the center. There is no bracing of iron rods such as would be ordinarily found.

All of the roofing timbers are of white pine, and it has been the soundness of these timbers that has maintained the stability of the structure. The building is being demolished by reason of the sag in the roof and the slight bulging of the walls, making the structure a possible source of danger through fear of collapse. The sag in the roof is shown in this pic-

Rev. Alfred Manchester of Salem Will Preach at Unitarian Memorial Church Tomorrow

Aug. 24 '23

The Rev. Alfred Manchester, who is to preach at the Unitarian Memorial Church at Fairhaven tomorrow, has been a pastor of a Salem church for the past 30 years, and has the remarkable record of having been in the ministry for over 50 years. He was formerly pastor of the old Washington Street Christian Church of Fairhaven, where he was ordained. Mr. Manchester was graduated from the Harvard Divinity School in 1872, ordained in Fairhaven on Jan. 9, 1873, and stayed pastor of the Washington Street Church for five years, or until he received a call to Providence. In Providence he officated as pastor for 15 years, and then moved to Salem, where he has been for the last 30 years. In 1880 he made a tour of Europe, Egypt, and the Holy Land, and has since delivered many travel lectures.

Rev. Alfred Manchester.

A record of having delivered over 3,000 sermons stands on the credit side of the Mr. Manchester's ledger. He has also in the long line of his work, officiated at 1,150 funerals and united more than 570 couples in marriage. In April he celebrated the 50th anniversary of his wedding. He is a past master of the Mt. Vernon Lodge No. 2, A. F. and A. M. and is also a member of the Independent Order of Odd Fellows.

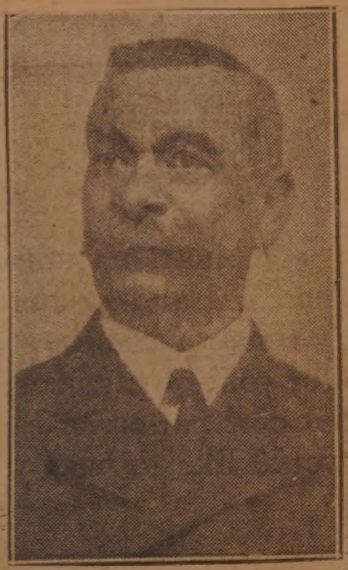
ranklin L. Hathaway, Keeper of House of Correction, d Last Evening

d Have Been 71 if He Had Lived Until August

Franklin L. Hathaway, keeper at House of Correction, died last ning after a long illness. Less than ear ago Mr. Hathaway underwent serious operation and although he d practically recovered from this recently suffered a general break- wn.



Franklin L. Hathaway.

Mr. Hathaway was born in this city and made his home here all his life. He would have been 71 Aug. 10. He was the son of Mr. and Mrs. John D. Hathaway. His father was at one time high sheriff of Bristol county. Mr. Hathaway was born on Smith street but when he was a small child the family moved to the Plainville section. He attended the Plainville school.

Worked as Carpenter.

Mr. Hathaway worked as a carpenter for several years during his early life. In 1879 he was appointed to the Police force. For a number of years he patrolled the Water street section which was regarded as the most difficult beat in the city. When the grade of inspector was established Mr. Hathaway and the late John C. Parker were the first men named to the post. To them were entrusted the most difficult cases with which the department had to cope.

While serving as an inspector Mr. Hathaway had many interesting experiences. One of the most unusual of these was a trip to Venezuela in 1897 to bring back to the city Dr. E. H. Noble, wanted here to meet charges of crime. This is said to be the longest journey that a New Bedford police officer has ever taken in the line of duty.

Served as Prosecuting Officer.

After the death of Deputy Chief Wilber of the Police Department, Mr. Hathaway served as prosecuting officer of the Police Court here.

In October, 1909, he was appointed keeper of the Jail and House of Correction. He succeeded J. Arthur Taylor. He was a member of the Knights of Pythias and formerly of the Odd Fellows.

Mr. Hathaway was twice married. His first wife was Miss Ella G. Lindsey, daughter of the late Revere G. Lindsey of this city. She died 19 years ago. His second wife was Mrs. Ruth E. Doane.

He is survived by his widow and two sons by his first wife. They are Former Mayor Edward R. Hathaway and Henry L. Hathaway, the collector of Internal Revenue for this district. Mr. Hathaway also leaves a step-daughter, Miss Gertrude H. Doane.

MAKES FENCE OF 37 BED SPRINGS; BOYS LOOTED HIS HENNERY

John Lula Builds Unique Barrier Out of Discarded Materials

"Boys steal my chickens and eggs", complained John Lula, of 108 Cedar Grove St., "I couldn't watch them all the time so built this fence."

The fence he built to answer this purpose is unique, serviceable, and economical, and may contain a few hints to the citizens of New Bedford confronted by similar difficulties.

What the enterprising Mr. Lula did was to construct a fence, six feet high entirely of discarded bed springs. In all 37 springs, which he lugged from a dumping ground, have gone into the making of the fence. All of these are firmly fastened together and secured to a stout wooden skeleton. To complete the work and give it a touch of finish he has applied a liberal coat of blue paint.

Mr. Lula commends the fence, not only for its cheapness but also for its height and strength. There are many more bed springs in the dumping ground, he asserts, and the supply is being constantly increased. He does advise, however, that a cart be used as he found it considerable work to carry the springs home in his spare time, from the Grinnell Mill where he is employed.

High Mass and Sermon Celebrated in Edifice Last Sunday

Parish Was Organized in 1909---Services First Held in Hall

June 10 23.

The Immaculate Conception Church celebrated its 14th anniversary last Sunday with a high mass and sermon. The Rev. Auguste J. Taveira, who has been pastor of the church ever since the parish was organized in 1909, acted as master of ceremonies at the mass. The celebrant was the Rev. Manuel D. Souza, the Rev. Jose Ferreira and the Rev. A. N. Almeida acted as deacon and sub-deacon. The Rev. J. P. Ferreira, O. F. M., preached the sermon, which dealt with the history of the parish.

Father Taveira.

The Immaculate Conception Parish was first formed Sept. 30, 1909, previous to which the district had been a mission of St. John The Baptist Church. The orginal congregation, which met in a hall in the corner of Acushnet avenue and Holly street, numbered about 250 persons.

Was Made Pastor.

The Rev. Auguste J. Taveira, at that time assistant pastor of St. Christophe's Church, Fall River, was made pastor of the new parish and has remained so ever since. During his stay he has seen the parish grow to 900 families, with a weekly average attendance at services of 3,000 persons instead of the original 250.

The property at the corner of Holly street and Acushnet avenue, which was bought by the founders of the parish in 1909, was given up by them as not being located near enough to the heart of the parish and a plot of land was brought, extending from Earl to Davis streets, on the west side of Diman street. Here the work of erecting the present church was begun in 1916, and completed the following year.

The church is an attractive brick structure, with well kept grounds, and cost, including the land, $44,000. In 1920 more land to the west was bought, and the rectory, a pretty white shingled house, erected at a cost of $57,000. Father Taveira plans to built a school as well, when the finances of the parish will permit.

wind from the eastward
blows
the marsh to me,
Dripping and cold, from the ocean goes
A salty tang o'er the lea.
Across the harbor, its wharves and
boats,
The frosty breath of the Arctic floats;
And the city, soon losing the summer
day,
Is wrapped in a mantle, cold and gray,
When the mists come in from the
sea.

Softly the rain comes like driven spray
Over the marsh to me;
Dim grow the hills under skies of gray,
And a gentler world I see.
For the mills and chimneys are out-
lines faint
Of the shadowy castles artist's paint,
And the block of flats by the marsh-
land seems
The palace I have built in the Land
of Dreams
When the mists come in from the
sea.

Soft as the wind from the ocean blown
Over the marsh so free,
Borne from the depths of the Great
Unknown
A sorrow comes to me.
Then a chill comes o'er me, as through
the tears
I see all shattered the hope of years.
But the vision that blesses my grief
and pain,
Only the good and the true remain
When the mists come in from the
sea.

Softly the wind from the eastward
blows,
Over the marsh to me,
Kissing the grass and the drooping
rose,
Reviving the dusty tree.
For the wind that brings us the chill
and rain,
Refreshes the hot, parched town again,
And the sorrows our Heavenly Father
sends
Reveal the angels who were our friends
When the mists come in from the
sea.

HEBREW POET TO ISSUE BOOK

"Biblical and Modern Verse" to Contain 236 Poems by Jacob Ackerman

Author Is Now Head of Jewish School in This City

1923 Sept. 29

A book of 236 poems, in Hebrew, has just been finished by Jacob J. Ackerman, of 99½ South street, head of the Hebrew School on County street. It is entitled "Biblical and Modern Poems and Songs." Arrangements have been made for the publication of the book within the next two months.

In Mr. Ackerman's poems, the parallel between Biblical and modern life is strongly drawn, and even his Biblical poems are based on present-day life. A few of the titles of the Biblical poems follow: "Adam in the Garden of Eden," "Dinah, Daughter of Jacob," "Sarah and Hagar," "Ishmael, Father of the Arabians," "Nimrod, the First Bolshevist," and "The Drama of Queen Esther."

Many of the poems are entirely modern, dealing with present-day subjects. Among them are "President Lincoln," "Irene and Phyllis," "The Crazy Anti-Semite" and "The Soul of the Great Man." Mr. Ackerman has also written a poem in the style and spirit of Walt Whitman's "Captain, My Captain," and has translated several poems from the work of a Hebrew-Spanish poet who wrote about nine centuries ago, Rabbi Judah Alevi.

Started Several Years Ago.

The book of poems was started by Mr. Ackerman several years ago, when he lived in Portland, Me., where, he says, he strongly felt the poetic influence of Longfellow. Later the poet travelled among the cities of New England in the interest of a Hebrew college in Boston, where he first taught after coming to this country. A year ago he settled in New Bedford, and it was here that most of the poems were written. The last one was finished last week.

About a month ago Mr. Ackerman made arrangements with the Levant Press Company for printing the book, which will be distributed by Reznick & Menchell, a publishing firm in New York. The books will be distributed throughout every Jewish community in the country, and complimentary copies will be given to many libraries.

Mr. Ackerman was born 35 years ago in Russia, where, though entirely self-educated, he became a teacher of Hebrew in one of the schools. He came to this country in 1906. He says that he likes New Bedford very much and plans to make it his permanent home.

Light Keeper Clings to Home as It Floats Across Bay

House Towed from Ned's Point Beacon to Wing's Neck on Scow

Wife Bids Farewell to Garden as Their Dwelling Bobs Away

Captain Russell B. Eastman, former keeper of Ned's Point light, Mattapoisett, has been "houseboating" in the most literal sense possible. His home for nine years, a little white house which has nestled for years by the tall white tower, went bobbing gently across Buzzards Bay this morning to the astonishment of early shipping.

The house will be the home of the elderly keeper and his wife for only a short time, however, for the assistant keeper of the Wing's Neck light, Pocasset, Charles Dennis, has been promised the use of it for his family. Mr. Dennis, who has been living in a shack in the lee of the powerful beacon at the canal entrance, was rather surprised this morning when he discovered that not only had the dwelling been transported across the bay, but that Mr. Eastman had arrived with it, furniture and all, and was prepared to continue housekeeping in familiar old rooms, now facing across the bay to the west instead of the east.

HOME ON SCOW READY FOR VOYAGE.

Mr. and Mrs. Eastman will be housed by the Government until another berth as lighthouse keeper has been found for him. With the decision to do away with a keeper at the Ned's Point light, which for more than a century has guarded the mouth of Mattapoisett harbor, it was decided to ship the keeper's house across the Bay to Wing's Neck where there was need of it. The Eastmans temporarily had no place to go—except along with their home.

Captain Eastman has been in the lighthouse service for 27 years. Before coming to Ned's Point he had charge of the Highland light at North Truro, one of the most important of coast beacons and the Bass River light at West Dennis. The Eastmans have a son, Capt. Russell A. Eastman, commander of the steamer Rotarian, which runs from New York [illegible] South America.

Twist Drill Groups Number Oldest Employes and Some of Second Generation

Fifty years and more of continuous service have been given the Morse Twist Drill by each of the men in the lower group, which comprises, left to right, seated: B. F. Spicer, George P. Rexford, and H. E. Longley; standing, left to right: Benjamin Williams, H. A. Manchester, D. W. Cory, David F. Coville, Green Allen and Thomas Borden.

In the upper group are some of the men who have worked continuously for more than 30 years, their terms of service ranging from 30 to 52 years; front row: Benjamin Williams, H. E. Longley, Thomas Borden, D. W. Cory, A. C. Johnson, the youngest man in the employ of the Drill who has been there at least 30 years, David F. Coville, H. A. Manchester, Green Allen, B. F. Spicer, George P. Rexford; second row, left to right: Willis Fuller, W. Hervey, John C. Brown, Charles T. Sherman, Joseph M. Ashley, Ira Cobb, Joseph C. Babcock, John Baylies, Ansel C. Morse, J. H. Davis; third row, left to right: F. K. Mein, Arthur S. Covill, Thomas Akin, Charles A. Johnson, G. W. Sampson, Frank C. Brightman, J. W. Robertson, Charles E. Davis, William Anglin, Morris Chace; fourth row, left to right: Frank Morris, W. E. Wyatt, George W. Burgess, Frank Veeder, David B. Caswell, William Manchester, Charles S. Jenney.

The lower insert shows the Service Button given, with one star, to each employe after five years of continuous service. With each additional five years, another star is added. The 50-Year Pin is shown, with ten stars.

The center insert shows Edward Williams, Charles Johnson and Robert Mein, who represent the second generation still in the Twist Drill employ. Their fathers are shown in the upper photograph.

ELEVEN HAVE BEEN HALF CENTURY IN MORSE TWIST DRILL'S EMPLOY

"Kind Treatment, Steady Work, Good Pay," Reasons Assigned for Remarkable Record of Continuous Service---David F. Coville Tops List with 52 Years to Credit

"Kind treatment. Steady work. Good pay."

These three reasons, given by the employes themselves, explain why the Morse Twist Drill numbers among its 1500 and more employes five who have been working there continuously for 52 years; five who have been working there continuously for 51 years; one, a woman, who has been there 50 years; and 35 more who have been there for periods ranging in length from 30 to 47 years.

In other words, figuring the actual length of time for each employe, the Morse Twist Drill has 46 employes who have worked there a total of 1,917 years. Of these, 11 alone have been there 565 years all told!

This is a record that reflects credit both upon the employes and upon the company. It is doubtful if it can be equalled by any other industrial organization in this section of the country.

Entered March 1871.

David F. Coville, who entered the employ of the company 52 years ago, back in March, 1871, is the oldest employe from point of continuous service now at the Drill. Seven months behind him is George P. Rexford, who has worked without a break for the company since October, 1871, but who was employed there for a while even before that. Henry Olmstead, who is out of town at present but still in the employ of the company, and Benjamin F. Williams, both began work in November of the same year, while Daniel W. Cory came in December of that same year.

In 1872, February, May, July, September and December respectively, came H. A. Manchester, Herbert E. Longley, Benjamin F. Spicer, Thomas J. Borden and Green B. Allen, so that they have been at the Drill 51 years.

And to Miss Lydia F. Whithead goes the honor of being the woman longest in the employ of the company, 50 years, half a century, on the 13th of this month. She came in May, 1873, and has remained since, in the clerical department.

The complete list of the employes with six or more service stars on their service pins, each star representing five years, is as follows, with the name, address, present branch of employment and year they started work given:

David F. Coville, March, 1871, machinist, 134 Bedford street.
George P. Rexford, October, 1871, inspector, 224 Pleasant street.

NEW PLEASANT STREET PASTOR COMES OF PREACHING STOCK

may 15-23

Rev. G. Stanley Helps's Father in England Was "On the Plan" and He Has a Brother Engaged in Evangelistic Work in China at Present

Rev. G. Stanley Helps.

(Special to The Standard.)

Manchester, N. H., April 14.—Rev. G. Stanley Helps who opens his pastorate at the Pleasant Street Methodist Church, New Bedford April 22 goes to New Bedford from Somersworth, N. H., where he has served the High Street Methodist Church since 1921. Mr. Helps is one of the younger men in the denomination and has done effective work in his previous pastorates. He is of English birth and of preaching stock as his father, although a business man, has been what is called in England "on the plan" a local preacher and in connection with his business has spoken from most of the large pulpits in that country. One brother, Rev. J. Sidney Helps, has been a missionary in China since 1902, stationed at Wuchang. He is engaged in evangelistic work and has served the cause of education there by writing a complete arithmetic in Chinese for use in the schools. A second brother, still in England, often preaches "on the plan." Mr. Helps is the youngest of three preaching brothers.

Born in Caine, England, he spent much of his early life as a resident of Bath, which is near by and which was one of the old social centers of the 18th century in England. Mr. Helps came over to Canada 13 years ago to enter the ministry. In England he was a teacher in the English state school and preached "on the plan."

Mr. Helps matriculated at London University and took a full teacher's diploma. In Canada he attended Mt. Allison University at Sackville, New Brunswick, where he was a classmate of Rev. A. E. Tingley, Ph.D., of Fairhaven. At this university and theological school he received his B.A., with honors in English, and later his M.A., and was a first class theological student.

He was married to Miss Eva Lindsay, a member of the old Lindsay family of Gaspe, Quebec. They have no children. During his student days he had preaching charges in New Brunswick and his first charge after his ordination was at Hartland, N. B., near the Maine border, where he remained for two years from 1916 to 1918. Later he went to Hampton, N. B., a suburban residential place near St. John for a three years' pastorate. From there he was transferred to the New Hampshire conference and was stationed in Somersworth in 1921.

Mr. Helps is interested in music and at Somersworth developed some excellent choral work in his church. The "Crucifixion" was put on at his church Palm Sunday by his chorus. He also makes young people's work a prominent part of his church. In several places he has organized and led boys' clubs. His boys' club at Hampton won the Y. M. C. A. cup for teen age clubs throughout Canada. Although he was not their trainer, Mr. Helps encouraged and assisted the boys toward their goal.

The Somersworth church from which he comes to New Bedford is one of the prominent churches of that city and is endowed by an interesting historical background. It is one of the few Methodist churches which is an independent incorporated society.

Last summer Mr. Helps spent in England where he went for the first time in 12 years to see his brother at home on furlough from China. While there he took a trip over into France, Switzerland, the Bavarian highlands and to the Tyrrol, and also saw the Passion Play. Mr. Helps ha[s] had many calls upon his time and talent as a public speaker on literary subjects and in travel talks. He is especially interested in history and literature and is well posted upon these subjects. Mrs. Helps is of great assistance to him in his pastoral wo[rk] because of her interest in social w[ork] among girls.

DEATH TAKES E. L. MORIARTY

End Comes at St. Luke's Hospital This Morning After Months of Illness

Native of City He Had Served in Council---Was in Auto Business

Edward L. Moriarty died in St. Luke's Hospital at 11:15 yesterday morning, following a long illness. He had been a patient at the hospital for about 16 weeks.

Mr. Moriarty was a man well known about the city for many years through his connection for several years with the automobile business, later as a member of the City Council and during the last of his life as a salesman for the Hathaway Oil Company. He was a native of New Bedford, the son of the late Edward and Sarah Moriarty, and he had always lived here with the exception of a short period, when he was in Salem.

Edward L. Moriarty.

He was 43 years of age.

Mr. Moriarty first started in business at Purchase and Russell streets, as the proprietor of a drug store. Then came the development of the automobile business, and after one or two business connections Mr. Moriarty engaged in business with Courtney P. Ashley, the firm doing business under the name of the A. M. Motor Car Company, with a place of business on Pleasant street, opposite the Municipal lot, for several years. Mr. Moriarty later carried on the business at a place farther north on Pleasant street.

For a short time, Mr. Moriarty after giving up the automobile business, was employed as foreman mechanic at the Municipal garage, and for the year prior to his death he had been connected with the Hathaway Oil Company as a salesman. He had been well until last spring, when he suffered from kidney and heart trouble, and a complication of these caused death.

Mr. Moriarty is survived by his wife, Mrs. Mary M. Moriarty; a sister, Mrs. Augustus Kennedy, of South Atlantic street, and one brother, James Moriarty, living in the west.

Philip H. Slocum Promoting "Great Joliet Recreation Plan" in Illinois City

Philip H. Slocum, son of Mrs. Addie T. Slocum, of 274 Mill street, reported to Joliet, Ill. July 14, to begin his new duties with the Park and School Board in promoting the "Greater Juliot Recreation Plan". The transfer was made by the Community Service, Incorporated in the form of a promotion for his work as Director of Community Service in Richmond, Ind.

Mr. Slocum was director of the de Valles Community Center for two years and was active in the organization of community boy's playgrounds in the city. Leaving here in 1921, he has been director of Community Service in Richmond until his transfer this month. Many new features in community work were added in Richmond during the two years he was there, including organization of a girls' camp, first celebration of July 4th in 50 years and various community sports and gatherings new to the city.

The work at Joliet, Mr. Slocum is planning to organize is of a similar nature but more directly connected with the school work of the city. The plan of the city is to extend the use of school buildings and public park lands and to develop an adequate recreation program for the people of the community. Mr. Slocum will be the executive secretary of this work.

Miss Louise Pratt to Wed Wallis Eastburne Howe, Jr., of Bristol, R. I.

The engagement of Miss Louise Pratt to Wallis Eastburne Howe, Jr., of Bristol, R. I., has been announced by Miss Pratt's parents, Dr. and Mrs. Charles A. Pratt, of 50 Orchard street.

Mr. Howe was graduated from Dartmouth College in June. Miss Pratt attended Miss Porter's School in Farmington, Conn., and made her New Bedford debut at the Fall Assembly of 1920. The engagement is one of wide social interest. No date has been set for the wedding.

Mr. Howe is ranked as one of Southern New England's best tennis players. While playing varsity tennis at Dartmouth College he was a member of the team that won the New England inter-collegiate doubles championship in 1921 and 1922. In 1921 Mr. Howe entered the Bristol County tournament at the New Bedford Country Club and captured the singles title. This year he was a finalist in the New England collegiate singles and doubles.

Miss Carol Wilhelmina Murphy Becomes Bride of Dr. Mahoney

Couple Go on Honeymoon Trip to White Mountains

(*Special to The Standard.*)

Braintree, Aug. 20.—Miss Carol Wilhelmina Murphy, daughter of Mr. and Mrs. Jeremiah Murphy, of 54 River street, became the bride of Dr. John Francis Mahoney, city physician of New Bedford, at a quiet ceremony in St. Francis's Church here at 4:30 this afternoon. The Rev Patrick T. Higgins, pastor of St. Francis's Church, officiated.

The bride was attended by Miss Ruth Haskins, of Taunton, a cousin. Frank C. Mahoney, of New Bedford, a brother of the bridegroom, was best man.

The ceremony was followed by a reception and dinner at 54 River street, the home of the parents of the bride, after which the couple left on a wedding tour by motor to the White Mountains. Dr. Mahoney and his bride will also spend a few days in Canada. Upon their return Dr. and Mrs. Mahoney will live at 177 Nash road, New Bedford.

The bride was born here and is a graduate of Thayer Academy, and of the Forsythe Dental Infirmary, Boston. After completing her course at the latter school two years ago she was employed by the Board of Health of New Bedford as a dental hygienist in the public schools.

She resigned her position in New Bedford in June.

Dr. Mahoney is a native of New Bedford. After graduation from the public grammar and High schools of that city, he attended Tufts Medical School, from which he received his degree in 1915. With the exception of two years spent in the United States Medical Corps during the World war, he has practiced in New Bedford since that time. He has been city physician since last June.

PASTOR COMING FROM CHESHIRE

Rev. Mr. Vachon Will Succeed Rev. Uel Anderson Here

Preaches First Sermons at Immanuel Baptist Church Sept. 30

Rev. Joseph Albert Vachon, who will take the place of Rev. Uel Anderson, as pastor of the Immanuel Baptist Church, was born at Danielson, Conn., May 27, 1887. He attended the public and high schools there and in 1911 entered Yale College, from where he was graduated in 1915 with the degree of B. A. He entered Newton Theological Institution at Newton Centre in 1915 and was graduated in 1918 with the degree of B. D.

Mr. Vachon entered Y. M. C. A. war work on leaving the theological seminary and remained there until October, 1919. He was stationed at Camp Devens as Social and Educational Secretary.

In October, 1919, he went to Cheshire, Mass, to become pastor of the Baptist Church there, and from whence he will come to New Bedford. While there he baptized 16 into the church and has received several others by letter. He has specialized in boys' work, having had a boys' club and Boy Scouts, acting as Scoutmaster. At present there is a troop of 23 boys. On Sept. 7, he handed in his resignation which took effect Sept. 23. He will take up his pastorate here at the Immanuel Baptist Church Sept. 30. He will preach at the morning and evening services. His topic will be, at the morning service, "My One Sermon," and at the afternoon service, "The Greatest Tribute."

IT SEEMS LIKE HOME

So said Mrs. Elmer Clifton yesterday of New Bedford. The wife of the director of "Down to the Sea in Ships" leaves for New York City tomorrow after a few days with friends here. "I would love to stay longer but my mother, Mrs. Pauline Hansen of Los Angeles, who has been with me nine weeks, is about to go home, and I must see her off," said Mrs. Clifton. "But," she added, "I'll be back soon."

Mrs. Clifton brought word that her husband has finished shooting "Six Cylinder Love" and is editing his picture in the projection room. He has his next picture in mind already, she adds.

NEW APARTMENT CITY'S LARGEST

Cottage Street House Most Pretentious of Kind Here

12 Apartments on Three Floors — Erected by Frederick W. Andrews

The apartment house on the east side of Cottage street, north of Arnold street, will be New Bedford's most pretentious apartment house. There is a smaller house on the west side of Cottage street, nearly opposite this buff colored brick three-story structure.

This apartment house erected by Frederick W. Andrews occupies the site of what was formerly an open tract in front with a garage in the rear owned by Walter H. Langshaw. There will be 12 apartments four on each floor, and they will be ready for occupancy in the early fall. Tenants occupying the apartments will pay a rental ranging from $85 to $100 a month, according to the location and number of rooms in the apartments. There will be apartments with dining room, living room, chamber, kitchen and bathroom, while a few of the apartments will have a second chamber.

The foundations of the building are of rough texture brick of a shade similar to the superstructure, while the trimmings are of artificial stone. There are balconies for each of the apartments, while the tenants are also provided with means of escape in the event of fire, the fire escapes being hidden by the wall projections that form the semi-circular rooms. There is a handsome copper marquise over the Cottage street entrance which is reached by means of cut granite circular steps. The Cottage street entrance admits to an enclosed vestibule, with steps to the level of the corridor with a cement floor.

In the vestibule will be telephone connections to each of the apartments, while there is also provision for admitting callers to the inner corridor from the outer vestibule. The corridor walls on each floor have a cherry wainscot finished in natural stain. The second and third story corridor floors are of oak and the floors in all of the rooms are of oak. Each apartment has its own hall with the rooms off this separate hall, so that each apartment may be shut off by closing a single door. There are French windows between the living room and dining room in each of the apartments and all of the doorknobs are of brass. Each kitchen is to be provided with a range and ice box, and each tenant will likewise have a dumb waiter running from the basement to the third floor for the carrying of supplies to the tenants and the removal of refuse from the

The kitchen is provided with porcelain sink with a deep porcelain tub adjoining, and further facilities in the kitchen will be the installation of glass shelves with glass doors as a large closet with drawers. The insides of each chamber door has a full length bevel mirror.

The structure is of the best fireproof construction with metal doors where these can be shut in case of fire in any part of the building. The building will be heated by hot water, the heat and janitor service to be provided by the owner. The janitor's quarters will be in the basement. All of the piping in the house is of brass and is so arranged that the water connections can be regulated by shutoffs outside the apartments.

DEATH TAKES ZACH DUNHAM

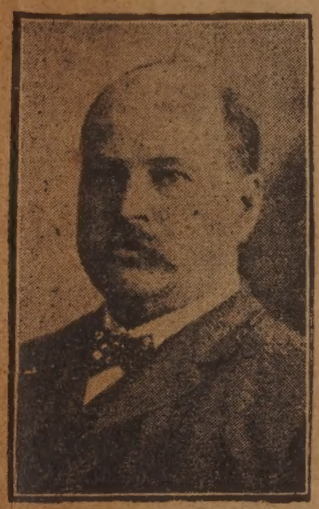
Native of New Bedford Was Prominent in Masonic Circles Here

July 21 1923

Last Moment Came at Home of His Sister Yesterday Afternoon

Zacheus C. Dunham, for years prominent in New Bedford Masonic organizations, died yesterday at the School street residence of his sister, Mrs. George Farnham, with whom he made his home. He was 65 years of age.

Mr. Dunham, familiarly known as "Zack" Dunham to the thousands in and out of the Masonic fraternity who had known him well for many years, was a native of New Bedford, born here in 1858. He had made this city his home all of his life. After leaving school he was first employed in the



Zacheus C. Dunham.

store of George M. Eddy, one of the several buildings now occupied by the Steiger Dudgeon Company. During his employment with Mr. Eddy, Mr. Dunham became the head of the carpet department.

He later went to the Morse Twist Drill & Machine Company, remaining with that concern for many years. Leaving his employment there, Mr. Dunham entered the employ of the Holmes Coal Company, and was for about 14 years with this company, for several years as the manager of the former Purchase street office. He was for a short time in the office of the company in The Standard building. During the last of his life Mr. Dunham had been unable to work because of rheumatism and a complication of other troubles. This condition that kept him more or less confined had continued for the last 12 years. A year ago he was forced to confine himself to a wheel chair, and early in July he was forced to take to his bed.

Prominent in Masonic Circles.

Mr. Dunham was one of the best known men in Masonic circles in New Bedford through his long association with the various affiliated organizations. He was a member of Star in the East Lodge, withdrawing to be one of those instrumental in the institution of Abraham H. Howland, Jr., Lodge. He was a member of the Adoniram Royal Arch Chapter, the New Bedford Council of Royal and Select Masters and of Sutton Commandery, Knights Templar. Mr. Dunham was a former eminent commander of Sutton Commandery and for 26 years had served the commandery as its treasurer. He was also treasurer of Abraham H. Howland, Jr., Lodge and of Adoniram Royal Arch Chapter. Mr. Dunham had in years previous planned many of the tours made by New Bedford Masons, and had accompanied the commandery in visits to other commanderies. In addition to his close affiliation with the various Masonic bodies, Mr. Dunham had been at one time prominent in the old City Guards, having served as a Lieutenant.

Mr. Dunham married early in life, but his wife died shortly after their marriage and he had never married again. There were no children by the marriage. Mr. Dunham had made his home with his sister, Mrs. Lydia Farnham, 103 School street, and she is the last of his direct family to survive him. There are three nephews and a niece, children of two brothers of Mr. Dunham. The nephews are Alfred and Otis Dunham, sons of a brother, Alfred; Stephen Dunham, a son of a brother, Thomas, and the niece is Mrs. Ruby Noble, a daughter of his brother, Thomas. They all make their homes in New Bedford.

GERRETT GEILS MEETS DEATH

July 20-23

Never Fully Recovered from Severe Pneumonia Attack of Last Spring

Studied Law When Shoe-Worker---Passed Bar Examination in His Thirties

Gerrett Geils, Jr., died at his home, 528 Cottage street, last night as a result of weakness and a general nervous breakdown following a severe attack of pneumonia last spring. Mr. Geils had not been a well man for several years, but while his friends were aware of this he was always the most cheerful person in any company. He had an attack of pneumonia about seven weeks ago, going to St. Luke's hospital for treatment. After recovering from this attack, Mr. Geils was taken to his home, though still in a weakened condition. He was never able to leave his bed thereafter, though there were times when he

Gerrett Geils, Jr.

gained in strength so that hope was held out that he might recover.

Mr. Geils was a man with a host of friends, always cheerful, and those who knew him best were aware that he faced life with a brave front despite the fact that he was not well. Entering the practice of law when well along in years, Mr. Geils brought to the profession a painstaking interest and achieved a fine success.

Passed Bar in Late Thirties.

The career of Gerrett Geils, Jr., was one of more than ordinary interest, the story of a man who passed the bar examinations in his late thirties and by showing the same persevering determination to succeed that took him from a post in the old Hathaway, Soule and Harrington shoe factory to a desk in the law offices of Stetson & Stetson, became a successful practicing attorney, a lawyer highly rated and respected in the profession.

Born in this city the son of Gerrett and Mary Geils Sept. 28, 1868, Mr. Geils received his education in the public primary and grammar schools here then began work in a shoe factory. He spent 24 years in the factory and had the distinction of being the first president of the local Boot and Shoe Workers' Union.

Thomas Skinner, Former New Bedford Resident, with Family on Auto Tour Stops Off Here

"Gee, but it seems good to get back to the old town," exclaimed Thomas Skinner, Hammonton, N. J., when he dropped into New Bedford the other day. Mr. Skinner is an old-time resident of New Bedford, and is making an auto tour of New England while on his vacation.

"Many of the old folks still remember me, although I see many strange faces around here lately. I try to come up every year, in order not to be away from New Bedford for too long a time," he said.

In 1895 Mr. Skinner was employed by the Pairpoint Glass Corporation, but left in the same year to start a glass factory in Philadelphia with his

father. Later he settled in New Jersey, and was elected to the presidency of the Hammonton Trust Company in 1909.

"At that time I was 31 years old and considered the youngest president of any concern in the United States," asserted Mr. Skinner.

Mr. Skinner once sang in the boys' choir of St. Martin's Church, and there helped lay the cornerstone of the new church in 1891. He attended the Thompson street school, as did Mrs. Skinner.

"I didn't meet her there, but we met in St. Martin's Church, and were married there. She was in the same class with me at school," said Mr. Skinner.

The party consisted of Mr. and Mrs. Skinner, their daughters, Misses Mary C. Skinner and Doris Skinner. Miss Mary attended a girls' camp in New Hampshire. They leave for Hammonton on Thursday, after a ten-day jaunt through New England.

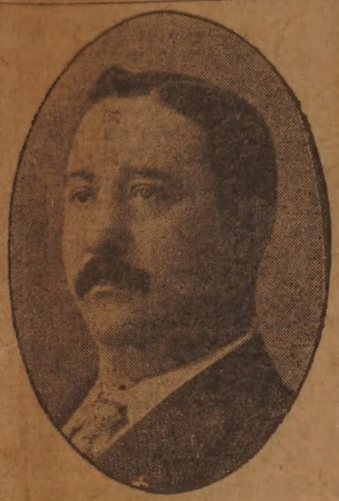
WILLIAM E. SMITH DIES AT HOME OF HIS BROTHER IN PHILADELPHIA

July 19-23

Former Alderman and Well-Known Politician Here Succumbed on Tuesday

Native of England, He Long Made New Bedford His Residence

William E. Smith, familiarly known as "Billy" Smith, for many years a resident of Palmer street, New Bedford, and prominent and popular in New Bedford politics, died Tuesday morning at the home of his brother, A. E. Smith, at 1160 Herbert street, Frankford, Philadelphia. Mr. Smith,



William E. Smith.

who would have been 69 the first of August, had been in failing health for a year and a half or longer. His death was peaceful, but not unexpected. He is survived by his wife and his brother. His funeral will be held Saturday afternoon at two in Philadelphia.

Mr. Smith came to New Bedford in 1893 as district superintendent of the Metropolitan Life Insurance Company and continued to make his home here after his retirement in 1906 at the completion of 25 years of service with the company. He served the city eight years as Councilman and Alderman of Ward Four, first taking public office in 1897. He was also member of the Water Board. It is not generally known that Mr. Smith declined the offer of Charles S. Ashley to nominate him for the city treasurership after the resignation of City Treasurer James H. Hathaway, saying he preferred not to be tied down. He was a member of the Republican City Committee, and was a candidate for Representative in 1908. In 1912 he came out as an ardent Roosevelt Progressive.

Born in England.

Sheffield, England, was Mr. Smith's birthplace. He started work at the age of nine as a backboy in a mill. Later he learned the machinist's trade finishing his apprenticeship at the age of 21. He entered the insurance business the following year, and in 1881 was sent to this country by his employers. He was stationed at Troy, N. Y., New York City, and Dayton, Ohio, as agent. In 1884 he was promoted to a superintendency; in 1887 he was in Brooklyn, in 1891 in Philadelphia, and then came to New Bedford, which he said he preferred to all other cities he had lived in.

Mr. Smith left New Bedford about eight years ago, making his summer home in Troy, N. Y., and spending his winters in St. Petersburg, Florida. He frequently visited in Padanaram during the summer, and was with friends there last year, who were grieved to note his failing health at that time. He was very active in Masonic circles in New Bedford, and a member of New Bedford Lodge of Elks. He belonged to Eureka Lodge, A. F. and A. M., Sutton Commandery No. 16, Knights Templars, Aleppo Temple of the Mystic Shrine, Eastern Star Dartmouth Chapter No. 106, the Gordon Lodge, No. 172, and the Order of the Sons of St. George.

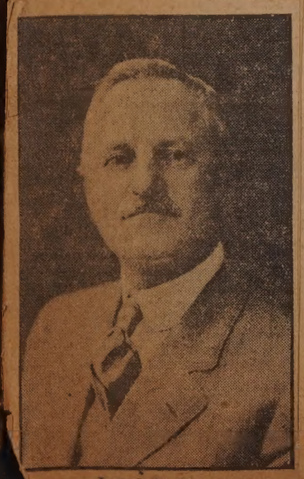
C. W. Holcomb Finances Plan Whereby Employes Take Control of Established Half Million Dollar Business

EACH WORKER A STOCKHOLDER

Allowed to Buy Shares on Weekly Payment Plan---Holcomb Builds Big Warehouse for Firm but Is Not Even a Director

To turn over to one's employes an established business of twenty years standing which is doing a business of $500,000 a year, is unusual enough to attract attention but to further invest $150,000 in a magnificent new concrete warehouse to give this business permanent modern quarters sufficient to provide for its growth for some years to come and then to leave the control of the whole establishment entirely in the hands of the workers themselves sounds more or less like a fairy tale, but that is exactly what Clark W. Holcomb has done with the plumbing supply business formerly conducted by the New Bedford Boiler and Machine Co.



Joseph K. Nye.

JOSEPH K. NYE, HEAD OF OIL FIRM, DIES AFTER LONG ILLNESS

Son of Founder of William F. Nye Concern Had Been at Attleboro Sanitarium Since Aug. 30---Man of Varied Talents, He Attained Distinction by Poetry

Aug 30-28

Joseph Keith Nye, head of the William F. Nye oil business on Fish Island, died last evening at eight at the Attleboro Springs Sanitarium, in Attleboro. He was 65.

Mr. Nye had been in ill health for some years, and since last December he had been more or less confined to the house by complications of physical troubles. He had been at the Attleboro Sanitarium since Aug. 30.

Mr. Nye was a native of Fairhaven, born Feb. 28, 1858, the son of the late William F. and Mary S. (Keith) Nye, his father a native of the town of Sandwich, the ancestral home of the Nye family, and his mother, a native of Middleboro. Mr. Nye received his education in the schools of Fairhaven, later entered the Massachusetts Institute of Technology and was a graduate of that institution. He later traveled to some extent and became associated with his father in the conduct of the oil business, in which William F. Nye had built up an organization with world-wide affiliations. The story of William F. Nye's energy that went into the building of this business that holds almost a world monopoly of furnishing fine oils for clocks, watches and sewing machines is one of the most interesting in the industrial annals of this community. Joseph K. Nye succeeded to this business as the sole proprietor and owner and it has continued to this day a business with a world-wide clientele. Probably no other business in the community has served to spread the name of New Bedford so widely as has this oil business that William F. Nye started in a small way in Fairhaven in 1844.

EDMUND GRINNELL TO SAIL FOR FRANCE FOR OPERA'S PRODUCTION

Oct 21-23

His "The Ruby Ring" to Be Given in Cannes---Mrs. Grinnell Goes Also

Newport, R. I., Sept. 21.—Mr. and Mrs. Edmund Grinnell are sailing about Oct. 1 for France, where Mr. Grinnell will participate in the preparations for the production of his opera, "The Ruby Ring" at the opera house in Cannes some time in January. The opera will be produced entirely in French. Jean de Reszke is choosing the singers, and Teodor Tereschenko, celebrated Russian composer, is writing the orchestration.

Mr. and Mrs. Grinnell have spent the summer at their home, "Longacre," Old Beach road, after an absence of two years abroad, and would not have returned to Europe so soon again had not the production of Mr. Grinnell's opera required it. Mrs. Grinnell was Mrs. Walter Norman Eldridge, of Newport. Her marriage in 1919 to Mr. Grinnell, son of Mrs. Edmund Grinnell, of 32 Maple street, New Bedford, took place at Longacre. Mr. Grinnell, who is a pianist and organist as well as composer, was stationed at Newport harbor for some time during the war and met Mrs. Grinnell, then Mrs. Eldridge, in both musical and social circles.

"The Ruby Ring" is light opera. The first scene deals with the birthday and coronation of the orphan princess Sukara. Her uncle and aunt, the Duke and Duchess Dundubar, give her a poisoned ruby ring and she falls dead. The second scene is laid in a forest with fairies, giants, sprites, gnomes and elves. Prince Florizel is lost and bemoans the fate of the princess. The Queen of the Fairies directs him to a beautiful garden guarded by giants. He gives the giants a potion, picks a lily, the soul of the princess, and returns to the castle. In the third scene the princess is revived, the prince and princess are married, and the duke and duchess are banished. The opera will be staged with fine electrical effects, costumes and dances.

Later it will be given in this country.

Edmund Grinnell.

HAD CHARGE OF MOVING DRYDOCK

Captain Arthur G. Burt, Former New Bedford Man, Accomplished Big Task

Has Had Unusual Career in Shipping Circles of United States

June 14, 1923.

A former New Bedford young man, Captain Arthur G. Burt, had complete charge of moving the 10,000 ton, five-section, electrically-operated floating drydock, which was built for the United States Government at the Narragansett Shipyard at Tiverton, from there to the Naval Station at Newport, recently.

The work was completed a week or two ago. The actual moving occupied only five or six days, but many times that was necessary in preparation for the moving. While on the job, Captain Burt made several brief visits to his old home, New Bedford, renewing acquaintances with school friends here, many of whom hadn't seen him for 10 or 12 years.

All the operations in connection with the work of moving the huge drydock, preparatory and actual, were under the direct charge and supervision of Captain Burt, who for several years has made his home in New York City. He is now connected with the United States Shipping Board Emergency Fleet Corporation in its New York office, acting in the capacity of assistant manager of the laid-up ships division. He returned to New York only a few days ago, following the successful completion of the drydock removal.

The work itself was of a highly responsible nature, it is understood, calling for the very highest order of professional seamanship, together with expert operating and structural knowledge of the docks themselves.

One of Best Built.

The drydock was built at Tiverton at a cost of nearly a million and a quarter dollars and is considered one of the very best floating drydocks ever built. Only the finest grade of material was used in its construction. The present valuation, allowing for decreased costs in labor and material would be approximately $750,000, —a considerable amount of Government money, necessitating, of course, extreme care in the handling of the

Physician Succumbs to Angina Pectoris at Five This Morning

Gave Up Practice Two Weeks Ago to Take a Rest

Dr. Charles F. Connor died very suddenly at his residence, 11 North Orchard street, at five, this morning. Death was due to angina pectoris. Dr. Connor had attended to his practice up to two weeks ago, at which time he gave up for a time to take a rest. He remained at home and went to bed, in the hope that a rest would bring him back to his usual health. During this time, Dr. Connor had some days when he appeared very well and yes-

terday he was particularly comfortable and cheerful. Death coming suddenly this morning was a shock to the members of his family, while it is even more so to the many in the community who knew him well and were not aware that he was ill. Dr. Connor was 50.

Born Here.

Dr. Connor was born in New Bedford Aug. 6, 1873, attended the New Bedford public schools and was graduated from the New Bedford High School. Those who recall Dr. Connor

one well liked and popular with everyone who knew him. He was captain of the High school cadets during his senior year. He was interested in the study of medicine and after some study here he entered the medical school of Columbia University, from where he was graduated in 1895. For a year following his graduation Dr. Connor was house physician and surgeon in the Worcester City Hospital. At the end of a year there Dr. Connor returned to New Bedford and he had since then continued in practice in this city. He had acquired a large practice and was well known for his devotion to his profession.

From 1905 to 1913 he was assistant surgeon on the staff of St. Luke's Hospital, in this city, and from 1908 to the time of his death he had been a member of the medical staff of the hospital. He was the senior member of the staff at the time of his death. Dr. Connor had been a member of the New Bedford Medical Society, the Massachusetts Medical Society, the American Medical Association, and the South Bristol District Medical Society, connected with the Massachusetts Medical Society. He had served as president of the New Bedford Medical Society and of the South Bristol District Medical Society. Dr. Connor had served as bacteriologist to the New Bedford Board of Health, having been elected for a number of years. In 1907, a position he retained for a number of years. In 1912 Dr. Connor spent six months in Berlin, making a special study of the diseases of children.

Dr. Connor is survived by his wife, Mrs. May Ewen (Dudley) Connor; one son, Edward Conhor, now in Philadelphia, and one daughter, Miss Isabel Connor, of this city. He is survived also by two sisters, Mrs. Grace Greenwood of this city, and Mrs. George Reed, of Worcester.

Mrs. Connor and Miss Connor returned from an extended trip abroad early this summer.

Carleton Briggs Dies from Complications of Injuries Received Six Weeks Ago ---Active in State Guards

Carleton C. Briggs, 22, son of Mr. and Mrs. Samuel Briggs, of 419 North street, and well known in this city through several years of activity in the Massachusetts State Guards, and with semi-military organizations in New Bedford, died at the Bradford sanitarium, in Acushnet, at 10:40 Saturday morning, after an illness of two weeks. Sinusitis was the cause of death.

Injuries received in an automobile accident, six weeks ago, when he was hurled through the windshield of a car, at County and Morgan streets,

Carleton C. Briggs.

started complications which led to his removal, four days ago, to the Acushnet sanitarium, where he underwent two successive operations.

Besides his parents, Mr. and Mrs. Samuel B. Briggs, of 419 North street Mr. Briggs leaves a wife, formerly Miss Alice T. Dale, of 17 Stapleton street, and a baby daughter, Margaret. He is survived also by a brother, Milton.

Born in New Bedford in September 1900, Carleton Briggs was educated in the schools of this city. After graduation from the Parker Street grammar school, he took up electrical work at the Vocational School, and entered the employ of New Bedford electric concerns. He was later a night operator at the New Bedford Hotel. At the time of his death, he was a conductor with the Union Street Railway.

Mr. Briggs was an active member of the Massachusetts State Guards, and a bugler in the New Bedford company. He was for many years active in Boy Scout and Boys' Brigade work in New Bedford.

FLORIDA CHURCH NOW BEING BUILT

Little River M. E. Church Which Has Been Established as Miami Suburban Branch Largely Through Efforts of the Rev. Frank A. Hamilton.

HELPED FOUND NEW CHURCH

Frank A. Hamilton Largely Responsible for Suburban Branch at Miami

Son of Dr. Hamilton Spoke at Recent Corner Stone Exercises

Frank A. Hamilton, a former New Bedford boy and now an associate pastor of the First Methodist Episcopal Church of Miami, Fla., has been largely responsible for the organization and building enterprise of a branch of the church at Little River, a town not far from Miami. The laying of the cornerstone of the Little River Church, which took place June 24, was an event of much ceremony. About 400 people were present, and Mr. Hamilton was one of the speakers. The Little River Church is the first of several suburban churches which will constitute the Miami parish. As an associate pastor of the mother church, Mr. Hamilton will do a great deal of the preaching in the new house of worship.

The auditorium of the new church will seat about 350 and the social pavilion about 175. It will be constructed of concrete blocks, stuccoed in semi-Spanish style. The cost of the ground and the building, now nearly completed, will be not less than $12,400. Funds have been raised not only from the people of Miami and Little River, but from the Livingston Fund left several years ago by Mr. Livingston to establish Methodist Episcopal churches in the state of Florida. At the laying of the corner stone, more than $1000 was raised, and now only $1794 is lacking to defray the cost of the building.

Known as White Temple.

The First Methodist Episcopal Church of Miami is a large beautiful building in the center of the city. It is largely attended by the tourists that flock to Miami, and has become well known as the White Temple because of its color. During the height of the tourist season, the congregation averages nearly 1800 people, and in the summer it drops to about 500 or 600.

Mr. Hamilton is the son of Dr. and Mrs. H. B. Hamilton, of 79 Hill street, of this city. He attended the New Bedford High school, graduating with the class of 1913. He is a graduate of Wesleyan University. In Sept., 1921, he married Myra E. Jones of this city, and immediately afterwards assumed his duties at Miami.

Frank A. Hamilton.

The following excerpts from a letter written by the Rev. R. N. Merrill, pastor of the Miami church, shows the success Mr. Hamilton has achelved in his position.

"So popular has Frank Hamilton been during the two years spent in this southern tourist city," the letter reads, "that his salary has been increased by $300, and he has been provided a car for his use, together with its upkeep. Beginning with Sept. 1, there will be another increase of $480."

Mr. Hamilton will come to this city in the middle of August for a six week's vacation. Mrs. Hamilton will arrive here in a very few days, and she is to spend three months with her parents, Mr. and Mrs. Ernest Jones of New Bedford.

ONCE MADE HANGMAN'S NOOS... THEN PLUMBER FOR 55 YE...

Edward F. Penney Was Prominent in Polit... Too---An Ashley Booster and Councilm... from 1897 Till 1901---Then Andy Do... Beat Him by Two Votes

Aug. 5, 23

To have been in the metal and plumbing for 55 years, and to have had a shop of his own for 43 years is all in a lifetime for Edward F. Penney, of 26 Washington street, the oldest metal worker in New Bedford. There are many other things which he considers worth while mentioning about himself besides his participation in a time-honored trade.

Mr. Penney, who is 72 years and eight months old, and outside of having a little rheumatism now and then is one of the most hale and hearty of the grand old man of New Bedford, can tell a story like a youngster, and with a youngster's customary intensiveness, and one somehow doesn't feel as though the greater part of a century had passed over the head of this pleasant old man and left him unscathed. His face has a youthful appearance that can be envied by the

Edward F. Penney.

sallow and lifeless faces of some of the sophisticated youths flourishing in the present generation, who think they know it all, and yet, after all, know so very little.

Mr. Penney is an old Ashley man, and his most pleasant recollections come to him when he is thinking about the campaigns in which the wards warred lustily against one another.

Likens Politics to Flea.

"Politics, see, is like a flea," he said in that pleasant way of his which has become known throughout the city, "you put it between your fingers, squeeze it, it is there, and when you want to take it to the light it's gone, and you don't know where it went.

"I remember a time when all those who supported a man for office thought that they could get what they wanted out of him when once he was elected. There is an incident which I recall which shows this clearly.

"In the first few days of Charles S. Ashley's administration a man came to him and wanted to get two licenses for something or other. Well, you know that Mayor Ashley had a way about him that was irresistible, and he could handle situations as well as any man. Well, when this man came in Mayor Ashley so completely subdued his arrogant demands that he came from the office saying, 'Well, I don't know how as I even deserved one of them licenses!'"

Mr. Penney himself has an interesting political history. He was councilman from Ward Six in ... again in 1901 he was defeated by ... votes by Andrew P. Doyle. A ... count was taken, it was found ... Mr. Doyle had three votes that sho... have gone on the Penney ballot, ... at the end of the recount which ... to have resulted in a tie, discrepanc... were found in the counting and ... Doyle came out ahead by two votes ... was one of the most interesting of ... the elections in New Bedford.

After leaving school as a young b... Mr. Penney started to work in t... rope works, where he stayed f... three years and during that tim... helped to make three hangman's rope... out of special hemp. This he recall... as his most interesting experience ... the works.

"Do you know," he queried, "ho... many people there are in this city wh... got their start in the rope works?... There are quite a few of them, al... good Americans, but now the person... nel in the works is mostly of foreign... origin."

Learned Metal Work in 1868.

After his experiences in the rope factory he started work with Tobey and Coggeshall on William street, and his purpose was to learn the metal and plumbing business. This was back in May, 1868, just after the Civil War. He did not serve in the war, as he was too young, having been born in 1850. In the year 1880 he started business for himself on County street near Allen, and on November 18, 1883 he moved to the corner of County and Wing streets. On June 1, 1890, he moved into the present site of his business, on the corner of County and Washington streets, and outside of some three and one half years spent in Biddeford, Me., he has been at the place ever since.

Mr. Penney was formerly a member of the Pilgrim Club, the New Bedford Protecting Association, and the New Bedford City Guards, in the latter of which he held a corporalship, Dan Butler being commander. For a time, too, he was in the Veteran Guards. Of late he has built a little home in Padanaram, and there he goes of a Saturday to spend the week end, and to dream of the old times, especially those of his political activity.

Directors Increase Fund from $350 to $400 and Divide Total

The directors of the Harvard Club of New Bedford have voted to increase the annual scholarship fund from $350 to $400 and to divide this sum equally between Albert A. Grimshaw, of 979 Pleasant street and Nicholas Ciaburri, of 17 Jenney street.

Four New Bedford High school boys applied for the scholarship and their claims were considered by the scholarship committee of the club. The committee was unable to arrive at a unanimous choice of one of the four, and voted to report the circumstances to the directors with a suggestion that they invite Grimshaw

Albert A. Grimshaw.

and Ciaburri to appear before them. Both boys stood well in their studies throughout their High school course. Grimshaw was prominent in student activities, playing on the football, baseball and basketball teams, and was class salutatorian. Ciaburri spent only three years in the High school; as the oldest boy of a large family he was obliged to leave school at the end of his freshman year and go to work. Attendance at night school earned him such credits that when he saw his way clear to going back to school after two years' absence he was able to get the required credits in two more years of study.

The directors felt that the case for each of the boys was so strong that a choice between them was impossible, and so decided to give each of them a scholarship.

Cook on Lightship Whiles Away Time on Whaler Model

Cook by vocation and craftsman by avocation, Louis Nevis, chef on the Lightship Number 66, stationed five miles off Nantucket, fashions ships' models in his spare time.

"Between meals" this model of an old New Bedford whaler was created. Mr. Nevis, following blue-prints and a picture of a craft he had never seen, worked painstakingly in leisure moments between breakfast and dinner, dinner and supper, and during the evenings when he was relieved of ship routine. The whaler "Falcon", of which the ship shown above is a model, was lost at sea, on a voyage out of New Bedford several years before Mr. Nevis first arrived in this country.

"But there's an old book around the lightship," explained the craftsman cook, "with pictures of all kinds of old vessels, especially old whalers. I found a picture of the 'Falcon' in it, liked it, and came upon a blue-print of the boat. I used the blue-prints, with the pictures, to make the boat."

Nearly five months are represented in the labor on the two foot model, which was begun last March. Mr. Nevis asserts. Soft pine was the chief material of construction with cherry in the masts, and maple in the tiny oars, which resemble tooth-picks set in the life boats. The "ropes" are of coarse thread, or what Mr. Nevis calls "shoe-strings."

The "Falcon" is the second completed model Mr. Nevis has made. His first, a freighter, was finished a few months before. Mr. Nevis arrived in this country 23 years ago. He has been with the Lightship for four years; while on shore he makes his home at 2777 Acushnet avenue.

Arrangement of Equipment, Modern Handling Apparatus and Excellent Lighting Make New Mill Model of Its Kind

With so many of the cotton manufacturing establishments, both in New Bedford and elsewhere, closing down their plants for a period or running only a small part of the equipment and even that for only three or four days a week, a good many New Bedford people have the idea that the entire textile trade is depressed and running on a short time basis. To many, therefore, it will be somewhat of a surprise to know that the National Spun Silk Mill is not only running all of its machinery full time, but is actually operating today more machinery than it ever ran before, and is running some departments nights. It is employing fully 1,300 workers, and the huge new five story concrete mill, built in 1919-1920, is now in operation, with practically every machine humming to its full capacity.

TOWN CLERK OF DARTMOUTH DIES

Leg. 21-23

Benjamin J. Potter Had Held Office for 32 Years---Recently Underwent an Operation

Benjamin J. Potter, town clerk of Dartmouth, and one of the oldest town officials in this section, died at his home in South Dartmouth yesterday, after an illness of about seven weeks. Mr. Potter recently underwent an operation for intestinal trouble, and failed to rally after the operation. He was 76 years of age.

Mr. Potter had served in the position of town clerk for a period of 32

years. For 25 years he held the three offices of town clerk, treasurer and collector of taxes, but in 1916 he announced that on March 1st he would give up the office of collector of taxes and seek only those of town clerk and treasurer. He was forced to take this step because of the great financial growth of the town, because of which he did not have the time to attend to the collection of taxes.

Mr. Potter is survived by his wife and a daughter, Annie. He was a prominent member of the North Congregational church.

NAMED TO CITY MISSION POST

Sept 21-23

Warren E. Mesler Will Direct Young Men's and Boys' Work

Warren E. Mesler, who has been chosen as director of the Young Men's and Boys' work at the Dennison memorial, comes to this city from East Orange, N. J., well qualified to fill the place to which he has been called. Mr. Mesler is the oldest of a family of nine and has had to work his way through school.

He worked days and studied nights with the intention of becoming a foreign missionary, but he has been told by the board that when he has filled the necessary requirements, he will be too old for that line of work. Mr. Mesler took a course covering three years under the auspices of the Evangelistic committee. He has been connected with Gedeon's of New Jersey and the Newark Evangelistic Committee of outdoor preaching.

At these meetings, Mr. Mesler was the leader of the Saturday night singing. His connection with the "Children's Temple," fits him to take charge of the younger boys social and religious welfare. Mr. Mesler is much pleased with the boys and younger men here, and believes that in working with them, he will obtain great results.

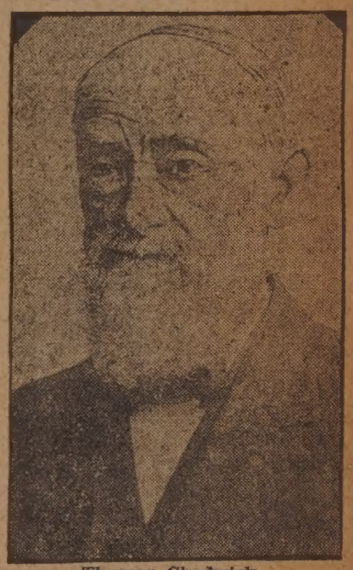
TO CELEBRATE 91ST BIRTHDAY

Thomas Chadwick, 58 North Street, Plans to Walk to Party to Be Given Him by Cousin

Sep. 9, '23.

Thomas Chadwick, of 58 North street, celebrates his 91st birthday September 11. Celebrates is strictly accurate, for he is going to a party given in his honor at the home of his cousin, Stephen F. Adams, corner of Maxfield and Chestnut streets. He will probably walk up there too, for he is a great tramper, taking several walks every day in spite of his age.

Mr. Chadwick could not attribute his remarkable preservation to any particular cause, except possibly the hard work he did at the coopers' trade in his earlier days. He says he has never smoked nor drank, but does not think that has anything to do with it. "Lots of men chew tobacco and smoke and drink rum and live just as long as I have," he told the reporter.



Thomas Chadwick.

Mr. Chadwick lives with his only daughter, Miss Lily A. Chadwick. Miss Chadwick keeps a toy shop in her front room, and her father helps her. "He does a good deal of hard work, too," she said proudly.

He is interested in the people who come to the shop, and in the last 20 years he has seen many of them grow up and marry and have children of their own to buy toys for.

Born on the Cape.

Mr. Chadwick was born in Sandwich, down on the Cape, but came to this city in '51 and took up his trade. Except for several years in the Pennsylvania oil fields and a year in New York he has lived here all his life, and likes New Bedford as well as any city he knows.

For many years he ran a coopering establishment of his own, but with the decline of whaling, and consequently of coopering, he gave up the business and has helped his daughter with the store for about 20 years.

Mr. Chadwick is in fine health, sees without glasses, hears well, walks down town two or three times a day, and in short seems to be good for another 91 years of life.

ELECTED ... TREASURER HERE

Elmer A. MacGowan, Worcester, Succeeds Batchelor at Institution for Savings

Latter Retires Oct. 15--Trustees Pass Resolution of Appreciation

Apr. 12, 23

Elmer A. MacGowan, of Worcester, was yesterday elected treasurer of the New Bedford Institution for Savings, to succeed George H. Batchelor, who retires after a service of 50 years in the employ of this banking institution. Mr. MacGowan is now the first assistant treasurer of the Worcester County Institution for Savings, with

Elmer A. MacGowan.

which institution he has been connected for 20 years, during all of his banking career. Mr. Batchelor's resignation as treasurer will become effective Oct. 15, and Mr. MacGowan will assume the duties of treasurer on that date.

Mr. MacGowan is a native of Worcester, a man of Scotch descent and is 41. He received the recommendation of Alfred L. Aikin, president of the Shawmut National bank of Boston and a member of the board of investment of the Worcester bank with which Mr. MacGowan is connected. He also has the endorsement of other well known banking men.

The trustees yesterday adopted a resolution of appreciation of the long services of Mr. Batchelor, and in this connection it is of interest that this note of appreciation was prepared by William W. Crapo, now 93 years of age, former president of the New Bedford Institution for Savings, preceding the present president, Thomas S. Hathaway, in that office. Mr. Crapo was chairman of the committee which included George N. Alden and John Duff. The appreciation:

"To the Board of Trustees of the New Bedford Institution for Savings:

"The announcement of the resignation of George H. Batchelor as treasurer of the New Bedford Institution for Savings, after a service of many years, prompts a recital of a ... and successf...

"Mr. Batchelor, shortly after leaving school, received employment in the bank. His diligence, promptness and earnestness gained him promotion until he had acquired full knowledge of the details of the receipt and payment of deposits and the method of accounting. The death of Charles H. Peirce in 1904 created a vacancy in the office of treasurer, and Mr. Batchelor was promoted to fill the same. His resignation completes 50 years of active service, which has been marked with great faithfulness and satisfaction. Figures show the results under his administration.

"In May, 1904, when Mr. Batchelor took the official work of the bank, the depositors numbered 28,151. In 1923 the number of depositors is 42,916. The amount due depositors in 1904 was $15,150,415.94 and it is now $25,494,474.71, a gain of $10,344,058.77; while the assets of the bank in loans, bonds, mortgages and real estate amount to $28,257,435.04.

"Kindly helpful to those seeking his advice, and earnest, thoughtful and active in performance, he met the requirements of the office.

"After the lapse of many years of service there came the consciousness of weariness and the lessened vigor, which might be restored by rest and recreation.

"Mr. Batchelor retires from the office of treasurer with the grateful appreciation of the Board of Trustees and his associates of the service he has rendered and with sincere good wishes for his future comfort and cheer."

Honore Bergeron, Before He Died, Told Relatives $5970 There

Search Made Yesterday After Will Is Read Reveals Money

Five piles of dusty $10 to $100 bills, tucked away under shingles and bricks in the loft of the garage of Honore Bergeron, at 108 Belleville road, the whole totalling $5970, were found yesterday after reading of the will of Mr. Bergeron. The discovery was made by Mr. Bergeron's brother, Luger, and Attorney Emile Auger, of the law firm which executed the will. So dusty were the bills that the finders' hands became thoroughly soiled in handling them.

Shortly before Mr. Bergeron died he told relatives that he had hidden this money in the garage. After the will was read this story was investigated, and found to be true. In addition, Mr. Bergeron leaves an estate of between $50,000 and $75,000.

the new world's most important capitals and commercial cities. It will be an interesting and difficult work. I am glad to undertake it, as I have long been, as you know, a firm believer in missions.

"It has not, however, been easy to decide to leave the fine, loyal people of Grace Parish and the work I have been privileged to lead here. I am especially grateful to you men on the vestry for your loyalty and co-operation. Grace church is making excellent progress, and my earnest, confident prayer is that the parish may continue to go forward in harmony and strength and with a generous appreciation of what it may both be and do for the Kingdom of God."

In accepting Mr. Beal's resignation the wardens and vestry unanimously passed the following resolution: "Understanding that the resignation of Mr. Beal is irrevocable we accept the same with deep regret and we feel a sincere appreciation of his wonderful work in the parish and wish him Godspeed in his new venture."

Mr. Beal became rector of Grace church April 15, 1917. During the war Grace church took a prominent part in this city in spiritual activity and practical work and has continued to make uninterrupted progress in the post-war period. The parish now numbers about one thousand confirmed persons.

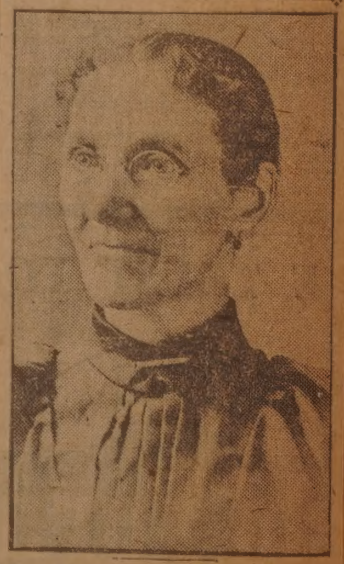
As rector of Grace church Mr. Beal has been president of the Brooks Club. He is president of the Central Council of Social Agencies, president of the Men's Mission, a director of the Board of Commerce, a member of the executive committee of the Union for Good Works, a director of the New Bedford Legal Aid Society, which he helped to organize and of which he has been president and a vice president of the Daily Vacation Bible Schools.

In the diocese of Massachusetts Mr. Beal is chairman of the board of examining chaplains and a member of the department of missions and the department of religious education.

He has been a member for a number of years of the executive committee of the Conference for Church Work, a large Episcopal summer conference which meets at Wellesley College early each summer. Mr. Beal expects to continue his connection with these meetings and come up for them from Havana.

Mr. Beal has been a member of the New Bedford Ministerial Association during his residence here. He is also a member of the New Bedford Chapter of the Sons of the American Revolution, of the Clericus Club of Boston and of the Yale Club of Boston.

NATIVE OF SCOTLAND



Mrs. Margaret S. Brown, Resident Here for 50 Years, Dies

Jan 8 '24

Mrs. Margaret S. Brown, 142 Liberty street, died early yesterday afternoon at her home, following a two months illness. Mrs. Brown, who was the widow of Kennedy Brown, was 76. She was a native of Glasgow, Scotland, but came to this country while a girl, living first in New York and then in Providence. She had been a resident of this city for about 50 years.

Mrs. Brown was a member of the Presbyterian Church and at one time of the Spanish War Veterans' Auxiliary, and was widely known in New Bedford. She leaves a son, David, with whom she lived, and two daughters, Mrs. Emma P. Manter and Mrs. Walter S. Frost, both of Fairhaven.

Church to Greet New Pastor at Silver Anniversary Fete

Sept-29-23

Immanuel Baptist Completes Its 25th Year---Grew Out of North End Mission

Welcome to Rev. J. A. Vachon to Be Part of Celebration on Wednesday

The celebration at the Immanuel Baptist Church Wednesday will have a double significance, for it will not only be a welcome to the new pastor, Rev. J. A. Vachon, but also an observance of the silver anniversary of the church. The church grew out of a Sunday School mission at the North End, which passed from one denomination to another until it finally became established as a Baptist institution under the supervision of the North Baptist Church. The North Baptist is really the mother church of the Immanuel Baptist, which was incorporated Sept. 25, 1898.

Through its years of struggling to build up a substantial organization, its original members have stayed in active service unless these have left the city, died or become incapacitated. Of the 50 charter members, who organized the church from the mission, only a few are left; but two of the first deacons are living, James Whitham, of 470 Summer street, and John Valentine, who is now a member of the North Baptist Church; the third, John Whitehead, has since died.

James Whitham was the first Sunday School superintendent and holds that office now, although at intervals since his first appointment he has been unable to carry on the work. The first clerk was W. H. Tinsen and the first treasurer Alfred Marsden, of 3506 Acushnet avenue. Living with Mr. Marsden is his mother-in-law, Mrs. Sarah Audrey, who has been particularly active in the church activities during her life, and is the oldest living member.

PAYS VISIT TO MOTHER HERE

Oct 7-23

Joseph Touchette, American Consular Assistant at Nancy, Says French Solidly Back of Poincare

Joseph Touchette, American consular assistant at Nancy, France, who arrived here Thursday on a visit to his mother, Mrs. Mary Touchette, of 159 Belleville road, left today for Washington to take an examination which he hopes will make him eligible for an appointment as consul.

Mr. Touchette entered the consular service after the World War, returning to Nancy where he had been stationed with the 76th Division and where he had married a young French woman.

Talking on the present political situation in France, he said, "France is marking time while Germany falls to pieces."

The Ruhr invasion had brought nothing to the French but added expense they could ill bear, in Mr. Touchette's opinion. "It made it necessary for France to buy coal from England which she otherwise would have been receiving from the Ruhr." Coal prices have never been higher, he said.

Eventually, Mr. Touchette believes, France and Germany will reach an agreement whereby they will exchange products of their natural resources. "France has iron and needs coal while Germany has coal and needs iron. Already there have been several unofficial consultations between Hugo Stinnes and Deputy Louchier, who was minister of finance under Premier Briand. I think the government will take some official action soon."

The whole country was solid behind Poincare's policy of forcing Germany to fulfill its reparations agreements, he said.

"The French people feel that they can't always go on as they are under the burden of heavy taxes. They are sure Germany will eventually be forced to pay."

There is little unemployment in France now but prices for necessities are so high because of the exchange rate that workingmen have all they can do to eke out a living.

Mr. Touchette is a cousin of Lieutenant Inspector Hermes Touchette of the New Bedford police department. He expects to return to his post in three weeks.

ADS SCHOOL FOR THE DEAF

Dorothy S. Foster Becomes Principal of Austine Institution in Brattleboro, Vermont

New Bedford has supplied The Austine Institution, a training school for deaf children, in Brattleboro, Vermont, with its new superintendent. That post is now in charge of Miss Dorothy S. Foster, daughter of Henry S. Foster, of 22 Robeson street, and niece of Mrs. Walter H. B. Remington. Miss Foster, who has taught at the Institution since her graduation from the New Bedford High School in 1914, became superintendent this fall.

Miss Foster was attracted to the work of teaching deaf children to speak and to read lips through a former High School teacher, the late Miss Lydia J. Cranston, who had taught a former principal of the Institution. That principal through Miss Cranston offered the opportunity to a graduate of the High School class of 1914 to take the teacher training course of the Institution. The work appealed to Miss Foster and she went to Brattleboro, where she has taught ever since.

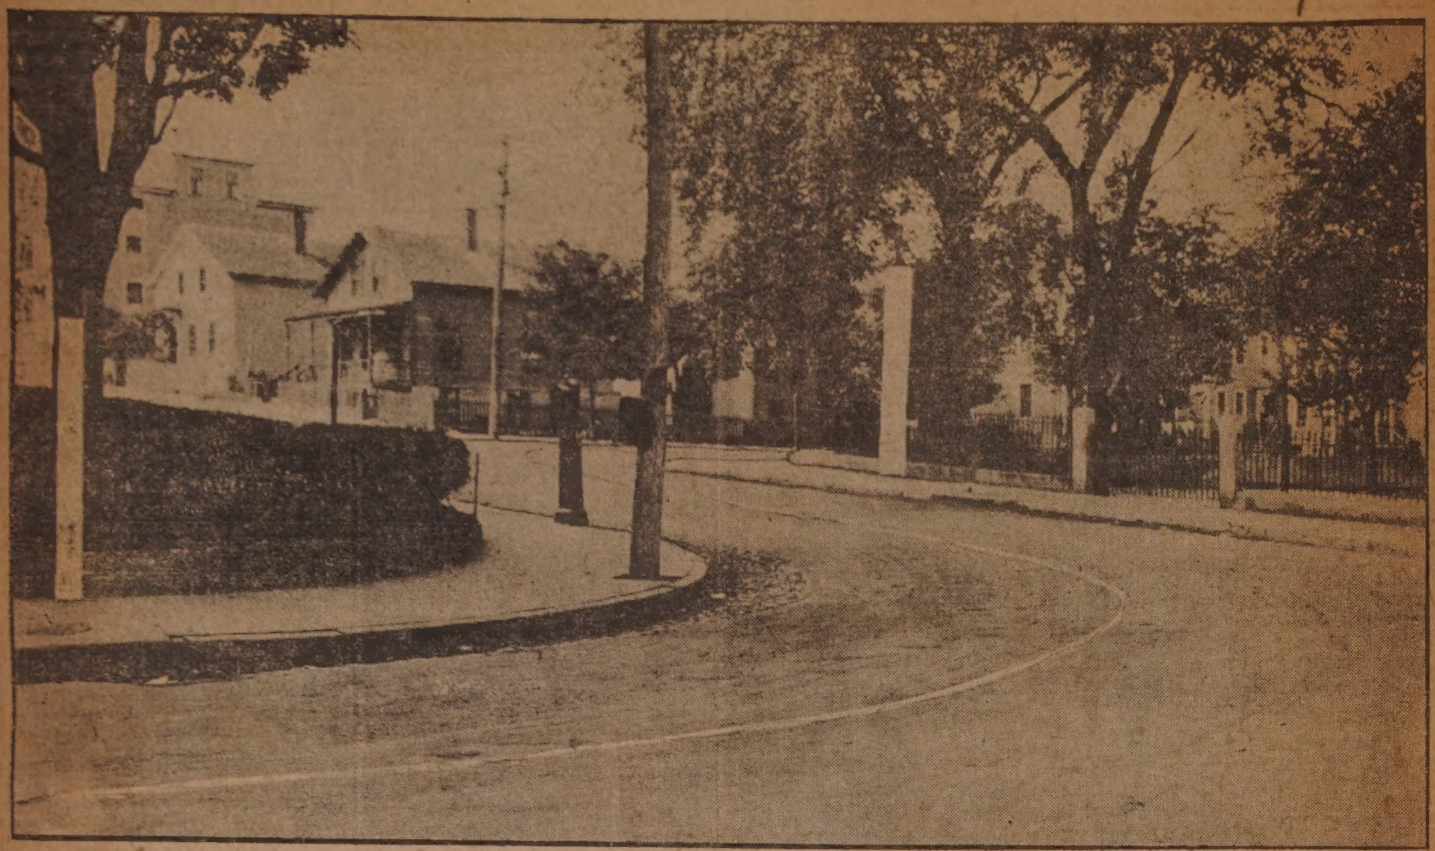
SQUARE CORNER WHICH ALDERMEN WOULD ELIMINATE



WHERE CHANGE IS PROPOSED.

This shows the square corner at County and Linden streets which the Board of Aldermen is seeking to eliminate. It is proposed to take 2.08 square rods from the grounds of St. James's Episcopal Church and 2.109 rods from the Holy Name school yard. The white lines in the picture illustrate approximately the amount to be taken from each site. Several hearings have been held on the matter and objections have been made to the plan by the Rev. James M. Coffey, pastor of the Holy Name Church. Father Coffey asserts that not only will the proposed change damage the school property but that it will also endanger the lives of the children as it will serve to increase speeding at this point. The Aldermen have placed the site on the visiting list again.

MRS. SUSAN A. TERRY DIED SUNDAY IN HER 93rd YEAR

Oct. 2-23

Mrs. Susan Almy Terry, wife of the late Elias Terry, died at her home, 89 State street, Sunday, aged 92 years and four months. Mrs. Terry was active up to the time of her death. For years she had been in the habit of celebrating her birthdays with three of her old friends, Mrs. C. L. Robbins, Mrs. Adelaide F. Wilde, and Mrs. Mary A. Potter. On the occasion of her 90th anniversary Mrs. Terry entertained at a whist party. She was fond of moving pictures, viewing them when the weather permitted her going out.

She is survived by two daughters, Miss Susan E. Terry and Miss Alice P. Terry, both of this city, and two sons, Charles A. V. Terry and K. Clifton Terry of New Bedford, and five grandchildren and nine great grandchildren.

The Rev. H. M. Hainer, pastor of the North Christian Church, of which she was an attendant, will officiate at the funeral service which will be held this afternoon at two. Burial will be in Rural cemetery.

Miss Ottola Nesmith Remembered Here as Lonergan Ingenue

Miss Ottola Nesmith, remembered in New Bedford as the charming ingenue of the Lester Lonergan Players in 1912, has maintained the high place which she soon afterwards reached on the dramatic ladder. To the seven or eight important Broadway leads she has played she adds this year the lead in "Loyalties", the new Dillingham production opening in Philadelphia.

Last year Miss Nesmith played both leads in "A Bill of Divorcement." She has played the principal role for David Belasco in "The Vanishing Bride," for Henry Miller in "Just Outside the Door," for Margaret Anglin in "A Woman of Importance," for John Drew in "The Gay Lord Quex", for William Hodge in "Guest of Honor" and for Cyril Scott in "The Man on the Balcony."

Miss Nesmith says: "I remember with great pleasure my season in New Bedford under Lester Lonergan's fine direction. I look back on it as my schooling and most invaluable training, too, for I was just out of school and trying my wings, so to speak, in the profession in which my mother, Blanche Vaughan, had been famous. The people in your city were so dear to me. I can never forget them.

In addition to her work on the speaking stage Miss Nesmith has been featured in about ten moving pictures, including Famous Players and Fox productions.

Retired as Fire Department Engineer Last March---Long in Drug Business

Frank R. Pease, for 33 years a druggist in New Bedford, and for 32 years connected with the New Bedford Fire Department, retiring last March as Second Assistant Engineer on account of ill-health, died at a sanitarium in Stoneham, shortly after two yesterday afternoon at the age of 65. Death came as a result of a complicated illness in which heart disease was a chief factor. Mr. Pease had been for years one of the best known men connected with the department, and last summer he was presented a silver cup by his associates following his retirement in the preceding March. It was as a result of Mr. Pease's long, active interest in the affairs of the fire department that several changes were introduced, including the first aid work and the physical training of the men in the department.

Frank R. Pease.

Mr. Pease was the son of the late William A. Pease, and was born in New Bedford, Aug. 23, 1863. He attended the public schools here and afterwards Friends' Academy. He was a graduate of the Episcopal Military Academy at Cheshire, Conn., in 1876. He next entered the drug store of his father at Kempton and County streets, and studied pharmacy in Boston.

self, opening the first drug store at Weld Square, then the heart of the North End. Three years later he entered into partnership with Pierre Dandurand, Jr., at Walker and Delano streets, at the South End.

Later Mr. Pease conducted a drug store in the Hacienda building at Acushnet avenue and Cedar Grove street, continuing at this place of business until 1912, when he was burned out. He later opened a drugstore at Acushnet avenue and Davis street, remaining in this store until 1913, when he became a full time member of the fire department. He had always devoted great time and interest to the affairs of the department, but since 1913, until his retirement, his whole time and interest went to this work.

Probably no one line of New Bedford-made products is so dear the heart of the average housewife as the Beacon blanket. Cer nly no other of New Bedford's manufactured products has a er distribution or a more favored place in the esteem of the age American. Its instant and perennial appeal to the everyday n is well illustrated by its popularity for prizes on the midway e various fairs that are held throughout the country. "Fakirs," lled, who make a business of conducting mid-way attractions, are that there is nothing that compares with the Beacon blanket s suitability for prizes, and that these blankets have the same ess-pulling power in all parts of the country.

GRACE CHURCH GETS PROCESSIONAL CROSS IN HAMMERED BRASS

Oct. 13, 1923.

Given in Memory of Mr. and Mrs. Nathaniel Buchanan Kerr by Their Children

A processional cross, in memory of the late Mr. and Mrs. Nathaniel Buchanan Kerr, the gift of their children, was dedicated at the eleven o'clock service in Grace Church last Sunday morning.

The cross is a beautiful, but simple design in hammered brass, and is, indeed, a most fitting memorial to two devoted members of Grace Church. Mr. Kerr was a member of the vestry for the past eleven years.

Carried by Ellsworth Cunningham at the head of the processional, the cross made a very impressive sight as the choir boys marched in singing:

"Onward, Christian soldiers,
Marching as to war,
With the cross of Jesus
Going on before."

In the picture James Rowand is carrying the cross.
